The financial statements are prepared in accordance with generally accepted accounting principles and presented in accordance with the legal reporting requirements applicable in Luxembourg relating to undertakings for collective investment.

b) Combined financial statements of the SICAV

The combined financial statements of the SICAV are expressed in euro (EUR) and correspond to the sum of investments in the financial statements of each sub-fund, converted into euro at the exchange rate prevailing at the end of the period.

c) Valuation of the assets of each sub-fund

1. The value of assets listed or traded on a Regulated Market, a stock exchange of another country or any other Regulated Market is determined on the basis of the last known price on the Valuation Day, or in the absence of transactions on the basis of the last known price on the market normally considered to be the primary market for these assets.

2. If the assets are not listed or traded on a Regulated Market, a stock exchange of another country or any other Regulated Market, or if for the assets held in the portfolio on the Valuation Day no price is available or the price determined according to paragraph (1) does not reflect the true value of these assets, the SICAV's Board of Directors will value the assets with prudence and in good faith on the basis of their foreseeable sale price.

3. Units/shares of open-ended undertakings for collective investment shall be valued on the basis of the last NAV available; if the price determined is not representative of the fair value of these assets, the price shall be determined by the SICAV's Board of Directors according to equitable and prudent criteria. Units/shares of closed-ended UCIs shall be valued on the basis of the last market value available.

Pictet International Capital Management

NOTES TO THE FINANCIAL STATEMENTS AS AT JUNE 30, 2017 (continued)

4. Options contracts and futures contracts not traded on a Regulated Market, stock exchange of another country or any other Regulated Market are valued at their liquidation value determined in accordance with the rules established in good faith by the SICAV's Board of Directors, in keeping with uniform criteria set out for each type of contract. The value of options contracts and futures contracts traded on a Regulated Market, stock exchange of another country or any other Regulated Market shall be based on the closing price or settlement price published by this Regulated Market, stock exchange of another country or other Regulated Market on which the contracts in question are primarily traded. If an option or future cannot be sold on the Valuation Day of the net assets concerned, the criteria for determining the liquidation value of such an option shall be set by the SICAV's Board of Directors in a reasonable and fair manner.

5. The value of cash in hand or at bank, notes and bills payable at sight and accounts receivable, prepaid expenses, dividends received and interest declared or due but not yet received, consists of the nominal value of these assets, unless it appears unlikely that this value will be received; in the latter case, the value is determined by deducting an amount the SICAV deems appropriate to reflect the real value of those assets.

d) Conversion of foreign currencies for each sub-fund

Cash at banks, other net assets and the market value of the investment portfolio expressed in currencies other than the currency of the sub-fund are converted into the reference currency of the sub-fund at the exchange rate prevailing at the end of the period.

Income and expenses expressed in currencies other than the reference currency of the sub-fund are converted into the currency of the sub-fund at the exchange rate applicable on the transaction date.

Resulting foreign exchange gains and losses are included in the statement of operations and changes in net assets.

e) Income

Dividends are recorded at the ex-dividend date.

Interest is recorded on an accrual basis.

f) Formation expenses

Formation expenses are amortised over a maximum period of five years.

g) Valuation of forward exchange contracts

The unrealised gains or losses resulting from outstanding forward exchange contracts are determined on the valuation day on the basis of the forward exchange prices applicable on this date and are recorded in the statement of net assets.

Pictet International Capital Management

NOTES TO THE FINANCIAL STATEMENTS AS AT JUNE 30, 2017 (continued)

h) Net realised gains or losses on investments

Realised gains or losses on sales of securities are calculated on the basis of weighted average cost.

i) Acquisition cost of securities in the portfolio

The cost of securities denominated in currencies other than the base currency of the sub-fund is calculated at the exchange rate prevailing on the acquisition date.

j) Transaction costs

Transaction costs represent the costs incurred by each sub-fund in relation to investment purchases and sales.

These include brokerage fees, bank charges, taxes, deposit fees and other transaction costs and are presented in the statement of operations and changes in net assets.

NOTE 3

MANAGEMENT AND INVESTMENT ADVISORY FEES

The investment manager and investment advisors are entitled to a fee payable quarterly at an annual rate that may vary depending on the sub-fund and sub-classes of shares but which may not exceed 2.00% of the average net asset values of the SICAV determined during the relevant quarter. This fee is deducted from each sub-fund (and where applicable from each sub-class of shares) pro rata to its net assets.

NOTE 5

TAXE D'ABONNEMENT

Under the legislation and regulations currently prevailing, the SICAV is not subject to any Luxembourg income tax or capital gains tax. The SICAV is subject to an annual *taxe d'abonnement* of 0.05% of the net assets, payable quarterly and calculated on the basis of the SICAV's net assets at the end of each quarter. This tax is reduced to 0.01% for share classes reserved for institutional investors. The portion of the net assets invested in units of other Luxembourg undertakings for collective investment is exempt from the *taxe d'abonnement*, provided such units have already been subject to this tax.

TOTAL EXPENSE RATIO ("TER")

Pursuant to the "Guidelines on the calculation and disclosure of the total expense ratio (TER) of collective investment schemes" of May 16, 2008 (version of April 20, 2015) of the Swiss Funds & Asset Management Association ("SFAMA"), the SICAV is obliged to publish a TER for the latest 12-month financial period.

The TER is defined as the ratio between the total operating expenses (Operating charges primarily consist of management and investment advisory fees, custodian fees, bank charges and interest, service fees, performance fees, taxes and duties) and the relevant sub-fund's / share class' average NAV (calculated on the basis of the daily average of the total net assets for the relevant period) expressed in its reference currency.

Moreover, for the new share classes launched during the year, operating expenses were annualised as stated in point 8 of the Guidelines (version of August 12, 2008). The amounts were annualised whereas certain fixed costs were not split equally over the year.

For the current financial period from July 1, 2016 to June 30, 2017, the TER was as follows:

PERFORMANCE

The performance was calculated by us at the end of each financial period according to the "Guidelines on the calculation and disclosure of the performance of collective capital investment schemes" of May 16, 2008 (version of July 1, 2013) of the Swiss Funds & Asset Management Association (SFAMA).

The performance given is based on historical data, which is no guide to current or future performance. Commissions and fees levied for the issue or redemption of shares, as applicable, have not been taken into account in this performance calculation.

The performance for each share class was calculated by comparing the net assets per share as at June 30, 2017 with the net assets per share as at December 31, 2016.

For the share classes that paid a dividend, the amount of the dividend was reintegrated in the net assets as at December 31, 2016 in order to calculate the performance

As at June 30, 2017, the performance was as follows:
