

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Loomis Sayles Global Credit Fund (I/A(USD) ISIN: LU0411265829), a sub-fund of Natixis International Funds (Lux) I SICAV

Management Company and Promoter: Natixis Investment Managers S.A., part of the Natixis group of companies

Investment Manager: Loomis, Sayles & Company, L.P., part of the Natixis group of companies

Objectives and Investment Policy

Investment objective:

The investment objective of Loomis Sayles Global Credit Fund (the "Fund") is high total investment return through a combination of income and capital appreciation while implementing an investment process that systematically includes Environmental, Social and Governance ("ESG") considerations.

Investment policy:

The Fund promotes environmental and/or social characteristics, but it does not have as its objective to make sustainable investments.

The Fund invests primarily in higher credit-quality fixed income securities of corporate issuers worldwide.

The Fund invests at least two thirds of its total assets in bonds (including green bonds) and other related fixed income securities issued by worldwide corporate issuers rated investment grade. Investment grade fixed income securities are securities rated at least BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Services, Inc.), an equivalent rating by Fitch ratings or if unrated, determined by the Investment Manager to be of equivalent quality.

The Fund may invest up to one third of its total assets in cash, money market instruments or securities other than those described above. The Fund may not invest more than 20% of its total assets in mortgage backed securities and asset backed securities. The Fund will not purchase any securities rated below investment grade and may hold a maximum of 5% in below investment grade securities due to downgrades. The Fund may invest up to 5% of its total assets in contingent convertible bonds and up to 10% of its net assets in undertakings for collective investment.

The Fund is actively managed and uses a research-driven strategy in selecting sectors and securities as its primary return sources. Country, currency, and yield curve positioning are secondary sources of return generation.

The Fund seeks to promote the environmental characteristic of climate change mitigation (the "Characteristic"), by investing a proportion of its assets in the debt securities of issuers which are aligned with this characteristic (e.g., green bonds).

As part of the investment strategy of the Fund, the Investment Manager uses a proprietary ESG framework to analyse data sourced from external providers and internal analysis conducted via in-house industry-specific materiality maps to generate individual scores for each issuer against specified ESG criteria used to calculate an industry-relative ESG score on a descending scale of 1 (above industry average); 2 (industry average); and 3 (below industry average).

The Investment Manager will limit its investments in issuers having an ESG score of 3 to 10% of its net assets.

The Investment Manager excludes from the Fund's investment universe: any issuers (i) which appears on the Norges Bank exclusion list; (ii) that are flagged by MSCI as having been involved in a recent severe controversy that fails one or more of the Ten Principles outlined in the UN Global Compact (UNGC); and (iii) identified by the ISS-Ethix Controversial Weapons Screening assessment as conducting business activities in the production/distribution of cluster munitions and anti-personnel mines.

The Investment Manager will then further analyse the remaining investment universe against additional ESG considerations to identify and select issuers which (a) promote the Characteristic and (b) follow good governance practices.

The ESG investment process remains subjective and dependent on the quality of the information available.

While the Fund seeks to promote the Characteristic by the application of the investment processes set out above, there is no guarantee that the Characteristics will be promoted by the Fund and investments losses may arise.

On an ancillary basis, the Fund may use derivatives for hedging and investment purposes.

The Fund is not managed relative to a specific index. However, for indicative purposes only, the Fund's performance may be compared to the Bloomberg Global Aggregate Credit Index. In practice, the portfolio of the Fund is likely to include constituents of the index, however, the Fund is unconstrained by the index and may therefore significantly deviate from it.

Shareholders may redeem Shares on demand on any business day in Luxembourg. Income derived from the Fund is distributed for distributing Shares and reinvested for accumulating Shares, as further detailed in this document. Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of Shares" of the Prospectus for additional information.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 3 years.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This ranking on the synthetic risk and reward indicator scale is due to the Fund's allocation to fixed income markets. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free".

The following risks are materially relevant to the Fund but are not adequately captured by the synthetic indicator:

Counterparty risk: The counterparty risk is the risk that a counterparty with whom the UCITS has entered into OTC transactions would not be in a position to fulfil its liabilities toward the UCITS.

Credit risk: Credit risk arises from the risk of impairment of the quality of an issuer and/or an issue, which may entail a reduction in the value of the security. It may also arise from default at maturity by an issuer in

the portfolio.

Liquidity risk: Liquidity risk represents the price reduction which the UCITS should potentially accept to have to sell certain securities for which there is one insufficient request on the market.

Impact of Management Techniques risk: The risk linked to the management techniques is the risk of increased losses due to the use of financial derivatives instruments and/or securities lending and repurchase transactions.

Please refer to the section entitled "Specific Risks" of the Prospectus for additional details on risks.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Charges by Share Class-Share Class I

One-Off charges taken before or after you invest

Entry Charge 3.00%

Exit Charge None *

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over a year

Ongoing Charges: 0.71% p.a.

Charges taken from the Fund under certain specific conditions

Performance Fee: None

The **entry and exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

*A levy of up to 2.00% may be applied to an investor engaging in excessive trading or market timing practices.

The **ongoing charges** figure is based on expenses for the year ending December 2021. It excludes the portfolio transaction costs, except in the case of an entry/exit charge paid by the SICAV when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to chapters “Charges and Expenses” and “Subscription, transfer, conversion and redemption of shares” of the Fund’s prospectus, which is available at www.im.natixis.com/intl/intl-fund-documents.

Past Performance

Past performance is not a reliable indicator of future performance.

This bar chart shows the performance of the I/A(USD) Share Class in its currency of quotation, net of ongoing charges and excluding entry or exit charges, and the performance of the Bloomberg Global Aggregate Credit Index.

The performance of the Fund is not linked to the performance of the Reference Index. The Reference Index is to be used as a comparator.

Date of creation of the Fund: 1 April 2009.
