The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

GLOBAL SPECIAL SITUATIONS

A Sub-Fund of ZEST ASSET MANAGEMENT SICAV, Class I USD LU1532289060

Management Company: FundPartner Solutions (Europe) S.A.

Objectives and investment policy

Objective

- The Sub-Fund aims at producing a positive return with in-depth analysis over selected securities and market opportunities by targeting companies with strong balance sheets which may have a temporal negative credit event not detrimental to the company as a whole. The Sub-Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Sub-Fund's portfolio.

Portfolio securities

- The Sub-Fund will invest at least 70% of its net assets in USD denominated Bonds, convertible bonds and debt instruments (the "Bonds"); money markets instruments; and units or shares of other UCITS and/or UCIs (including Exchange Traded Funds).
- Ratings requirements (at issue or issuer level): Bonds' rating shall range from High Yield (i.e. rating at least of B3/B- by Moody's, S&P or Fitch)) to investment grade (i.e. rating at least of BBB-/Baa3 by Moody's, S&P or Fitch); Money market instruments shall be rated at least investment grade.
- Investments in non-rated Bonds will be limited to 10% of the Sub-Fund's net assets. If the Bonds issuer/the issue is not rated by a recognized agency, the Board of Directors may, in its entire discretion, appreciate whether one instrument possesses the equivalent of at least High Yield rating criteria. This rating criteria assessment will be monitored by the Investment Manager on an ongoing basis (at least once a month) as from the date of investment until the sale of the concerned debt instruments.

Designed For

- Investors who want to invest in equity markets through an active management strategy and who have an investment horizon of at least 3 years.

Sub-Fund's Reference currency USD

- The Investor can place orders to buy or sell Sub-Fund shares on any given Luxembourg business day.*
- The Sub-Fund issues only accumulation shares (shares in which any income earned is added to the share price).*

Risk and reward profile

- This risk profile is based on historical data and may not be a reliable indication of the future risk profile.
- The risk/reward rating above is based on medium-term volatility (Share price variations over five years). The volatility and risk/reward rating could change in the future.
- The lowest category cannot be regarded as being risk-free.
- The Sub-Fund does not provide any capital guarantee or asset protection measures.
- The Sub-Fund's risk level reflects the following factors:
 - Bonds and money market instruments generally have lower risk than equities.
 - Emerging markets investments carry above-average risk.

Investment constraints

- In selecting the Bonds, the Investment Manager will not consider any sectorial or geographical constraint. The Sub-Fund may be exposed for up to 90% of its net asset to emerging and frontier markets.
- The Sub-Fund may indirectly and directly invest up to 30% of its assets in other eligible assets, such as Bonds and money market instruments not denominated in USD.
- The Sub-Fund will not invest directly in ABS/MBS and will not enter in total return swap. This ABS/MBS restriction is waived for:
 - indirect investments such as target funds (i.e. no look-through);
 - investment in Exchange Traded Commodities (ETC) when seeking exposure to commodity markets when such ETC are structured as ABS or MBS (such investments in ETC will not exceed 20% of the net assets).
- The Sub-Fund will not invest more than:
 - 10% of its assets in units or shares of other UCITS and/or UCIs in order to be eligible as a coordinated UCITS, within the meaning of the Law of 2010;
 - 10% of its net assets in contingent convertible bonds;
 - 10% of its net assets in Rule 144A Securities.
- The Sub-Fund may also hold ancillary liquid assets (i.e. bank deposits at sight, such as cash held in current accounts with a bank accessible at any time) up to 20% of its net assets for treasury purposes. The aforementioned limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the Shareholders.
- The Sub-Fund may also hold on ancillary basis money markets instruments dealt in on the money market.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify everyday risks and could trigger other risks, such as:

- Default risk** A bond may lose part or its entire value if the issuer is unable to pay interest or repay principal on schedule.
- Derivatives risk** Certain derivatives could increase Sub-Fund volatility or expose the Sub-Fund to losses greater than the cost of the derivative.
- Counterparty risk** The Sub-Fund could lose money if an entity with which it does business becomes unwilling or unable to honor its commitments to the Sub-Fund.
- Management risk** Portfolio management techniques that have worked well in normal market conditions could prove ineffective or detrimental during unusual conditions.
- Credit risk** In extreme cases, an issuer's securities could become worthless if it fails to make timely debt service payments.
- Operational risk** In any market, but especially in emerging markets, the fund could lose some or all of its money through a failure in asset safekeeping or through fraud, corruption, political actions or any other unexpected events.
- Liquidity risk** Certain securities could become hard to value, or to sell at a desired time and price.
