Fund Overview

CRUX (Lux) European Special Situations Fund will be a close reflection of the 'onshore' FP CRUX European Special Situations Fund, although cash positions in the two are likely to vary due to differing flow dynamics and currency.

Europe continues to be home to attractive investment propositions with the potential to deliver good long-term returns. The CRUX (Lux) European Special Situations Fund identifies high quality businesses, which hold their own within global markets, are cash generative and have the ability to dominate their niche, run by management with a good track record. CRUX (Lux) European Special Situation Fund will seek to achieve its investment objective by investing in European (excluding the UK) equities of companies in special situation, where it believes the company is considered undervalued. The Fund will be managed on a concentrated basis.

The Fund has the flexibility to be up to 10% invested in global stocks. This offers the managers the freedom to pursue specific investment themes and opportunities which are not available in Europe. Additionally, the fund may have an allocation of up to 5% to the UK and there will be no constraints on its exposure to the Swiss market.
