

Key Investor Information

This document provides key information for investors in this Sub-fund. It is not marketing material. The information it contains is required by law to help you understand the features of the Sub-fund along with the risks and other related information, should you decide to invest. You are advised to read it so that you can make an informed decision about whether to invest.

AZ Bond - USD Corporate (the “Sub-fund”) is a sub-fund of AZ Fund 1 (the “Fund”)

A-AZ FUND USD (ACC) class - ISIN LU1621764551

The Fund is managed by Azimut Investments S.A. (the **Management Company**).

OBJECTIVES AND INVESTMENT POLICY

Objectives

The Sub-fund’s investment objective is to provide income and medium-term capital growth.

Investment policy

The Sub-fund seeks to achieve its investment objective by actively managing a diversified portfolio of investment grade debt securities denominated in US dollars, issued by companies in the United States.

The Sub-fund invests at least 60% of its net assets in debt securities denominated in US dollars.

The Sub-fund invests up to 40% of its net assets in debt securities issued by companies with registered offices outside the United States, including up to 10% of the Sub-fund’s net assets in emerging countries.

The Sub-fund invests up to 30% of its net assets in sub-investment grade debt securities.

The Sub-fund uses the main financial derivatives for investment purposes and/or to hedge against risks. Leverage calculated based on the sum of notionals method: maximum 200%.

The Sub-fund is actively managed and is not managed in relation to a benchmark index. For the purpose of calculating the performance fee, the following benchmark is used: Bloomberg US Corporate Bond TR.

Specific information on units

You may request the sale of your units on a daily basis, except in certain circumstances (see the prospectus).

Dividend payments are not expected. Any income from the portfolio is reinvested.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money within five years.

Definitions

Actively managed Sub-fund: a Sub-fund for which the manager has the flexibility to select the securities that make up the portfolio, in line with the objectives and investment policy laid out.

RISK AND REWARD PROFILE

Definition of the risk and reward indicator

The aim of the risk indicator is to provide you with an evaluation of changes in unit prices. Risk category 3 means that the unit price fluctuates moderately. As a result, the risk of loss and the expected return may also be moderate. However, even the lowest category does not mean that the investment is “risk free”.

Historical data may not provide reliable information about the future. The displayed risk indicator is not guaranteed and is likely to change over time. There is no capital guarantee and the value of the Sub-fund is not protected.

Reason why the Sub-fund is classified in this risk category

This Sub-fund’s risk level primarily reflects the investment positions in bonds and foreign currencies depending on market volatility within the predefined margin.

Particular risks for the Sub-fund not included in the indicator:

Credit risk: issuers of debt securities, even those with a very high rating, may not be able to make payments to investors, or the fear associated with this risk may result in a decrease in the value of their debt securities.

Interest rate risk: the risk that the value of fixed-income securities will vary inversely to interest rate fluctuations.

Risks associated with convertible bonds: investments in convertible bonds are sensitive to fluctuations in underlying share prices (the “share component” of the convertible bond) while offering some form of protection for a portion of the capital (the “bond floor” of the convertible bond). The greater the share component, the lower the capital protection. As a result, a convertible bond that has increased significantly in market value as a result of a rise in the underlying share price will have a risk profile that is more similar to that of a share. On the other hand, the risk profile of a convertible bond whose market value has fallen to its bond floor as a result of a reduction in the underlying share price will, from this point on, be similar to that of a conventional bond.

Other investment risks are specified in the risks section of the prospectus.

CHARGES

The charges you pay are used to cover the costs of running the Sub-fund, including marketing and distribution costs. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest: | |
|---|---|
| Entry charge | 3.00% of the amount invested for subscriptions made through multi-year investment plans. 2.00% of the amount invested for subscriptions made in single solution. |
| Exit charge | None |
| The percentage indicated is the maximum that may be taken out of your capital before it is invested and/or before the proceeds of your investment are paid out. Please contact your financial advisor or distributor for the actual charges. | |
| Charges deducted from the Sub-fund over a year: | |
| Ongoing charges | 1.98% |
| Charges deducted from the Sub-fund under specific conditions: | |
| Performance fee | The management fee is increased or reduced on a straight-line basis by a variable management fee, up to a maximum of 20% of the amount of the management fee, based on the difference between the performance of the class and the performance of the Bloomberg US Corporate Bond TR benchmark index over the same performance period (so-called “fulcrum” variable management fee). The actual amount of fees charged to the Sub-fund during the last financial year was 0.00%. This amount was calculated using a calculation method that is no longer in force. Since 01/04/2022, a “fulcrum fee model” has been applied. In some cases, a performance fee may be levied even when the performance of the Sub-fund is negative. |

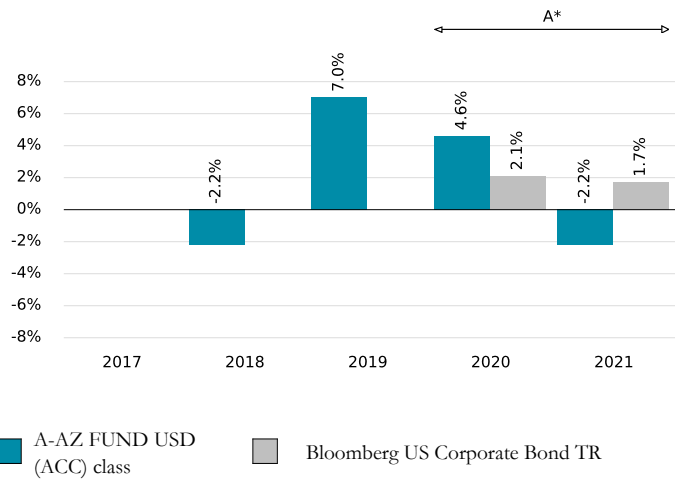

The amount of ongoing charges indicated is an estimate because there has been a change in the charges. This amount may change from year to year.

Ongoing charges do not take into account the following:

- performance fees and
- costs of portfolio transactions, unless the Sub-fund pays entry or exit charges when it buys or sells units in another undertaking for collective investment.

To find out more about the charges, please refer to the prospectus available at www.azimutinvestments.com.

PAST PERFORMANCE

- The graph shown is not a reliable indication of future performance.
- The annual performance is calculated after deducting the fees charged to the Sub-fund.
- The Sub-fund was created in 2017.
- The A-AZ FUND USD (ACC) class was launched in 2017.
- Past performance is calculated in USD.
- The performance of the Sub-fund is not linked to that of the benchmark index. The latter is intended to be used to calculate the performance fee (fulcrum).

PRACTICAL INFORMATION

- **Management Company:** Azimut Investments S.A.
- **Depository:** BNP Paribas Securities Services, succursale de Luxembourg.
- **Documentation:** additional information on the Sub-fund, including the prospectus, the latest financial statements and unit prices, is available free of charge at www.azimutinvestments.com or from the Management Company’s registered office: Azimut Investments S.A., 2A Rue Eugène Ruppert, L-2453 Luxembourg, Luxembourg.
- **Remuneration policy:** details of the remuneration policy are available on the Management Company’s website at www.azimutinvestments.com. This policy includes, in particular, a description (i) of the calculation of remuneration and allowances paid to staff and (ii) details of the persons responsible for their allocation. A paper version of the remuneration policy statement is available free of charge upon request.
- **Taxation:** your tax system could have an impact on your investment, depending on your citizenship, place of residence or nationality. For further information, please consult your financial advisor before investing.
- **Responsibility:** the Management Company may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus.
- **Separation of Sub-funds:** the Fund offers several Sub-funds whose assets and liabilities are legally separate. The prospectus and financial statements are established for the entire Fund.
- **Exchanging units:** any unitholder may request that all or part of their units in a Sub-fund are converted into units of the same class in another Sub-fund, unless the factsheet of the Sub-fund in the fund’s prospectus expressly excludes this option.
