

Tikehau Fund - Tikehau SubFin Fund

Share class I-Acc-EUR (ISIN LU1585264762)

A Sub-Fund of Tikehau Fund. A UCITS managed by Tikehau Investment Management

Investment objectives and policy

Tikehau SubFin Fund (the “**Sub-Fund**”) is a sub-fund of Tikehau Fund (the “**Fund**”). The Sub-Fund aims to achieve an annualised outperformance of the benchmark ICE BofAML 3-5 Year Euro Government Index + 150 basis points, gross of management fees, with an investment horizon of 3 years. The Sub-Fund also promotes an extra-financial approach whereby the portfolio weighted average carbon intensity (the “**Carbon Intensity**”) must be at least 20% lower than that of the following composite index: 90% Euro Financial Index (EB00) and 10% ICE BofAML BB-CCC 13 Year Euro Developed Markets High Yield Constrained Index (H1EC).

Investors' attention is drawn to the fact that the Sub-Fund is actively managed and references a benchmark indicator exclusively as an ex-post performance indicator and, where relevant, for the purpose of calculating the performance fee.

The investment strategy is to manage, on an active and discretionary basis, a diversified portfolio mainly composed of private and public debt securities (mostly subordinated debt securities: Tier 1, Upper or Lower Tier 2 or others). The portfolio will have a minimum average rating of B+ (S&P's rating), or B1 (Moody's rating), while the minimum rating will be CCC+. The Sub-Fund may invest up to 130% of its net assets in debt securities issued primarily in the Eurozone (including convertible bonds and contingent convertible bonds (“**CoCo**”), up to 100% of the net assets of the Sub-Fund).

Debt securities that belong to the subordinated financing category pose a greater default risk, in exchange for a higher reward. A debt is known as subordinated when its repayment depends on other creditors (senior creditors and unsecured creditors) being repaid first. Thus, subordinated creditors will be repaid after unsecured creditors, but before shareholders.

The Sub-Fund may also invest up to 10% of its net assets in each of the following categories: (i) ABS/MBS instruments, (ii) defaulted/distressed securities as a result of the potential downgrading of the issuers (i.e. securities which are highly vulnerable to non-payment and the rating of

which is below “CCC” according to S&P's rating or the equivalent by any other agency), (iii) UCITS and/or other UCIs (including those managed by Tikehau Investment Management), (iv) equity markets, either directly by means of shares in companies of all market capitalisations and all geographic regions, through UCITS, UCIs or financial derivative instruments.

For hedging or exposure purposes, the Sub-Fund may invest up to 100% of its net assets in financial derivative instruments, such as futures, options, swaps, credit derivatives and Contracts for Difference. It may also invest in efficient portfolio management techniques.

The Sub-Fund may invest its excess cash in term deposit accounts. These deposits may amount to up to 100% of the Sub-Fund's assets.

Carbon Intensity represents the arithmetic average of the carbon intensity of each of the issuers (total greenhouse gas emissions (GHG) on scopes 1 and 2 divided by total turnover) weighted by their weighting in the portfolio. This calculation entails certain methodological limitations identified in the prospectus (such as the use of external sources and the absence of consideration of scope 3 GHG linked to the value chain). ESG criteria also contribute to investment decisions but are not the decisive factor in these decisions.

The range of sensitivity to the bond market will lie between 0 and 6.

The recommended investment horizon is at least 3 years.

Orders for subscription and redemption must be received by the registrar and transfer agent before 12:00 noon on each valuation day, and will be settled at the latest on the second Bank Business Day following the applicable valuation date. The Management Company may trigger a gates mechanism to cap redemptions (refer to the prospectus).

I-Acc-EUR shares are capitalization shares.

I-Acc-EUR shares are reserved for institutional investors whose minimum initial investment is 1,000,000 euro.

Risk and reward profile

This share class of the Sub-Fund belongs to risk category 4 due to the volatility of its net asset value. The volatility of the net asset value is the result of the volatility of the prices of the assets held in the portfolio, which influences the valuation of the share class which also takes into account the various fees and expenses applied to it.

Historical data, such as those used to calculate the synthetic indicator, may not be a reliable indication for the future of the risk profile of the Sub-Fund.

The risk category of this Sub-Fund is not guaranteed and may change over time.

The lowest category does not mean "risk-free".

Investors receive no guarantee that they will get back the capital they initially invest.

Key risks not taken into account in this indicator :

Credit risk: risk that an issuer of a bond (including money-market instruments) held by the Sub-Fund may default on its obligations to pay interest and repay principal and the Sub-Fund will not recover its investment. **DISCLAIMER : THIS SUB-FUND MAY INVEST UP TO 100% OF ITS ASSETS IN BONDS OF LOW CREDIT QUALITY, AND THEREFORE PRESENTS A VERY HIGH CREDIT RISK.**

Liquidity risk: this refers to the difficulty or impossibility of disposing of certain securities held on portfolio in timely fashion and at the portfolio valuation price, because of the reduced size of the market or the lack of volume on the market where these securities are usually traded.

Counterparty risk: the Sub-Funds will be subject to the risk of the inability of any counterparty (including the Depositary and Clearing Brokers) to perform with respect to transactions, whether due to its own insolvency or that of others, bankruptcy, market illiquidity or disruption or other causes and whether resulting from systemic or other reasons.

Financial derivative instruments risk: The Sub-Fund may use forward financial instruments, which may pose the risk of a more significant and faster decrease in the Sub-Fund net asset value than the one on the markets in which the Sub-Fund is invested.

For a description of all risks, please refer to the Fund's prospectus.

Charges

The charges and fees paid cover the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charges	None	The percentage indicated is the maximum that may be deducted from your capital before it is invested, or before you are paid the returns on your investment. In certain cases, the charges paid may be lower than those published. Investors may request the exact amount of entry and exit charges from their financial advisor or distributor.
Exit charges	None	

Charges taken from the Sub-Fund over a year

Ongoing charges	0.56%	The percentage shown is based on the charges for the previous financial year (fixed management fees and transfer fees) ending 31 December 2021. Charges may vary from one financial year to another. They do not include performance fees nor portfolio intermediary fees, except in the case of an entry/exit charge paid by the Sub Fund when buying or selling units in another collective investment undertaking.
------------------------	-------	---

Charges taken from the Sub-Fund under specific conditions

Performance fee	10% of outperformance over the benchmark ICE BofAML 3-5 Year Euro Government Index +100 bp, calculated net of management fees over a 5 years reference period, provided that the performance of the Share Class is higher than zero over the relevant reference period. Any past underperformance or negative performance of the Share Class compared to the Reference Indicator over that reference period must be clawed back before a performance fee becomes payable. Amount of performance fee charged in the last financial year : 0.47%
------------------------	--
