

Tikehau Fund - Tikehau SubFin Fund

Share class S-Acc-EUR (ISIN LU1585264846)

A Sub-Fund of Tikehau Fund. A UCITS managed by Tikehau Investment Management

Investment objectives and policy

Tikehau SubFin Fund (the "Sub-Fund") is a sub-fund of Tikehau Fund (the "Fund"). The Sub-Fund aims to achieve an annualised outperformance of the benchmark BoAML euro 3-5 Index, after deducting management fees, with an investment horizon of more than 3 years.

Investors' attention is drawn to the fact that the management style of the portfolio will never consist of reproducing the composition of a benchmark indicator.

The investment strategy is to manage, on an active and discretionary basis, a diversified portfolio mainly composed of private and public debt securities (mostly subordinated debt securities: Tier 1, Upper or Lower Tier 2 or others). The portfolio will have a minimum average rating of B+ (Standard and Poor's rating), or a Moody's rating of B1, while the minimum rating will be CCC.

Debt securities that belong to the subordinated financing category pose a greater default risk, in exchange for a higher reward. A debt is known as subordinated when its repayment depends on other creditors (senior creditors and unsecured creditors) being repaid first. Thus, subordinated creditors will be repaid after unsecured creditors, but before shareholders.

The Sub-Fund may invest up to 130% of its net assets in debt securities issued in the euro zone (including convertible bonds and contingent convertible bonds ("CoCo"), up to 100% of the net assets of the Sub-Fund).

For hedging or exposure purposes, the Sub-Fund may invest up to 100% of its net assets in financial derivative instruments, such as futures, options, swaps, credit derivatives and Contracts for Difference. It may also invest in efficient portfolio management techniques.

The Sub-Fund may also invest up to 10% of its net assets in UCITS and/or other UCIs (including those managed by Tikehau Investment Management).

The Sub-Fund may have an exposure of up to 10% of its net assets to the equity markets, either directly by means of shares in companies of all market capitalisations and all geographic regions, through UCITS or financial derivative instruments.

The Sub-Fund may invest its excess cash in term deposit accounts. These deposits may amount to up to 100% of the Sub-Fund's assets.

The Sub-Fund may invest up to 10% of its net assets in ABS/MBS instruments and up to 10% of its net assets in defaulted/distressed securities as a result of the potential downgrading of the issuers (i.e. securities which are highly vulnerable to non-payment and the rating of which is below "CCC" according to Standard & Poor's or the equivalent by any other agency).

Finally, the investment team also applies a responsible investment policy materialised by: (i) the respect of the Tikehau Capital Group exclusions (e.g. thermal coal, tobacco and controversial weapons) when selecting issuers; and (ii) the integration of Environmental, Social and Governance ("ESG") factors throughout the life cycle of the investment.

The range of sensitivity to the bond market will lie between 0 and 6.

The recommended investment horizon is at least 3 years.

Orders for subscription and redemption must be received by the registrar and transfer agent before 12:00 noon on each valuation day, and will be settled at the latest on the second Bank Business Day following the applicable valuation date.

S-Acc-EUR shares are capitalization shares.

S-Acc-EUR shares are reserved for institutional investors whose minimum initial investment is EUR 10,000,000.

Risk and reward profile

This share class of the Sub-Fund belongs to risk category 4 due to the volatility of its net asset value. The volatility of the net asset value is the result of the volatility of the prices of the assets held in the portfolio, which influences the valuation of the share class which also takes into account the various fees and expenses applied to it.

Historical data, such as those used to calculate the synthetic indicator, may not be a reliable indication for the future of the risk profile of the Sub-Fund.

The risk category of this Sub-Fund is not guaranteed and may change over time.

The lowest category does not mean "risk-free".

Investors receive no guarantee that they will get back the capital they initially invest.

Key risks not taken into account in this indicator :

Credit risk: Credit risk involves the risk that an issuer of a bond (including money-market instruments) held by the Sub-Fund may default on its obligations to pay interest and repay principal and the Sub-Fund will not recover its investment. **DISCLAIMER : THIS SUB-FUND MAY INVEST UP TO 100% OF ITS ASSETS IN BONDS OF LOW CREDIT QUALITY, AND THEREFORE PRESENTS A VERY HIGH CREDIT RISK.**

Liquidity risk: this refers to the difficulty or impossibility of disposing of certain securities held on portfolio in timely fashion and at the portfolio valuation price, because of the reduced size of the market or the lack of volume on the market where these securities are usually traded.

Counterparty risk: the Sub-Funds will be subject to the risk of the inability of any counterparty (including the Depositary and Clearing Brokers) to perform with respect to transactions, whether due to its own insolvency or that of others, bankruptcy, market illiquidity or disruption or other causes and whether resulting from systemic or other reasons.

Financial derivative instruments risk: The Sub-Fund may use forward financial instruments, which may pose the risk of a more significant and faster decrease in the Sub-Fund net asset value than the one on the markets in which the Sub-Fund is invested.

For a description of all risks, please refer to the Fund's prospectus.
