First Trust Dow Jones International Internet UCITS ETF

A sub-fund of First Trust Global Funds plc (the "Company")
First Trust Global Portfolios Management Limited is the manager of the Company (the "Manager")

ISIN: IE00BT9PVG14
Share class: Class A USD

Objective and Investment Policy

Objective: The fund seeks to provide investors with investment results that correspond generally, before fees and expenses, to those of an equity index called the Dow Jones International Internet Index (the "Index").

Investment Policy: The fund invests primarily in equity securities that are included in the Index. The fund attempts to replicate, before fees and expenses, the performance of the Index.

The Investment Manager will seek to do this by trying to replicate the Index by holding in similar proportions the equity securities in the Index. This fund may, where direct investment in a constituent of the Index is not possible, invest in depository receipts to gain exposure to the security and may also invest in money market instruments, short-term instruments and other eligible funds. The Investment Manager will regularly monitor how closely the fund tracks the Index. It is expected that the level of tracking error will be 0-2% in normal market conditions.

The fund is passively managed and has an index replicating objective.

For details of the exact composition of the Index, please see the following address:

For more information about the investment policy, see "Investment Objectives and Policies of the Funds" in the fund's prospectus (the "Prospectus") available at www.ftglobalportfolios.com.

You may sell your shares usually on each business day (a day on which the London Stock Exchange is open) by sending your request to the administrator.

Income is reinvested into the Fund for this share class.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within the short term.

Risk and Reward Profile

The risk category is based on simulated and historical data and may not be a reliable indicator of the future risk profile of the fund. The risk category shown is not guaranteed and may change over time.

The indicator is designed to help investors understand the uncertainties for both loss and for growth that may affect their investment. The lowest category does not mean that the investment is risk free.

The fund is ranked at 7 because funds of this type have experienced high rises and falls in value in the past.

The following risks are materially relevant to the fund which may not be adequately captured by the indicator:

The fund may not achieve its investment objective and the value of shares in the fund may fall.

The Fund may be subject to internet companies risk. Internet companies are subject to rapid changes in technology, worldwide competition, rapid

obsolescence of products and services, loss of patent protections, cyclical market patterns, evolving industry standards, frequent new product introductions and the considerable risk of owning small capitalisation companies that have recently begun operations.

The Fund may be subject to Chinese investment risks, including risk related to variable interest entities ("VIEs"). In China, direct ownership of companies in certain sectors by foreign individuals and entities is prohibited, and VIE structures are put in place to allow indirect foreign investment, including an investment by the Fund. Although VIEs are a longstanding industry practice and well known to officials and regulators in China, VIEs are not formally recognized under Chinese law. Intervention by the Chinese government with respect to VIEs could cause the market value of the Fund's associated holdings to suffer significant, and possibly permanent, effects which could negatively impact the Fund's Net Asset Value and could result in substantial losses. Further, it is uncertain whether any new laws, rules or regulations relating to VIE structures will be adopted or, if adopted, what impact they would have on the value of a Fund's shares.

There is no assurance that the Index will continue to be calculated and published on the basis described in the Prospectus. In addition, the fund's return may not match the return of the Index.

See also the description of the risks applicable to the fund in "Risk Factors" in the Prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None *
Exit charge	None*

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out.

Charges taken from the fund over a year

Ongoing charges	0.65%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

Any entry and exit charges shown are maximum figures, and in some cases investors may pay less. You can find out the actual charges from your financial adviser or distributor.

A switching charge of up to 3% may be payable for switching shares (except in the case of an entry/exit charge paid by the fund when buying or selling units in another sub-fund).

In the event that the Fund's operational expenses exceed the stated ongoing charges figure of 0.65%, the Investment Manager shall discharge any excess out of its own assets.

The ongoing charges figure is based on the fund's annual management fee, whereby the Investment Manager shall be responsible for the fund's operational expenses.

For more information about charges, please see "Fees, Costs and Expenses" in the Prospectus.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the fund will pay related transaction costs. Authorised participants switching between the fund and other funds within the Company will be subject to a switching fee of up to 3% of the Net Asset Value per share.

Past Performance

- Past performance achieved prior to 01 February 2021 was achieved under circumstances which no longer apply as the fund's investment objective and policy changed and the underlying index changed from the NASDAQ AlphaDEX® Switzerland Index to the Dow Jones International Internet Index. Therefore, the fund's performance and historical returns shown for the periods prior to this date are not indicative of the performance that the fund, based on its current index, would have generated.
- Performance up to the date referenced above had been calculated in CHF and takes account of ongoing charges but excludes any entry/exit charges. After the index change noted above, the fund's performance is calculated in USD and takes account of ongoing charges but excludes any entry/exit charges.
- The fund was approved in 2014.
- Past performance is not a reliable guide to future performance.
