Heptagon Kettle Hill US L/S Equity Fund - Class A (USD)

ISIN: IE00BF1D6B55

A sub-fund of Heptagon Fund ICAV (the "ICAV"), which is an open-ended umbrella type investment vehicle with segregated liability between sub-funds. Heptagon Capital Limited is the Investment Manager, Kettle Hill Capital Management, LLC is the Sub-Investment Manager and Carne Global Fund Managers (Ireland) Limited is the Manager.

Objectives and Investment Policy

Objective

The investment objective of the Fund is to achieve long-term capital growth.

Investment Policy

The Fund will invest primarily in U.S. small capitalization equities which the Sub-Investment Manager defines as being within the same market capitalization range as those included in the Russell 2000 Growth Total Return Index (positions may include mid and large cap stocks). The Fund seeks to achieve its investment objective by applying a bottom-up fundamental research strategy to select long and/or short positions in equities issued by companies across all industry sectors. For the avoidance of doubt, any short exposure will only be achieved synthetically (i.e. through the use of FDIs). The Fund may sell securities short as appropriate for speculative purposes. The Fund is actively managed which means that the Sub-Investment Manager is actively making investment decisions for the Fund. The Fund is not managed by reference to any benchmark.

Dividend Income

Dividend Income that the Fund receives is automatically reinvested into the Fund and is thus part of the share value.

Investment Period

Recommendation: The Fund is suitable for investors seeking capital growth over a medium to long-term horizon who are prepared to accept a medium to high level of volatility from time to time. The Fund is not designed for investors needing current income. Subscription and redemptions of the shares can be carried out by 14:00 hours Ireland time on all Irish business days and days on which the New York Stock Exchange is open for trading. Further information on the Fund's investment objective and policy can be found in the Fund's Prospectus.

Risk and reward profile

This indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The risk assessment is based on historical data and is not guaranteed to remain unchanged. It may change over time and may not be a reliable indication of the future risk profile of the Fund. The

lowest category does not mean risk free as all investments involve risks. This Fund is ranked at 5 because funds of this type have experienced high rises and falls in value in the past. Gains or losses for individual shareholders will therefore depend on the exact timing of the subscription and redemption of shares. The Fund invests in a wide range of securities in various sectors. The Fund spreads risk by means of this diversification. The following risks may not be fully captured by the Risk and Reward Indicator:

- events over which the Fund has no control, such as political or global economic risks
- in the event that the Fund does not achieve its investment objective

Additional risks are detailed in the Prospectus. This list does not purport to be exhaustive and risks of an exceptional nature may arise from time to time.
