

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Sustainable US Value Multi-Factor Equity, a subfund of the SICAV BNP Paribas Funds, short named as BNP Paribas

Class "Privilege H EUR Distribution" - ISIN code LU1458428676

This Fund is managed by BNP PARIBAS ASSET MANAGEMENT Luxembourg, part of the BNP Paribas Group.

Objectives and investment policy

This Fund is actively managed. The benchmark MSCI USA Value (USD) NR (Hedged in EUR) is used for performance comparison only. The Fund is not benchmark constrained and its performance may deviate significantly from that of the benchmark.

The Fund seeks to increase the value of its assets over the medium term by investing in shares undervalued as compared to the market on the purchase date, issued by US companies, and/or socially responsible companies operating in this country.

The portfolio is built based on a systematic approach, combining several equity factor criteria such as value, quality, low-volatility and momentum.

Once the quantitative investment is implemented, the portfolio is then rebalanced in order to maximise ESG scoring and to reduce its carbon footprint.

The investment team applies also BNP PARIBAS ASSET MANAGEMENT's sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria such as but not limited to reduction of emissions of greenhouse gas, respect of human rights, respect of minority shareholders rights, at each step of the investment process of the Fund.

The Fund follows the Enhanced ESG approach which means that the Fund implements more explicit ESG tilts (Invest in the most sustainable companies according to specific criteria and/or incorporating a wider range of exclusions) leading to more stringent ESG and/or Carbon performance targets.

The quantitative approach is implemented in order to consistently achieve the following targets:

- a portfolio's ESG score higher than the ESG score of the index after eliminating at least 20% of the least well-rated securities, and

- a portfolio's carbon footprint at least 50% lower than the carbon footprint of the index.

An extra-financial strategy may comprise methodological limitations such as the ESG Investment Risk as defined by the asset manager.

A dividend may be distributed.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

This share class aims at hedging its currency exchange risk against the Fund's portfolio exposure currency. However, the currency exchange risk cannot be completely neutralized as the hedging technique is based on the Fund's NAV.

Risk and reward profile

| | | | | | | |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
|---|---|---|---|---|---|---|

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?
The risk category is justified by the investment mainly in stocks and shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.
- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- **Liquidity Risk:** This risk arises from the difficulty of selling an asset at a fair market price and at a desired time due to lack of buyers.

For more information on risks, please see the risks section of the Fund's prospectus, which is available at <http://www.bnpparibas-am.com>.

Charges

The charges you pay are used to pay the Fund's running costs, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest | |
|--|-----------|
| Entry charge | 3.00% |
| Exit charges | None |
| This is the maximum that might be taken out of your money (before the proceeds of your investment are paid out). | |
| Charges taken from the Fund over each year | |
| Ongoing charges | 0.83% (*) |
| Charges taken from the fund under specific conditions | |
| Performance fee | None |

The **entry charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser.

(*) The **ongoing charges** figure is based on past expenses determined as of 31 December 2023.

This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

In case of conversion, the investors may be charged a maximum fee of 1.5%.

For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at <http://www.bnpparibas-am.com>.

Past performance

A: 2017 - 2019 During this period, the benchmark index was "Russell 1000 Value (USD) NR"

- Performance figures are shown for shares classes, for which NAV was continuously calculated during the period from 1st January to 31st December.
- Past performance is not an indicator of future results.
- The ongoing charges of the Fund are included in the calculation of past performance. The entry/exit and conversion fees are excluded from the calculation of the past performance.
- The share class came into existence in 2016.
- Past performance has been calculated in EUR.
- Performance returns are based on the net asset value with distributable income reinvested.
