Aegon Emerging Markets Debt Fund I EUR

Factsheet as of 31 May 2022

Fund objective

The fund seeks a competitive total return through investment in the fixed income securities of sovereign, government-related, and corporate issuers located in emerging countries. The product is team-managed and utilizes an investment process centered around top-down evaluation of sovereign countries supplemented by bottom-up, fundamental research. The fund seeks to add value over the course of credit, economic, and political cycles by effectively pricing risk, and managing country, sector, issuer, and credit-quality allocations, particularly to higher-risk countries, in anticipation of market inflection points.
