

## Key investor information

This document provides you with key investor information about this UCITS. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this UCITS. You are advised to read it so that you can make an informed decision about whether to invest.

## EdR SICAV – start (the “Sub-fund”), a sub-fund of the Edmond de Rothschild SICAV Share class A CHF H (the “Class”) – FR0012538072

Management company: Edmond de Rothschild Asset Management (France), part of the Edmond de Rothschild Group  
UCITS subject to French law

## Objectives and investment policy

**Management objective:** The Sub-fund management strategy is discretionary and opportunistic. It takes positions on the bond, equity and currency markets. The Sub-fund's objective is to seek absolute performance, decorrelated over the recommended investment period, on the main international equity and bond markets. In the context of its management, the UCITS' target volatility will be 2% and may reach a maximum of 3%. The Sub-fund is actively managed, which means that the manager makes investment decisions with the aim of achieving the sub-fund's objective and investment policy. This active management includes taking decisions related to asset selection, regional allocation, sectoral views and overall market exposure. The Manager is in no way limited by the composition of the benchmark index in the positioning of the portfolio, and the Sub-fund may not hold all the components of the benchmark index or indeed any of the components in question. The Sub-fund may diverge wholly or significantly from the benchmark index or, occasionally, very little.

**Benchmark index:** SARON Index

**Investment policy:** The Sub-fund may invest up to 100% of its net assets in debt securities issued by member states of the OECD or the European Union without restriction as to their maturity and rating, and up to 100% of its net assets in public debt securities issued by emerging countries outside the OECD and the European Union without restriction as to their maturity and rated Investment Grade (rating higher than or equal to BBB- according to Standard & Poor's or equivalent, or with an equivalent internal rating awarded by the Management Company). Exposure to private debt securities rated "Investment Grade", including those issued by companies with their registered office in an emerging country, may represent up to 100% of the net assets. The Sub-fund may also invest up to 100% in High Yield bonds issued by member states of the OECD or the European Union (speculative securities, with a long-term rating below BBB- and a short-term rating of A3 according to Standard & Poor's or equivalent, or with an equivalent internal rating from the Management Company). In contrast, investments in High Yield bonds issued by private sector companies may not account for more than 25% of the net assets, as is the case for High Yield bonds issued by emerging countries outside the OECD and the European Union.

Total investment in High Yield category debt issued by private sector companies and emerging countries outside the OECD and the European Union may not exceed 30% of net assets. The ESG investment universe is composed of Investment Grade or High Yield public and private debt securities, issued by developed and emerging countries, as well as international equity. The management company may select securities from outside this ESG universe. However, it will ensure that the chosen ESG universe offers a relevant comparison for the Sub-fund's ESG rating. The selection of securities is not based automatically and exclusively on the rating criterion. It is mainly based on an internal analysis. Prior to each investment decision, the Management Company analyses each security on criteria other than its rating. In the event that an issuer in the High Yield category has their rating downgraded, the Management Company must conduct a detailed analysis in order to decide whether to sell or retain the security, provided that the rating objective is respected. The sub-fund's exposure range to the equity markets will be between -10% and +15% of its net assets. The Sub-fund may invest up to 40% of its net assets in securities issued in currencies other than the euro. In the interest of efficient portfolio management and without deviating from its investment objectives, the sub-fund may enter into reverse repurchase agreements involving eligible financial securities or money market instruments, subject to a limit of 100% of its net assets. With a view to achieving the management objective or hedging the assets, the manager may use financial contracts (including but not limited to futures, options, forward contracts, swaps including credit derivatives, etc.). Exposure of the Sub-fund to currency risk will be limited to a maximum of 40% of its net assets. The sub-fund's modified duration may fluctuate between -2 and +4.

A CHF (H) shares are systematically and fully hedged against EUR/CHF currency risk via forward currency contracts, swaps or currency options.

**DISCLAIMER:** THIS FUND MAY INVEST 25% OF ITS ASSETS IN BONDS WITH A LOW CREDIT RATING. YOU THEREFORE HAVE A VERY HIGH CREDIT RISK.

**Frequency of share buying or selling:** Daily, with the exception of French public holidays and/or days on which the French markets are closed (pursuant to the official calendar of Euronext Paris S.A.), for all orders received at the clearing house on each net asset value calculation day before 12.30 p.m. at that day's net asset value.

A redemption cap mechanism (known as "Gates") may be implemented by the management company. The operating procedures are described in the Prospectus and the Articles of Association of the SICAV.

**Allocation of income:** Accumulation

**Allocation of net realised gains:** Accumulation

**Other information:** Environmental, social and governance (ESG) criteria are one of the components of the management; their weighting in the final decision is not defined in advance.

**Recommended holding period 18 months**

## Risk and reward profile

The above indicator is calculated on the basis of historical data and may, therefore, not be a reliable indication of the future risk profile of the UCITS. It is not certain that the risk and reward category shown will remain unchanged and the classification may change over time. Category 1 does not mean that an investment is risk-free. Repayment of the initial investment is not guaranteed.

This Sub-fund is rated in category 2, in line with the type of securities and geographic regions presented under the heading "Objectives and investment policy", as well as the currency of the share.

### Significant risks not taken into account in this indicator:

**Credit risk:** risk that the issuer of the bond or money market securities may not be able to meet its obligations or that its credit rating may be downgraded. It may also be the result of an issuer defaulting on repayment at maturity.

**Liquidity risk:** risk linked to the low level of liquidity on the underlying markets, which makes them sensitive to significant buy/sell trends.

**Derivative risk:** the use of derivatives may cause a greater drop in the value of net assets than that of the markets in which they are invested.

**Counterparty risk:** this is the risk that a market participant will default, preventing them from honouring their commitments in respect of your portfolio.

The occurrence of any of these risks may negatively impact the net asset value.

A written copy of the policy is available free of charge from the management company upon request.

The charges and fees you pay are used to cover the costs of running the Sub-fund, including the costs of marketing and distributing the shares. These charges reduce the potential growth of your investment.

The entry and exit charges shown here are maximum figures; in some cases, investors may pay less. Investors can find out the actual entry and exit charges from their adviser or distributor.

The ongoing charges figure is based on the charges for the year ending in September 2021. This figure may vary from year to year. It excludes intermediary fees with the exception of the entry and exit charges paid by the Sub-fund when buying or selling units and/or shares of other UCIs and investment funds.

The performance fee, excluding ongoing charges, was paid during the last financial year ended September 2021 and represents 0.05% of average net assets.

More detailed information on charges and fees can be found in the Sub-fund prospectus and on the website [www.edram.fr](http://www.edram.fr).

Past performance is not an indication of future returns. Performance may vary over time. Ongoing charges, intermediary fees and any performance fees charged are included in the performance calculation. Entry and exit charges are excluded.

Past performance has been calculated in CHF, with net dividends reinvested.
