

M&G (Lux) Global Listed Infrastructure Fund EUR Class A – Distribution shares

Fund Factsheet as at 31 March 2024

Marketing Communication

Fund description

The fund aims to deliver a combination of capital growth and income that is higher than that of the global equities market over any five-year period while applying the fund's environmental, social and governance (ESG) criteria and sustainability criteria and to increase the income stream every year, in US dollar terms. It looks to do this by investing at least 80% of the fund in shares issued by infrastructure companies, investment trusts and real estate investment trusts of any size, from any country, including emerging markets. The fund usually holds shares in fewer than 50 companies. Infrastructure companies include businesses in the following sectors: utilities, energy, transport, health, education, security, communications, and transactions. ESG and sustainability considerations are integrated into the investment process.
