

Key Investor Information Document

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Stable Return Fund (the "Fund"), Share class : C USD (LU1726320259) is a sub-fund of iMGP (the "SICAV") managed by iM Global Partner Asset Management S.A. (the "Management Company")

Objectives and investment policy

The objective of this Sub-fund is to provide its investors with a long-term capital appreciation by implementing a UCITS compliant strategy that seeks to approximate the returns of alternative investments styles such as Equity Hedge and Macro (as defined below) selected by the Sub-Manager. For this purpose, the Sub-Manager will use a quantitative analysis of historical returns of the selected alternative styles to seek and isolate the financial factors such as equity indices, interest rates and currencies as well as their relative weightings that materially contribute to statistically approximate the returns of these alternative investments styles. The Sub-fund will then use this analysis to provide similar performance to these alternative investment strategies by investing primarily in transferable securities and exchange-traded financial derivative instruments that provide financial market exposures to global markets, including emerging markets. The Sub-fund is actively managed not in reference to a benchmark. The Sub-fund will seek to generate capital appreciation over time by taking long and short exposures (the short exposures being only obtained via financial derivative instruments) in investments that provide broad exposure to global equity, fixed income and currency markets. Such investments include exchange-traded futures, forwards, options, UCITS eligible exchange traded funds ("ETFs").

The Sub-fund promotes environmental and social characteristics according to article 8 of the Regulation (EU) 2019/2088 but does not have sustainable investment as its objective. The Sub-Manager believes that Environmental, Social and Governance (ESG) consideration allows for long-term value creation, allowing to foster a positive change. The Management Company has adopted for this purpose an ESG policy which may be consulted on www.imgp.com. In addition, the Sub-fund may also invest in high quality debt issues, in cash or time deposits, money market instruments and money market funds (the latest to be included in the 10% limit in UCITS and/or other UCI). In the aggregate, the Sub-fund expects to have net long exposure to both the equity, fixed income and currency markets, which the Sub-fund may adjust over time as a result of market conditions. You may sell your shares in the Sub-fund upon request, on a daily basis. Profits are not distributed but are accumulated by the Sub-fund. Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money in less than 5 years.

Risk and reward profile

The Synthetic Risk & Reward Indicator (SRRI) is assigned due to the past or expected share class price variations resulting from its currency and the nature of the Fund's investments and strategy.

The SRRI is based on historical data and may not be a valid indication for the future risk profile of the Share Class. It is not a target or a guarantee and may change over time.

The lowest risk category is not assimilated to a risk-free investment.

The Fund does not offer capital guarantee or asset protection measures.

The Fund may be exposed to the following risks which are not satisfactorily captured by the SRRI and may negatively impact its assets:

Operational risk: Human or technical issues or errors during the processing of the transactions and/or the calculation of the NAV of the Fund may result in losses.

Liquidity risk: selling securities in low volume markets may imply a negative impact on the valuation which result in losses.

Financial Derivatives risk: Derivative transactions generate leverage which may emphasize losses whether the strategy (such as hedging, exposure, efficient portfolio management) does not react as expected under certain market conditions.

Counterparty risk: When a counterparty does not respect its obligation related to contracts such as term deposits or over-the-counter derivatives losses may occur.

Credit risk: When issuers default on their payment obligations, unexpected losses may occur on any type of assets linked to them.

For further information about the risks associated to this Fund, please see the full prospectus, available at the head office of the SICAV.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	1.00%
The percentage shown is the maximum amount that can be paid out of your investment. Your financial advisor or distributor can inform you of the associated entry and exit charges.	
Charges taken from the Fund over a year	
Ongoing charges	2.05%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower.

The indicated ongoing charges are an estimate based on the expected total amount of charges. This percentage may vary from year to year. It excludes performance fee and transaction costs, except in the case of an entry/exit charge paid by the Fund when buying/selling units in another collective investment.

For more information about charges, please refer to the Fund's Prospectus, section entitled "Charges and Expenses", available at www.imgp.com.

Past performance

Information on past performance will be provided after the close of the first financial year.

The performance figures shown in the bar chart are not a reliable indication of future performance.

There is insufficient data to provide a useful indication of past performance to investors.

Fund creation date: 15 December 2017
Share class launch date: 16 February 2023
Base currency: US Dollar
