

Summary of fund objective

The Fund aims to achieve a positive total return over a market cycle. The Fund seeks to achieve its objective by gaining exposure primarily to a flexible allocation of equities and debt securities globally, which meet the Fund's environmental, social and governance (ESG) criteria with a particular focus on environmental issues. For the full objectives and investment policy please consult the current prospectus.

Investment risks

For complete information on risks, refer to the legal documents. The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. Debt instruments are exposed to credit risk which is the ability of the borrower to repay the interest and capital on the redemption date. Changes in interest rates will result in fluctuations in the value of the fund. The fund uses derivatives (complex instruments) for investment purposes, which may result in the fund being significantly leveraged and may result in large fluctuations in the value of the fund. The Fund may invest in a dynamic way across assets/asset classes, which may result in periodic changes in the risk profile, underperformance and/or higher transaction costs. The lack of common standards may result in different approaches to setting and achieving ESG objectives. In addition, the respect of the ESG criteria may cause the Fund to forego certain investment opportunities.

Fund Strategy

The fund follows a multi-stage process which is purely systematic, rule-based and designed for the broadest possible collection of diversified risk premiums. The fund only invests in liquid assets, such as listed equities, government bonds and exchange traded futures. The fund incorporates key aspects of ESG, e.g. ESG integration, exclusions and a best-in-class approach. Additionally, the investment team applies a UN Global Compact screening and excludes controversial activities, i.e. weapons, fossil energy and tobacco. Furthermore, the investment team aims to create additional value by applying a tactical asset allocation. As a last step, the team uses sophisticated risk management techniques based on state-of-the-art statistical models aiming to mitigate drawdowns and limiting the portfolio's volatility.

Past performance does not predict future returns. The performance period shown here starts on the last day of the first indicated month and ends on the last day of the last indicated month.

Cumulative performance*

| in % | YTD | YTD | 1 month | 1 year | 3 years | 5 years |

Invesco Sustainable Allocation Fund

C-Acc Shares

31 March 2024

Important Information

¹On 18 March 2022, a Luxembourg-domiciled SICAV named Invesco Global Conservative Fund was merged into the Invesco Sustainable Allocation Fund, a sub-fund within the same fund umbrella.

²The Risk Indicator is subject to change and is correct based on the data available at the time of publication.

³The minimum investment amounts are: USD 1,000,000 / EUR 800,000 / GBP 600,000 / CHF 1,000,000 / SEK 7,000,000. Please contact us or refer to the most up to date Prospectus for details of minimum investment amounts in other currencies.

⁴The Ongoing Charges figure includes the annual management fee and other administrative or operating costs. It is a percentage of the value of your investment per year. This is an estimate based on actual costs over the last year. It excludes portfolio transaction costs except in the case of an entry or exit charge paid by the Fund when buying or selling shares/units in another fund.

This marketing communication is exclusively for use by Professional investors in Continental Europe, Cyprus and Malta. This communication may also be used by financial intermediaries in the United States as defined below. It is not intended for and should not be distributed to the public. For the purpose of the distribution of this document, Continental Europe is defined as Austria, Switzerland, Germany, Spain, Finland, France, Greece, Italy, Luxembourg, Netherlands, Norway, Sweden. By accepting this material, you consent to communicate with us in English, unless you inform us otherwise. Data as at 31 March 2024, unless otherwise stated.

Invesco Sustainable Allocation Fund invests globally in equities and interest-bearing securities. The equity and bond allocation is consistently adjusted to changed market situations in the context of tactical considerations, which is dependent on the appraisal of portfolio management. Environmental, Social and Governance (ESG) criteria are the basis of the portfolio composition. The first step of the equity portfolio construction process is to identify the investment universe which is determined by the underlying ESG criteria. Companies may be either excluded or selected on the basis of weighted positive and negative criteria (best-in-class) and a combination of both methods is used. Companies are analysed on the basis of various criteria for all relevant ESG fields, which include environment, corporate governance, human rights and labour conditions. Once the investment universe has been identified, the stock selection process takes place. The Invesco stock selection process is designed to identify attractive and unattractive stocks by providing an impartial assessment of the expected relative price performance of each stock. This is achieved using Invesco's proprietary factor-based stock selection model. On the fixed income side, a country sustainability rating tool provides a detailed assessment of how well countries are addressing the various environmental, social and governance (ESG) risks they face. The ratings enable to integrate ESG issues into sovereign fixed income investments and are designed to help to understand and manage ESG risks across their sovereign bonds and other related investments. This is marketing material and not financial advice. It is not intended as a recommendation to buy or sell any particular asset class, security or strategy. Regulatory requirements that require impartiality of investment/investment strategy recommendations are therefore not applicable nor are any prohibitions to trade before publication. Views and opinions are based on current market conditions and are subject to change. For information on our funds and the relevant risks, refer to the Key Information Documents/Key Investor Information Documents (local languages) and Prospectus (English, French, German, Spanish, Italian), and the financial reports, available from www.invesco.eu. A summary of investor rights is available in English from www.invescomanagementcompany.lu. The management company may terminate marketing arrangements. Not all share classes of this fund may be available for public sale in all jurisdictions and not all share classes are the same nor do they necessarily suit every investor. **Any investment decision should take into account all the characteristics of the fund as described in the legal documents. Invesco Distributors, Inc. is the appointed US sub-distributor of the Invesco Funds SICAV. All entities are indirect, wholly owned subsidiaries of Invesco Ltd.

ESG Supplement

31 March 2024

ESG Characteristics

The Invesco Sustainable Allocation Fund (the fund) follows a multi-stage process which is purely systematic, rule-based and designed for the broadest possible collection of diversified risk premiums. The fund only invests in liquid assets, such as listed equities, government bonds and exchange traded futures. The consideration of sustainability criteria is an integral part of every step of our investment process. The investment process of the fund is based on three building blocks: ESG Policy approach, Asset Allocation and Security Selection.

SFDR (see Glossary)

The fund complies with article 8 of SFDR (the EU's Sustainable Finance Disclosure Regulation) in that it promotes environmental or social characteristics, and in that the companies in which investments are made follow good governance practices. More information is available at www.invescomanagementcompany.lu

Invesco's Commitment to ESG

Invesco has an investment-led ESG approach. We provide a comprehensive range of ESG focused capabilities that enable clients to express their values through investing. We also integrate financially material ESG considerations across our investment platform, taking into account critical factors that help us deliver strong outcomes to clients.

| ESG Characteristics ¹ | Fund |

⁵ Exclusion Criteria

The exclusion criteria may vary depending on the activity from zero tolerance to exclusions based on % of revenue. For further details on the revenue threshold applied to specific exclusions please refer to the Sustainability-related disclosures on the website of the Management Company.
www.invescomanagementcompany.lu

Exclusion criteria definitions are as follows:

Thermal Coal Extraction: The company extracts thermal coal.

Thermal Coal Power Generation: The company generates electricity from thermal coal.

Unconventional Oil and Gas: The company is involved in oil and gas exploration in the Arctic and/or extracts oil sands and/or is involved in shale energy exploration/production.

Oil and Gas (Conventional): The company is involved in oil and gas exploration and production.

Chemicals of Concern: The company produces chemicals which are banned by the three international conventions: UNEP Stockholm Convention, OSPAR Convention, the Montreal Protocol on Substances that Deplete the Ozone Layer.

Nuclear Power: The company generates power from nuclear sources or derives revenue from developing products or services that support the nuclear power industry.

Controversial Weapons: Companies that have been identified as having ties to controversial weapons, including cluster munitions, landmines, biological weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons and/or not detectable fragments.

Tobacco: The company manufactures tobacco products and/or supplies tobacco-related products/services.

UN Global Compact Status: Companies that have been identified as "non-compliant" under the United Nations Global Compact by Sustainalytics.

Nuclear Weapons Outside the Non-Proliferation Treaty: The company is involved in the manufacture of nuclear weapons or their tailor made components AND these weapons are distributed to a country that is not a declared nuclear power under the Treaty on the Non-Proliferation of Nuclear Weapons.

Recreational Cannabis: The company is involved in or has ties to revenue from recreational cannabis.

Military Contracting: The company derives revenue from the manufacturing of weapons / weapon components or from providing tailor-made products or services to the army or the defense industry.

Civilian Firearms: The company derives revenue from the manufacturing of small arms designed and marketed for the civilian market. This includes the manufacturing and retail of civilian firearms.

Adult Entertainment: The company derives revenue from adult entertainment. This includes sex shops, producers of adult movies, cinemas that show adult movies, adult entertainment magazines, and the broadcasting of adult entertainment.

Gambling: The company derives revenue from gambling. This includes companies that own casinos, offer bookmaking or online gambling, or manufacture gambling products (e.g. slot machines), etc.

Alcohol: The company derives revenue from alcoholic beverages. This includes producers as well as distributors or owners of retail stores that sell alcoholic beverages.

Responsible Investment Approach definitions are as follows:

ESG Integration: The process of including ESG factors in the fundamental financial analysis of companies and investments.

Negative Screen / Positive Allocation: A process that either excludes a portion of the investment universe that score badly on ESG criteria, focuses upon companies engaged in positive activities for the community or natural world, such as recycling, education or public transport or a combination of both.

Sustainable Investments: An investment in an economic activity that meets the definition of a Sustainable Investment per Article 2 (17) of the SFDR.

Impact Fund: Funds managed with the intention of generating positive, measurable social and environmental impacts, where impact has priority over financial performance.

Engagement: The process of communicating with representatives of a company as a shareholder with the aim of improving their behaviour and policies.

Voting (Equities only): Also known as Proxy Voting, it is a form of voting whereby the fund manager casts votes on behalf of their mutual fund shareholders on a variety of issues, that may include the election of board members, merger or acquisition approvals, or approving a stock compensation plan.

Glossary

ESG Characteristics: Environmental, social, and governance (ESG) information is a critical part of corporate and investment strategy and embedding material sustainability considerations into corporate and investment decisions is integral to long-term success from both financial and sustainability perspectives.

MSCI ESG Fund Rating: The Fund's ESG rating is designed to assess the resilience of the fund's aggregate holdings to long-term, financially relevant ESG risks and should facilitate the ability to rank or screen mutual funds and ETFs on a AAA to CCC ratings scale. This rating aims to provide fund level transparency and measures the ESG characteristics of the total portfolio. It is calculated as a direct mapping of MSCI ESG Quality Scores to letter rating categories. ESG Leaders are holdings with an ESG rating of AAA or AA (best in class), and ESG Laggards are holdings with an ESG rating of B or CCC.

MSCI ESG Quality Score: Calculated as the weighted average of the underlying holding's ESG scores, excluding any underlying holding where this information is not available. It is provided on a 0-10 scale, with 0 and 10 being the respective lowest and highest possible scores. MSCI scores underlying holdings according to their exposure to and management of key ESG issues, which are divided into three pillars: environmental, social and governance.

- **Environmental Pillar Score:** Provides an assessment of environmental factors including emissions, carbon footprint, fossil fuel usage and sustainable opportunities.
- **Social Pillar Score:** Relates to the operating environment of an underlying holding, including labour management, product liabilities, and health and safety.
- **Governance Pillar Score:** Provides an assessment of risk and management practices related to Corporate Governance and Corporate Behaviour.

ESG % Coverage: The percentage of the fund and comparator where MSCI ESG Research data is available.

Financed Emissions: Measure the greenhouse gas emissions associated with the investment. This figure represents the absolute overall exposure of the fund and is dependent on AUM, hence an increase in the AUM will cause the finance emissions to increase and vice versa. The fund AUM is used to calculate the Comparator's financed emissions which will also increase or decrease depending on the AUM size.

Scope 1: Covers direct emissions from owned or controlled sources.

Scope 2: Covers indirect emissions from the generation of purchased electricity, steam, heating and cooling consumed by the reporting company.

Scope 3: Includes all other indirect emissions that occur in a company's value chain.

Relative Carbon Footprint: The measure of the impact of activities on the amount of greenhouse gases produced, such as burning fossil fuels. Measured as Scope 1+ 2 Emissions per EUR 1M invested.

Wtd Avg (Weighted Average) Carbon Intensity: The underlying holdings exposure to carbon intensive holdings, calculated as the weighted average of the constituent's intensity metrics: Scope 1 + 2 emissions per EUR 1M revenue for corporates and total country carbon emissions per EUR 1M GDP for government bonds.

% Carbon Coverage (excluding cash): This represents the % weighting of the Fund/Benchmark for which carbon data is available.

References to Regulations

SFDR: Part of the EU's Sustainable Finance Action Plan, the Sustainable Finance Disclosure Regulation aims to promote transparency on sustainability by ensuring that participants in the financial services sector provide consistent information to clients in relation to the sustainability of the products and services they provide.

Important ESG Information

The above information is for illustrative purposes only. Providing this information is not indicative of how or whether ESG factors will be integrated into a fund. Unless otherwise stated in the legal offering documents, the ESG information provided in this document does not change a fund's investment objective or policy or constrain the fund's investable universe. The rating may vary from one rating agency to another. The rating may change over time and is not a guarantee of future performance of the fund.

Certain information © 2024 MSCI ESG Research LLC. Reproduced by permission, no further distribution. This report contains certain information (the "Information") sourced from MSCI ESG Research LLC, or its affiliates or information providers (the "ESG Parties"). The information may only be used for your internal use, may not be reproduced or disseminated in any form and may not be used as a basis for or a component of any financial instruments or products or indices. Although they obtain information from sources they consider reliable, none of the ESG Parties warrants or guarantees the originality, accuracy and/or completeness, of any data herein and expressly disclaim all express or implied warranties, including those of merchantability and fitness for a particular purpose. None of the ESG Parties shall have any liability for any errors or omissions in connection with any data herein, or any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

The data as represented has in the main been sourced from MSCI and ISS for respective categories. It should be noted that the ratings represented here may not be representative of the rating applied by the investment team as they use their own proprietary rating methodologies to assess the ESG credentials of each issuer. In addition, there are certain asset classes where data coverage per provider is not uniform and does not cover every single issuer. To the extent that MSCI/ISS does not cover a security in the fund, this does not represent that the security is not covered and rated by the investment team. Any holding held by the fund is rated by each investment team using their proprietary rating methodology sourcing information from external sources and unique insight that the teams have into the individual issuers.
