Risk and Reward Profile

The synthetic risk reward indicator (the SRRI) rating is not a measure of the risk of you losing your investment but describes how much the value of the Fund went up and down in the past.

The SRRI rating is based on historical data which may not be a reliable indication of the future risks and rewards of the Fund. We cannot guarantee that the rating of the Fund will remain the same: it may change over time.

Even the lowest rating 1 does not mean a risk free investment.

On a scale of 1 (less risky) to 7 (more risky), this Fund has a rating of 5 due to its past performance and the nature of its investments. Shares with a rating of 5 might have a higher risk, but also higher returns. Risk is taken in order to make a higher potential return; the more risk a fund takes, the higher the potential return but the greater the risk of loss.

The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may get back significantly less than the original amount invested.

The Fund may also experience the following risks:

Single sector risk: investing in a single sector may be riskier than investing in a number of different sectors. Investing in a larger number of sectors helps spread risk.

Currency risk: The Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund.

Listed Infrastructure Risk: The Fund may be vulnerable to factors that particularly affect the infrastructure sector, for example natural disasters, operational disruption and national and local environmental laws.

For further information on risks, please refer to the Risk Factors section in the Company prospectus.

Investment should be made on the basis of the Prospectus and Key Investor Information Document. If you are in any doubt as to the suitability of any of our funds for your investment needs, please seek independent financial advice.

Important Information

This factsheet is a financial promotion and can be used for retail clients in the UK. Distribution is limited to Professional Clients in all other countries where lawful.

†An initial charge of up to 7% may be levied in certain circumstances, including on regular savings plans and may be remitted as commission to an intermediary.

† The ongoing charge figure (OCF) is calculated on the same basis as for the Key Investor Information Document and represents the charges you will pay over a year for as long as you hold your investment and may vary from year to year. The OCF is made up of the annual management charge and additional expenses, but excludes portfolio transaction costs. For further information about charges and costs please visit <http://www.firststateinvestments.com/uk/private/Charges/>.
