

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so that you can make an informed decision about whether to invest.

**PGIM Jennison U.S. Growth Fund (the “Fund”)
a Sub-Fund of PGIM Funds plc (the “Company”)
EUR A Accumulation Class (IE00BYWYQV06) (the “Class”)**

Objectives and Investment Policy

The Fund aims to seek long-term growth of capital. The Fund will seek to achieve its investment objective by investing primarily in U.S. equity and equity-related securities of companies that exceed \$1 billion in market capitalization and that have the potential to grow faster than other companies in terms of sales, earnings or higher returns on equity and assets.

The benchmark of the Fund is the Russell 1000 Growth Index, however, the sub-investment manager has discretion over the investments of the Fund. The Fund will be actively managed and does not intend to track the benchmark. The benchmark is being used by the Fund for performance comparison purposes only.

In determining which securities to buy and sell, the sub-investment manager analyzes individual companies that have liquidity, capitalization and fundamental characteristics that it believes will contribute to longer-term performance, such as: attractive long-term earnings growth; high levels of unit, revenue and cash flow growth; improving sales momentum; high or improving profitability; and a strong competitive market position.

The Fund promotes sustainability characteristics through its incorporation of environmental, social and governance (ESG) factors into its investment process. The Fund seeks to maintain a weighted average carbon intensity that is at least 50% lower than that of the Russell 1000 Index.

The Fund can invest up to 25% of its portfolio in non-U.S. equity and equity-related securities traded or listed on Recognised Markets globally in both developed and emerging market countries.

The Fund may also hold cash, on an ancillary basis, and invest in money market instruments, which may comprise fixed term deposits, investment grade fixed and floating rate instruments including (but not limited to) certificates of deposit, banker acceptances, freely transferable promissory notes, commercial paper, floating rate notes, debentures, asset backed commercial paper, government bonds, corporate bonds, asset backed securities and money market funds. The Fund may not be leveraged in excess of 100% of its net asset value, through the use of derivatives.

The Fund does not invest in companies listed on certain exclusion lists published by third parties and based on ESG considerations, as detailed in the Supplement.

It is not currently anticipated that dividends will be declared in respect of the Class. Net investment income attributable to the Class is expected to be retained by the Fund, which will increase the net asset value per share of the Class.

Portfolio transaction costs, which are paid by the Fund in addition to the costs set out under “Charges” below, may have a material impact on the performance of the Fund.

Investors can buy and sell their shares on each business day of the Fund.

The Fund may not be appropriate for investors who plan to sell their shares within the short term.

The shares are denominated in Euro. The base currency of the Fund is the US Dollar.

Risk and Reward Profile

The Fund’s risk category of 6 has been calculated using simulated historical data which may not be a reliable indicator of the Fund’s future risk profile.

The risk rating of the Fund is calculated using a standard methodology used by all UCITS funds, and shows where the Fund ranks in terms of its relative risk and potential return based on past share price fluctuation. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean “risk free”.

Below are certain risks that you should be aware of that may result in a loss or reduction in the value of your investments. These risks are not exhaustive. Potential investors should consult the prospectus and their professional advisers before investing in the Fund.

Principal Investment Strategies: There are risks associated with the Fund's principal investment strategies, including that because the Fund may invest a large portion of its assets in a single country or region of the world, the Fund's investments may be geographically concentrated, which can result in more pronounced risks based upon economic conditions that impact one or more countries or regions.

Growth Style Risk: The Fund's growth style may subject the Fund to above average fluctuations. There is the risk that the growth investment style may be out of favour for a period of time, and when the style is out of favour the Fund may underperform the market in general.

Charges

The charges you pay are used to pay the costs of the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The One-off charges taken before or after you invest:	
Entry charge	None
Exit charge	None
This is the maximum amount that might be taken out of your money before it is invested or before the proceeds are paid out.	
Charges taken from the Fund over a year:	
Ongoing charge	1.60%
Charges taken from the Fund under certain specific conditions:	
Performance fee	None

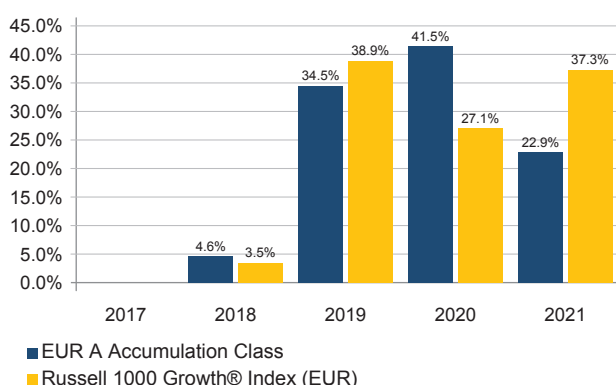

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find out from your financial adviser.

The ongoing charges are based on the expenses as of December 2021. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry / exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section headed Fees and Expenses of the Fund's prospectus and supplement, which is available from the applicable distributor.

Swing pricing may be applied on a subscription or redemption of shares to reflect the costs of dealing in the Fund's assets.
