INVESTMENT UNIVERSE

The fund invests in equities of US companies (and other analogous transferable securities), warrants, subscription rights and cash and cash equivalents. Companies are selected on the basis of compliance with environmental, social and governance criteria. At least 50% of the portfolio must be composed of equities and other securities referred to above generating a higher actual or expected dividend yield than the market average. The fund may, on an optional basis, use derivatives to achieve its goals or for hedging. This is an actively managed fund. The benchmark is used to compare performance. The selection and weighting of the assets in the fund's portfolio may differ significantly from the composition of the benchmark.

RISKS

The risk indicator assumes that you will hold the product for at least 6 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Investing in this product also entails risks that are materially relevant but not included in the risk indicator:

• Concentration risk: As the portfolio is mainly composed of US securities, it is likely to be more specifically exposed to the economic development of this sector and area.

This product does not include any protection from future market performance so you could lose some or all of your investment.

We refer to the prospectus and KID for more explanation and a complete overview of the risks.
