

CT (Lux) Responsible Euro Corporate Bond

Share Class I Inc EUR

31-Mar-24

Fund manager

EMEA Credit Team

Fund objective and policy

The Fund aims to achieve an above average rate of return over the long term measured in Euro. The Fund is actively managed. It is not constrained by its comparator benchmark, the BBI Euro Aggregate Corporate TR Index, and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. The Fund invests in assets which meet predefined ethical and environmental, social and governance (ESG) screening criteria. It invests mainly in investment grade debt securities issued by companies demonstrating responsible business practices; avoids investment in companies with activities that harm society or the environment; and uses its influence as an investor to encourage companies to improve their management practices through engagement.

Risk warning

The value of your investments and any income from them can go down as well as up and you may not get back the original amount invested. The income and capital due from bonds is dependent upon the issuer's ability to pay and any default will adversely affect the value of your investment. Screening out sectors or companies may result in less diversification and hence more volatility in investment values. Changes in interest rates can affect the value of fixed interest holdings and may adversely affect the value of your investment. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.

Glossary

Active Engagement Report	We define engagement as dialogue between investors and companies with a focus on encouraging companies to address strategic issues including environmental, social and governance factors. The objective of such dialogue with companies is to reduce risk and support long-term performance. The table sets out, for the fund, the number of companies we have engaged with; the number of countries covered and the individual engagement themes.
Quartile Ranking	A measure of performance where all funds within the sector are ranked and split into 4 groups. The best 25% performing funds are in the first (1) quartile, the next 25% into the second (2) quartile and the worst 25% into the fourth (4) quartile.
