## STRATEGY DESCRIPTION

Fiera Capital's highest conviction ideas are selected for this research-focused approach that identifies best of breed companies with a sustainable competitive advantage and growth potential, trading at what are believed to be attractive valuations.

Superior and sustainable results are achieved by investing in a concentrated, yet diversified, portfolio of high-quality companies and holding them for the very long run. As a result of unique competitive advantages, these companies are able to generate stable and strong return on invested capital (ROIC), provide ample long-term growth potential at incrementally higher ROIC, generate strong and predictable free cash flow, consistently compound shareholder wealth over the long term and preserve capital.

The Fiera Capital US Equity Fund was launched on 04 April 2018. It follows Fiera Capital's US Equity Strategy. This strategy was created in 2009 and is the responsibility of Nadim Rizk who is based in Montreal, Canada. The performance of the strategy is given below.
