M&G (Lux) Global Emerging Markets Fund

a sub-fund of M&G (Lux) Investment Funds 1

EUR Class CI-H – Accumulation shares ISIN no. LU1797805691

Managed by M&G Luxembourg S.A.

Objective and investment policy

The fund aims to provide a combination of capital growth and income to deliver a return that is higher than that of the global emerging markets stockmarket over any five-year period while applying ESG Criteria.

Core investment: at least 80% of the fund is invested in the shares of companies that are based, or do most of their business, in emerging markets. The fund may invest in China A-Shares via the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect. The Fund invests in securities that meet the ESG Criteria, applying an Exclusionary Approach and Positive ESG Tilt as described in the precontractual annex.

Other investments: other funds (including funds managed by M&G) and cash or assets that can be turned into cash quickly.

Derivatives: to reduce risks and costs.

Strategy in brief:

- Investment approach: the investment manager selects stocks using a bottom-up approach across a range of sectors. A long-term perspective is adopted to identify companies whose long-term prospects are, in the investment manager's opinion, being undervalued. It is the core belief of the investment manager that corporate governance and company-specific factors, in particular their profitability (which is measured in terms of return on capital), drive share prices over the long run. The fund's country and sector exposure is not influenced by top-down views.

- Investment manager's ESG classification: Planet+ / ESG Enhanced, as defined in the fund's prospectus.

Benchmark: MSCI Emerging Markets Net Return Index

The benchmark is a comparator used solely to measure the fund's performance and reflects the financial aspects of the fund's investment policy but does not constrain portfolio construction. The fund is actively managed. The fund's holdings may deviate significantly from the benchmark's constituents, and as a result the Fund's performance may deviate materially from the benchmark. For unhedged and currency hedged share classes, the benchmark is shown in the share class currency.

Other information

You can buy and sell shares in the fund on any business day. Instructions received before 13:00 Luxembourg time will be dealt at that day's price.

Any income from the fund will be rolled up into the value of your investment.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund. These may have a material impact on your returns.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

- The above risk and reward indicator is based on simulated historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 6 because its simulated Net Asset Value has shown high rises and falls in value historically.

- The risk number shown is not guaranteed and may change over time.

- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.

- Investing in emerging markets involves a greater risk of loss due to greater political, tax, economic, foreign exchange, liquidity and regulatory risks, among other factors. There may be difficulties in buying, selling, safekeeping or valuing investments in such countries.

- The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.

- The fund may invest in China A shares. Investments in assets from China are subject to changeable political, regulatory and economic conditions, which may cause difficulties when selling or collecting income from these investments. In addition, such investment is made via the Stock Connect system, which may be more susceptible to clearing, settlement and counterparty risk. These factors could cause the fund to incur a loss.

- The hedging process seeks to minimise, but cannot eliminate, the effect of movements in exchange rates on the performance of the hedged share class. Hedging also limits the ability to gain from favourable movements in exchange rates.

- In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.

- The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.

- Operational risks arising from errors in transactions, valuation, accounting, and financial reporting, among other things, may also affect the value of your investments.

- ESG information from third-party data providers may be incomplete, inaccurate or unavailable. There is a risk that the investment manager may incorrectly assess a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the portfolio of the fund.

Further details of the risks that apply to the fund can be found in the fund's Prospectus at www.mandg.co.uk/literature

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	1.25%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0.98%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The ongoing charge is based on expenses for the period/year ending 30 September 2022. This figure may change from year to year. It excludes portfolio transaction costs. This figure includes extraordinary expenses and underlying charges for closed-ended-funds, such as investment trusts and Real Estate investment trusts.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.co.uk/literature

Past performance

- Past performance is not a guide to future performance.
- Performance is calculated including tax, the ongoing charge and the Performance fee but excluding entry and exit charges.
- The fund launched on 26 October 2018 and the EUR Class CI-H Accumulation share class launched on 12 April 2019.
- Performance is calculated using EUR Class CI-H Accumulation shares.
- The benchmark does not take account of the currency hedging. There may be a greater difference between the past performance of the hedged share class and the benchmark than for unhedged share classes in the fund.
- Benchmark performance has been calculated in EUR.

Benchmark:

01 January 2020 to 25 October 2018 - MSCI Emerging Markets Gross Return Index

26 October 2018 to 31 December 2022 - MSCI Emerging Markets Net Return Index
