Ossiam ESG Low Carbon Shiller Barclays CAPE® US Sector UCITS ETF (the “Fund”) (1A (EUR) ISIN: IE00BF92LV92) a sub-fund of OSSIAM IRL ICAV (the “ICAV”)

Management Company: Ossiam, part of the Natixis group of companies

Objectives and Investment Policy

Objectives and investment policy:

The objective of the Fund is to deliver the net total returns of a selection of US equities which are part of the Shiller Barclays CAPE® US Sector Value Net TR Index (the “Investment Universe”), while taking into account ESG (Environment, Social, Governance) criteria and improving carbon performance.

The Fund is an actively managed UCITS ETF.

The Fund’s investment universe consists solely of the equity securities in the Investment Universe.

The Management Company’s quantitative model implements a rule-based approach that aims to assess the securities from the Investment Universe based on ethical criteria and greenhouse gas contributions. The Management Company determines the weights of the equities of the Eligible Universe using an optimisation procedure.

The Management Company performs the optimisation on a monthly basis.

The Fund may not invest in financial derivative instruments.

The Reference Currency of the Fund is the US Dollar.

The 1A (EUR) shares are listed for trading on one or more stock exchanges and investors may buy or sell shares through their usual broker on any trading day of the relevant stock exchange(s) which is also a Dealing Day in Ireland or, through a fund platform. Please contact your broker for additional information.

The 1A (EUR) Share Class is an accumulating share class therefore income derived from the Fund is reinvested.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

Please refer to the supplement for the Fund (the “Supplement”) for additional details about the objective and investment policy.

Risk and Reward Profile

Lower Risk

Higher Risk

Typically Lower Rewards

Typically Higher Rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The Fund is ranked 5 on the synthetic risk and reward indicator scale, which is based on historical data. Due to its exposure to equity markets, the Fund may experience important volatility, as expressed by its rank on the above scale. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean “risk free”.

Special Risk Considerations

Market Risk: The value of the Fund’s Shares is linked to equities, the value of which may rise or fall. Hence, investors should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that the strategy of the Sub-Fund will indeed result in a return above any comparable investment strategy or that they will recover their initial investment.

Geographic concentration risk: Funds that concentrate investments in certain geographic regions may suffer losses, particularly when the economies of those regions experience difficulties or when investing in those regions become less attractive. Moreover, the markets in which the funds invest may be significantly affected by adverse political, economic or regulatory developments.

ESG Investments Risk: The Investment Objective of the Sub-Funds is based on ESG criteria. There is a risk that ESG investments may underperform the broad market, including the Investment Universe.

Currency Risk at Share Class level: Share Classes which are denominated in currencies other than the Base Currency are unhedged. As such, the Net Asset Value per Share of such Share Classes will follow fluctuation in the exchange rate between the Share Class currency and the Base Currency, which can generate additional volatility at the Share Class level.

Please refer to the Supplement and to Ossiam IRL ICAV prospectus (the “Prospectus”) for additional details about the risks.
