FUND OVERVIEW

The Fund aims to achieve long-term capital growth on your investment. The Fund seeks to gain at least 70% of its investment exposure to equity securities (e.g. shares) of companies domiciled in, listed in, or the main business of which is in, Asia (excluding Japan). This is achieved by investing in equity securities, other equity-related securities and, when determined appropriate fixed income (FI) securities (such as bonds), money market instruments (MMIs) (i.e. debt securities with short-term maturities), deposits and cash.

% CALENDAR YEAR RETURNS

The figures shown relate to past performance. Past performance is not a reliable indicator of current or future results and should not be the sole factor of consideration when selecting a product or strategy. Share Class performance is calculated on a Net Asset Value (NAV) basis, with income reinvested, in U.S. Dollar, net of fees. Benchmark performance displayed in USD

KEY RISKS: Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets and failed/delayed delivery of securities or payments to the Fund. Currency Risk: The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment. The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.
