General information on the Company

Lyxor Investment Funds (the "Company") was incorporated on June 7, 2006 under Luxembourg laws as a *Société d'Investissement à Capital Variable* ("SICAV") for an unlimited period of time. The Company is governed by the provisions of Part I of the Luxembourg amended Law of December 17, 2010 relating to undertakings for collective investment.

The Articles of Incorporation have been deposited with the Register of Commerce and Companies of Luxembourg and were published in the *Mémorial, Recueil des Sociétés et Associations* (the "Mémorial") of June 22, 2006. The Articles of Incorporation have been amended on June 26, 2006 to change the name of the Company from QUANTIC to Lyxor QUANTIC. Such amendment has been published on July 14, 2006. The Articles of Incorporation have been amended on September 28, 2010 to change the name of the Company from Lyxor QUANTIC to Lyxor Quantitative Fund. Such amendment has been published on October 15, 2010. The Articles of Incorporation have been amended on May 25, 2012 (such amendment has been published on June 6, 2012), on November 10, 2016 (such amendment has been published on December 1, 2016) to change the name of the Company from Lyxor Quantitative Fund to Lyxor Investment Funds and for the last time on November 19, 2020 (such amendment has been published on December 9, 2020). The Company is registered with the Register of Commerce and Companies of Luxembourg under number B 116 875.

The Company aims to provide investors with professionally managed Sub-Funds investing in a wide range of transferable securities, money market instruments and other permitted assets in accordance with Part I of the Luxembourg amended Law of December 17, 2010 (the "2010 Law") on undertakings for collective investment in order to achieve an optimum return from capital invested while reducing investment risk through diversification.

As at December 31, 2022, seven Sub-Funds are available:

- Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION
- Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION
- Lyxor Investment Funds - EuroGovies Risk Balanced
- Lyxor Investment Funds - LYXOR SILVER MULTI ASSET
- Lyxor Investment Funds - GARI European Equity
- Lyxor Investment Funds - Planet Global Equity
- Lyxor Investment Funds - Lyxor Euro 6M

Within each Sub-Fund, the Company may create different Classes of Shares which are entitled to dividend payments ("Distribution Shares") or with earnings reinvested ("Capitalisation Shares"), or which differ also by the targeted investors, their reference currencies, by the management fees or the subscription / redemption charges.

The amounts invested in the several Classes of shares of one Sub-Fund are themselves invested in a common underlying portfolio of investments within the Sub-Fund, although the Net Asset Value per share of each Class of shares may differ as a result of either the distribution policy, the *taxe d'abonnement* and/or the management fees and/or the subscription and redemption fees for each Class.

The Sub-Fund Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION may issue the following Classes of Shares, in registered form, subject to different terms and conditions described below:

Class M (EUR)	Class A (EUR)	Class I (EUR)

The objective of the **Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION** Sub-Fund's investment objective is to provide a net capital appreciation (taking into account all fees and expenses attributable to the Sub-Fund) above Euro Short-Term Rate (the "€STR") or the equivalent money market rate in the relevant currency of the Class of Shares, over a 3 to 5 year horizon with an annual volatility target level of 3%.

The Sub-Fund has a flexible investment approach to generate performance in most market environments. It will invest in a diversified portfolio of liquid instruments.

The Sub-Fund seeks to achieve its objective by using a dynamic asset allocation process on a broad and diversified set of liquid asset classes.

The objective of the **Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION** Sub-Fund's investment objective is to provide a net capital appreciation (taking into account all fees and expenses attributable to the Sub-Fund) above Euro Short-Term Rate (the "€STR") or the equivalent money market rate in the relevant currency of the Class of Shares (the "Benchmark Index"), over a 3 to 5 year horizon with an annual volatility target level of 8%.

The Sub-Fund has a flexible investment approach to generate performance in most market environments. It will invest in a diversified portfolio of liquid instruments.

The Sub-Fund seeks to achieve its objective by using dynamic asset allocation process on a broad and diversified set of liquid asset classes.

General information on the Company (continued)

The objective of the **Lyxor Investment Funds - EuroGovies Risk Balanced** Sub-Fund is to provide a net capital appreciation (taking into account all fees and expenses attributable to the Sub-Fund) over a 3 to 5 years period.

The Sub-Fund seeks to achieve its objective by applying an active debt securities selection overlay to the proprietary risk-based asset allocation methodology developed by Amundi.

The objective of the **Lyxor Investment Funds - LYXOR SILVER MULTI ASSET** Sub-Fund's investment objective is to provide a net capital appreciation (taking into account all fees and expenses attributable to the Sub-Fund) above Euro Short-Term Rate (the "€STR") or the equivalent money market rate in the relevant currency of the Class of Shares (the "Benchmark Index"), over a 3 to 5 year horizon with an annual volatility lower than target level of 8%.

The Sub-Fund has a flexible investment approach to generate performance in most market environments. It will invest in a diversified portfolio of liquid instruments.

The Sub-Fund seeks to achieve its objective by using a dynamic asset allocation process on a broad and diversified set of liquid asset classes.

The objective of the **Lyxor Investment Funds - GARI European Equity** Sub-Fund is to outperform the MSCI Europe Index Net Total Return (EUR) over a long term horizon by exploiting investment opportunities on the equity markets. The Management Company's objective is to build a Growing And Resilient Investment ("GARI") portfolio over the long term.

The Sub-Fund seeks to achieve its objective by investing primarily in equity listed on stock exchanges.

The objective of the **Lyxor Investment Funds - Planet Global Equity** Sub-Fund is to seek to provide capital appreciation over the investment horizon by actively investing in equity markets. The Sub-Fund's investment strategy is based on a proprietary and systematic methodology, using tools developed by the Management Company. The allocation process rests on a core-satellite approach relying on geographical, sector-based and thematic equity themes, providing a diversified exposure to global equity markets with a focus on European markets.

The core portfolio is a geographically diversified portfolio (notably among European countries) invested in financial instruments providing exposure to European or global equity markets (the "Core Portfolio").

The satellite portfolios are portfolios that may invest across one or several sectors.

The investment objective of "**Lyxor Investment Funds – Lyxor Euro 6M**" (the "Sub-Fund") is to provide a net performance above the Euro Short-Term Rate (the "€STR") over a six-month investment horizon.

The Sub-Fund seeks to achieve its objective by applying an active investment strategy. The investment strategy is divided in 3 phases: investment universe definition, portfolio construction and portfolio maintenance.

Information to the Shareholders

The Annual General Meeting of the Shareholders will be held at the registered office of the Company in Luxembourg each year within four months following the end of the financial year.

Notices of all general meetings will be sent by mail to all registered Shareholders at their registered address at least 8 days prior to such meeting. According to the requirements of the Luxembourg Law, if bearer shares are issued, the notices will be published in the Mémorial and in a Luxembourg newspaper, in addition notices can be published in such other newspaper that the Board of Directors shall determine.

Audited annual reports and unaudited semi-annual reports are sent to the shareholders and are made available for public inspection at each of the registered offices of the Company and the Administrative Agent within four, respectively two months following the relevant accounting period.

The list of changes in the portfolio for the year ended December 31, 2022 is available, free of charge, at the registered office of the Company.

Report of the Board of Directors

Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION

The economic and financial year 2022 largely unfolded under the sign of stagflation (slowdown in growth and very high inflation), mainly due to the delayed effects of the COVID crisis, to which were added those of the Ukrainian conflict. The vast majority of central banks tightened their monetary policies very abruptly, prioritizing the fight against inflation at the risk of further curbing activity. China, where extensive anti-COVID restrictions persisted for most of the year, faced specific challenges. On the markets, bond yields have risen very strongly while equities have fallen.

In this context, the strategy suffered from a very challenging environment for long-only multi-asset funds. The lack of diversification across asset classes, the sharp trend reversal and the marked correction experienced by most assets in the investment universe led to a negative performance of -6.4% (EUR I-share class) in 2022.

Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION

The economic and financial year 2022 largely unfolded under the sign of stagflation (slowdown in growth and very high inflation), mainly due to the delayed effects of the COVID crisis, to which were added those of the Ukrainian conflict. The vast majority of central banks tightened their monetary policies very abruptly, prioritizing the fight against inflation at the risk of further curbing activity. China, where extensive anti-COVID restrictions persisted for most of the year, faced specific challenges. On the markets, bond yields have risen very strongly while equities have fallen.

In this context, the strategy suffered from a very challenging environment for long-only multi-asset funds. The lack of diversification across asset classes, the sharp trend reversal and the marked correction experienced by most assets in the investment universe led to a negative performance of -17.55% (EUR I-share class) in 2022.

Lyxor Investment Funds - EuroGovies Risk Balanced

The Lyxor Eurogovies Risk Balanced fund had a performance of -0.12% (Class I) in 2022 against -0.02% for ESTR compounded rate. The volatility of the fund was at 0.61% annualized. The fund has adopted a very safe approach during this year by investing the lower end of the curve and swapping all assets against interest rates. Investment was mainly focused on bonds showing low beta to the sharp market moves while providing interesting levels of carry.

By the beginning of the final quarter of 2021, the change in tone of central bankers, taking a "hawkish" turn, had already worried investors. The question of whether inflation would take hold over time led to fears of a cycle of rising key rates, particularly in the United States where the speeches were the least reassuring. 2022 confirmed this trend: month after month, inflation figures continued to reach record highs, driven by food and energy.

The upward trend in rates therefore continued and even intensified throughout 2022. The Fed, which was planning to raise its key rates three times at the end of 2021, finally raised them seven times in 2022 (including four 75 basis point hikes). The ECB raised its rates 4 times, thus putting an end to the era of negative rates that had lasted for more than 10 years.

The political and geopolitical situation did not help reassure the markets. Tensions between Russia and Ukraine developed into an armed conflict on February 23rd, which resulted in an immediate surge in the price of oil and gas (\$128 per barrel of oil in March), of which Russia supplies a large part to Europe. The risk to growth from rising energy prices was assumed to be able to halt - or at least defer - the hawkish policy of central banks, which now had to make a trade-off between inflation and recession.

In this context, swap spreads posted a positive performance over the 3 first quarters of the year before sharply receding by the end of the year. Many items explain this market move. In the first 3 quarters of the year, high quality liquid assets, especially safe haven government bonds such as German bunds were in demand. The collateral needs in a highly volatile market, investors seeking safe haven, on the top of central bank purchase programs were the main responsible for the squeeze. On the other side, paying flows on swaps related to bank mortgage hedging and fast money position taking made swaps suffer more than bonds. All of the above led swap spreads to reach extreme levels by the end of Q3.

Report of the Board of Directors (continued)

During Q4, the trend inverted with swap spreads suffering quite extensively, especially on those safe haven government bonds, less on SSAs. The explanation come mainly from the bond market where many announcements had an impact on repo rate and swap spreads : on the one side, TLRO was made significantly less attractive by the ECB leading to less search of collateral. Some treasuries, namely the DFA announced retained issues to provide the market with German bunds that were squeezed for a total size of 54 bn EUR. Otherwise market volatility receded with investors becoming increasing acquainted with the context of the war in Europe, leading to lesser collateral demand. Finally, persisting inflation led to high Quantitative tightening expectations also affecting market valuations.

Lyxor Investment Funds - LYXOR SILVER MULTI ASSET

The economic and financial year 2022 largely unfolded under the sign of stagflation (slowdown in growth and very high inflation), mainly due to the delayed effects of the COVID crisis, to which were added those of the Ukrainian conflict. The vast majority of central banks tightened their monetary policies very abruptly, prioritizing the fight against inflation at the risk of further curbing activity. China, where extensive anti-COVID restrictions persisted for most of the year, faced specific challenges. On the markets, bond yields have risen very strongly while equities have fallen.

In this context, the strategy suffered from a very challenging environment for long-only multi-asset funds. The lack of diversification across asset classes, the sharp trend reversal and the marked correction experienced by most assets in the investment universe led to a negative performance of -10.3% (EUR I-share class) in 2022.

Lyxor Investment Funds - GARI European Equity

As the curtain closes on 2022, investors will reflect on what was a turbulent year for equity markets. In summary, the MSCI Europe lost 9.5% in 2022. Looking across sectors, 2022 was a year for the more value orientated segments of the market with Energy and Financials leading the way, while longer duration areas like Information Technology lagged. This sectorial performance, despite sudden bouts of rotation, was quite consistent throughout the year.

The combination of the prolonged conflict in Eastern Europe, China's zero Covid policy, elevated inflation prints, and more aggressive central bank monetary tightening resulted in one of the worst six month periods for risk assets in decades. Q3 was also negative, with spiralling inflation numbers the main concern governments and central banks alike. During Q4, the market narrative shifted slightly from one of rising inflation and rising rates, to one of peaking inflation and peaking rates. This has helped to buoy investor sentiment during Q4, and sparked quite a strong rebound. However, in December, while the inflation data does appear to be stabilising, we continue to see elevated prints, and hence central banks on both sides of the Atlantic have maintained a hawkish tone. It looks like investors will need to brace themselves for further rate hikes in 2023.

It is easy to get caught up in the market noise. However, taking one step back from the macro newsflow, and focusing on the fundamentals, the most recent data has been less bad than feared. Earnings releases were quite robust relative to the more muted consensus expectations. Entering into the most recent reporting season, there had been concerns that earnings would fall off the cliff given higher costs and a slowing consumer. This didn't materialise, which would give cause for optimism as we enter 2023.

The market environment in 2022 reminded investors that equity markets are not a one way street. However, as active managers, bouts of volatility and rotation can be seen in a positive light. It is during these more turbulent periods that we find stock picking opportunities to buy good business models at more compelling valuations. With market uncertainty set to continue into the early weeks of 2023, we continue to hunt for idiosyncratic investment cases where we see a mispricing opportunity.

GARI European Equity investment strategy is mainly invested in quality stocks exposed to structural long-term trends, especially energy transition that will remain a strong driver of growth for the coming years. ESG is becoming core to the strategy of the fund as we think it gives a more complete view of the companies we invest in to assess risks and opportunities.

Since its launch, GARI European Equity is up 41.58% after costs and fees, versus 45.83% for the MSCI Europe.

Report of the Board of Directors (continued)

Lyxor Investment Funds - Planet Global Equity

After touching a low point in October 2021, risky assets recovered, buoyed by supportive macro readings and corporate earnings. In this context, central banks prepared markets to a new regime, the end of the stimulus and ultra-low yield period. US bond yields increase and the spread of the Omicron variant on Europe did not dent optimism which prevailed until the end of the year. Equity markets ended 2021 close to historical record levels.

Markets conditions worsened markedly in 2022. Persistently high inflation, major central banks turning increasingly hawkish and intensifying geopolitical pressure in Eastern Europe coalesced to bring equities in a bear market. Beneath the surface, major sector and factor rotations favored value stocks, especially within the energy and financial segments, supported by rallying oil prices and rising yields.

The Fed took central stage in January. Multiple comments from its members pointed at a first rate hike and the tapering of its purchase program in March. Throughout the first quarter, the bond market progressively priced in more aggressive central banks' rate hikes in the US, and also in the UK, and in Eurozone, amid continued upward inflation surprises.

After mid-February, investors increasingly focused on escalating tensions in Ukraine. The repricing of geopolitical risk accelerated when Russia recognized the two self-proclaimed independent republics in the Donbas region, but the full-scale invasion that started on February 24 surprised most market participants. Western countries coordinated to inflict maximum financial pain with multiple sanctions hitting the Russian financial system, while supplying Ukraine with military equipment and intelligence. The unclear Russian endgame, growing risk of escalation between the West and Russia, and nuclear infrastructures being targeted, resulted in a market panic early March. Later, rounds of talks between Ukraine and Russia, and signs of Russian military setbacks helped markets stage a temporary rally.

Inflation was amplified by the war and the rise in commodity prices. From being temporary, inflation was now described as sticky. At the Federal Reserve meeting in March 2022, the fed fund rate was raised by 25bps. This was followed throughout the year by increases of 50bps in May, followed by 4 increases of 75bps in June, July, September and November and eventually by a 50bps increase in December.

The ECB followed on the hiking path with some delay. The desynchronization of the monetary policies of the various central banks led to a strong appreciation of the dollar.

During the second part of the year, as economic activity slowed down and the rise in inflation diminished, markets started a Fed pivot. This resulted in volatile market with frequent reversals and rallies. Whether at the Jackson Hole symposium in August or at its November meeting, each time hopes were dashed by Jerome Powell hammering the Fed's determination to bring inflation back to its target level of 2%.

It was only after the 20th National Congress of the Chinese Communist Party, quickly followed by China's decision to abandon its 0-covid policy in October, that markets eventually staged a rebound that lasted until the end of the year. Optimism was amplified by inflation figures in the US and Europe that seemed to have peaked in the last quarter of the year.

Lyxor Investment Funds - Lyxor Euro 6M

At the end of 2021, the tone of central bankers, adopting a "hawkish" stance, had already worried investors. The possibility of a more persistent inflation than expected led to growing fears of a cycle of rising key rates, particularly in the United States. The year 2022 has confirmed this trend: month after month, inflation figures have continued to reach record highs, driven by food and energy.

The upward trend in rates therefore continued and even intensified throughout 2022. The Fed, which was planning to raise its key rates three times at the end of 2021, raised them seven times in 2022 (including four 75 basis point hikes). The ECB raised its key rates four times, thus ending the era of negative rates that had lasted for more than 10 years.

The political and geopolitical situation did not help reassure the markets. Tensions between Russia and Ukraine developed into an armed conflict on February 23, which resulted in an immediate surge in oil and gas prices (\$128 per barrel of oil in March). The risk that the rise in energy prices could turn into a recession has complicated the equation for central banks,

Report of the Board of Directors (continued)

which were forced to arbitrate between the risk of inflation and recession.

Against this backdrop, Euro IG credit spreads showed some resilience in January, before widening significantly in the second half of the year.

The spread vs. Germany of the ICE Bofa 1-3 year Corp € index, which is a good proxy for the fund's investment universe, rose from 70 bp in early January to a high of 200 bp in October before closing the year at 140 bp.

Rising interest rates were the main driver of the widening of credit spreads over the year. The primary market was much quieter in 2022 than in 2021, with 20% fewer issues. This trend peaked in July before a fairly encouraging recovery in the second half of August, albeit in volumes half those of August 2021.

In this context, the fund displayed a net annual performance of -0.38% in 2022. The modified duration was reduced progressively and neared 0 by year-end.

Outlook for 2023

Looking ahead, we maintain our cautious stance on interest rate exposure: central banks seem determined to fight inflation, which will weigh on rates. We are more positive on credit: despite the significant tightening recorded at the end of 2022, spreads remain at very attractive levels, particularly in the 2-3 year segment. In terms of sectors, we favor the banking sector, which offers the most attractive credit quality/yield ratio, which should also benefit from the rate hike cycle, and which should finally be massively present in issuance in 2023.

Information on environmental and/or social characteristics and/or sustainable investments is available in the relevant annexes under the (unaudited) Sustainable Finance Disclosure Regulation section.

The Board of Directors

Note: The figures stated in this report are historical and not necessarily indicative of future performance.

Audit report

To the Shareholders of
Lyxor Investment Funds

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Lyxor Investment Funds (the “Fund”) and of each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the statement of net assets as at 31 December 2022;
- the statement of operations and changes in net assets for the year then ended;
- the schedule of investments as at 31 December 2022; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds except for Lyxor Investment Funds - GARI Euro Equity Dynamic Overlay and Lyxor Investment Funds - GARI Global Green Transition where a decision to liquidate exists to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

- Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION
- Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION
- Lyxor Investment Funds - EuroGovies Risk Balanced
- Lyxor Investment Funds - LYXOR SILVER MULTI ASSET
- Lyxor Investment Funds - GARI European Equity
- Lyxor Investment Funds - Planet Global Equity
- Lyxor Investment Funds - Lyxor Euro 6M

The following Sub-Funds have been liquidated:

On March 31, 2022:

- Lyxor Investment Funds - GARI Euro Equity Dynamic Overlay

On June 29, 2022:

- Lyxor Investment Funds - Lyxor Planet ESG Balanced Allocation

On September 14, 2022:

- Lyxor Investment Funds - GARI Global Green Transition

2 - Significant accounting policies

2.1 Presentation of financial statements

The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. The application of the non-going concern basis of accounting has not led to material adjustment to the Sub-Fund's published net asset value. The Annual Report dated as at December 31, 2022 is based on the last official NAV dated as at December 30, 2022.

2.2 Valuation of investment in securities

2.2.1 Securities listed on a recognised stock exchange or dealt on any other regulated market that operates regularly, is recognised and is open to the public, are valued at their last available closing prices, or, in the event that there should be several such markets, on the basis of their last available closing prices on the main market for the relevant security.

2.2.2 In the event that the last available closing price does not, in the opinion of the Board of Directors, truly reflect the fair market value of such securities, the value is defined by the Board of Directors based on the reasonably foreseeable sales proceeds determined prudently and in good faith.

2.2.3 Securities not listed or traded on a stock exchange or not dealt on another regulated market are valued on the basis of the probable sales proceeds determined prudently and in good faith by the Board of Directors.

2.2.4 The value of financial derivative instruments traded on exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these financial derivative instruments on exchanges and Regulated Markets on which the particular financial derivative instruments are traded by the Company; provided that if financial derivative instruments could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the value of such financial derivative instruments shall be such value as the Directors may deem fair and reasonable.

2.2.5 The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are valued in a reliable and verifiable manner on a daily basis and verified by a competent professional appointed by the Company.

2.2.6 Investments in open-ended UCIs are valued on the basis of the last available net asset value of the units or shares of such UCIs.

2.2.7 All other securities and other assets are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.

Notes to the financial statements (continued)

2.3 Net realised gains or losses resulting from investments

The realised gains or losses resulting from the sales of investments are calculated on an average cost basis.

2.4 Foreign exchange translations

The accounts of each Sub-Fund are maintained in the reference currency of the Sub-Fund and the financial statements are expressed in that currency.

The acquisition cost of securities expressed in a currency other than the reference currency is translated into the reference currency at the exchange rates prevailing on the date of purchase.

Income and expenses expressed in other currencies than the reference currency are converted at exchange rates ruling at the transaction date.

Assets and liabilities expressed in other currencies than the reference currency are converted at exchange rates ruling at period ended. The realised or unrealised gains and losses on foreign exchange are recognised in the Statement of Operations and Changes in Net Assets in determining the increase or decrease in net assets.

2.5 Combined financial statements

The combined Statement of Net Assets and combined Statement of Operations and Changes in Net Assets represent the total of the Statements of Net Assets and Statements of Operations and Changes in Net Assets of the individual Sub-Funds, expressed in Euro.

2.6 Forward foreign exchange contracts

Forward foreign exchange contracts are valued at the forward rate applicable at the Statement of Net Assets date for the remaining period until maturity. Gains or losses resulting from forward foreign exchange contracts are recognised in the Statement of Operations and Changes in Net Assets.

2.7 Evaluation of the futures

Unrealised appreciations or depreciations on futures are recorded as follows:

- in “Unrealised appreciation/ (depreciation) on futures”, in the Statement of net assets;
- in “Net change in unrealised profit/(loss) on futures” in the Statement of Operations and Changes in Net Assets.

Futures contracts are valued at their liquidation value based on the closing price on the market on which these futures are quoted.

2.8 Evaluation of options contract

Options officially listed on a stock market or any other regulated market, operating in a regular manner, recognised and open to the public, are valued on the basis of their closing prices on the valuation day or, in the absence of such prices, on the basis of the last-known prices available. If these last-known prices are not representative, the valuation will be based on the probable realisation value estimated by the Board of Directors with prudence and in good faith.

2.9 Swaps

Interest rate swaps are valued at their market value established by reference to the applicable interest rates curve.

Swaps pegged to indexes or financial instruments are valued at their market value, based on the applicable index or financial instrument. The valuation of the swaps tied to such indexes or financial instruments is based upon the market value of said swaps, in accordance with the procedures laid down by the Board of Directors.

Swaps are disclosed in the Statement of Net Assets under caption “swaps at market value”. Unrealised gains/ losses and realised gains/losses are recorded in the Statement of Operations and Changes in Net Assets and include when applicable interests received and paid on swaps.

The realised on swaps in the Statement of Operations and Changes in Net Assets includes the balances on swaps paid or received by the Fund in the context of the increase/decrease of the composition of the securities basket, or paid/received in the context of subscriptions/redemptions at the Fund's level.

Notes to the financial statements (continued)

2.10 Income

Dividends are credited to income on the date upon which the relevant securities are first listed as “ex dividend”. Interest income is accrued on a daily basis.

2.11 Other expenses and other income

Amounts of other income in the Statement of Operations and Changes in Net Assets include mainly revenues from Transaction cost.

Balances for other expenses in the Statement of Operations and Changes in Net Assets mainly include other taxes and Transaction cost.

2.12 Formation expenses

The formation expenses of the Company were borne by the Management Company.

3 - Management Fees and Investment Management fees

On June 1, 2022, Lyxor Asset Management S.A.S was merged into Amundi Asset Management S.A.S, which replaced Lyxor Asset Management S.A.S and acted as Management Company.

Amundi Asset Management S.A.S has been incorporated on April 23, 2001 for a period of ninety-nine (99) years. Its registered office is established in France.

Amundi Asset Management S.A.S was licensed as a portfolio management company by the Autorité des Marchés Financiers in accordance with Directive n°2009/65/CE.

For all the Sub-Funds, a Management Fee is payable monthly in arrears (except for the Lyxor Investment Funds - EuroGovies Risk Balanced and Lyxor Investment Funds - Lyxor Euro 6M: the Management Fee is payable quarterly) in arrears to the Management Company in compensation for its services. Such fee is set at a percentage per year (inclusive of VAT) of the net asset value per share of each Sub-Fund.

The Management Fees rates applicable at December 31, 2022 are as follows:

Sub-Funds	Class of shares	Management / Investment Management fees p.a.
Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION	Class A (EUR)	0.90%
	Class I (EUR)	0.40%
	Class I (USD)	0.40%
	Class M (EUR)	1.20%
	Class SI (EUR)	0.40%
Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION	Class A (EUR)	0.95%
	Class A (CHF)	0.95%
	Class A (USD)	0.95%
	Class AS (AUD)	0.70%
	Class AS (USD)	0.70%
	Class B (GBP)	0.75%
	Class B (USD)	0.75%
	Class I (EUR)	0.50%
	Class I (GBP)	0.50%
	Class I (USD)	0.50%
	Class M (EUR)	1.50%
	Class M (USD)	1.50%
	Class R (GBP)	1.00%
	Class SI (EUR)	0.50%
Lyxor Investment Funds - EuroGovies Risk Balanced	Class I (EUR)	0.15%
	Class SI (EUR)	0.10%
	Class XI (EUR)	0.08%
Lyxor Investment Funds - LYXOR SILVER MULTI ASSET	Class I (EUR)	0.25%

Notes to the financial statements (continued)

Lyxor Investment Funds - GARI European Equity	Class B (EUR)	0.20%
	Class N (EUR)	1.85%
	Class SB (EUR)	0.45%
	Class X (EUR)	0.35%
Lyxor Investment Funds - Planet Global Equity	Class A (EUR)	1.10%
	Class I (EUR)	0.40%
Lyxor Investment Funds - Lyxor Euro 6M	Class EB (EUR)	0.05%
	Class I (EUR)	0.16%
	Class R (EUR)	0.26%
	Class SI (EUR)	0.11%

4 - Performance fees

For each Sub-Fund, the Company shall pay to the Management Company a performance fee as set out in the relevant Appendix to the prospectus of the Company. The Performance Fee may be amended and restated by parties from time to time and shall be notified to the Management Company.

The Management Company receives out of the assets of the Sub-Funds a performance fee equal to the Performance Rate multiplied by the Class Excess Performance related to the relevant Sub-Fund.

The performance fees rates and hurdle applicable at December 31, 2022 are as follows:

Sub-Funds	Class of shares	Performance fee	Hurdle
Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION	Class A, Class I, Class M (EUR)	10%	€STR
	Class A and Class I (USD)	10%	Fed Funds Rate
	Class I (JPY)	10%	TONA
	Class A (CHF)	10%	SARON
Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION	Class A, Class D-m, Class D-I, Class I,	10%	€STR
	Class I and Class M (USD)	10%	Fed Funds Rate
	Class A, Class I, Class M, Class D-A, Class D-I and Class D-M (GBP)	10%	SONIA
	Class I (JPY)	10%	TONA
	Class A (CHF)	10%	SARON
	Class SI (EUR), Class I (EUR) and Class XI (EUR)	10%	€STR
Lyxor Investment Funds - LYXOR SILVER MULTI ASSET	Class I (EUR)	10%	€STR
Lyxor Investment Funds - GARI European Equity	Class B (EUR), Class N (EUR) and Class SB (EUR)	-	-
Lyxor Investment Funds - Planet Global Equity	Class A (EUR), Class I (EUR)	-	-
Lyxor Investment Funds - Lyxor Euro 6M	Class EB, Class SI, Class I and Class R	15%	€STR

For the Sub-Fund Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION, the Performance Fee of the relevant Class is accrued on each Valuation Day, on the basis of the difference between the Net Asset Value of the relevant Class (before deduction of any provision for the performance fee) and the higher of the Benchmark Value and the High Water Mark. On each Valuation Day, the accounting provision is adjusted to reflect the Class performance, positive or negative. If the Net Asset Value of the relevant Class is lower than the Benchmark Value or the High Water Mark, the provision made is returned to the relevant Class. The accounting provision may never be negative.

For the Sub-Fund Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION, the Performance Fee of the relevant Class is accrued on each Valuation Day, on the basis of the difference between the Net Asset Value of the relevant Class (before deduction of any provision for the performance fee) and the higher of the Benchmark Value and the High Water Mark. On each Valuation Day, the accounting provision is adjusted to reflect the Class performance, positive or negative. If the Net Asset Value of the relevant Class is lower than the Benchmark Value or the High Water Mark, the provision made is returned to the relevant Class. The accounting provision may never be negative.

Notes to the financial statements (continued)

For the Sub-Fund Lyxor Investment Funds - EuroGovies Risk Balanced, the Performance Fee of the relevant Class is accrued on each Valuation Day, on the basis of the difference between the Net Asset Value of the relevant Class (before deduction of any provision for the performance fee) and the higher of the Benchmark Value and the High Water Mark. On each Valuation Day, the accounting provision is adjusted to reflect the Class performance, positive or negative. If the Net Asset Value of the relevant Class is lower than the Benchmark Value or the High Water Mark, the provision made is returned to the relevant Class. The accounting provision may never be negative.

For the Sub-Fund Lyxor Investment Funds - LYXOR SILVER MULTI ASSET, the Performance Fee of the relevant Classes is accrued on each Valuation Day, on the basis of the difference between the Net Asset Value of the relevant Class (before deduction of any provision for the performance fee) and the higher of the Benchmark Value and the High Water Mark. On each Valuation Day, the accounting provision is adjusted to reflect the Class performance, positive or negative. If the Net Asset Value of the relevant Class is lower than the Benchmark Value or the High Water Mark, the provision made is returned to the relevant Class. The accounting provision may never be negative.

For the Sub-Fund Lyxor Investment Funds - GARI European Equity, the Performance Fee of the relevant Classes is accrued on each Valuation Day, on the basis of the Net Asset Value after deduction of all Operating Fee and Management Fee (but not the Performance Fee) and after adjusting for repayments over the period.

For the Sub-Fund Lyxor Investment Funds - Lyxor Euro 6M, a Performance Fee of the relevant Class is accrued on each Valuation Day, on the basis of the difference between the Net Asset Value of the relevant Class (before deduction of any provision for the performance fee) and the Benchmark Value, in accordance with the High Water Mark principle. On each Valuation Day, the accounting provision is adjusted to reflect the Class performance, positive or negative. If the Net Asset Value of the relevant Class is lower than the Benchmark Value, the provision made is returned to the relevant Class. The accounting provision may never be negative.

Following the Guidelines of the European Securities and Market Authority on performance fees (ESMA34-39-992), the impact of performance fees data as at December 31, 2022, are as follows:

Sub-Funds	Share Class	Class Currency	ISIN	Amount of the performance fees crystalized during the accounting year due to redemptions (in Class currency)	Amount of the performance fees realized at the end of the observation period (in Class currency)	Average Total Net Assets (in Class currency)	% of the NAV of the Share Class
LYXOR INVESTMENT FUNDS - Lyxor Flexible Allocation	Class M (EUR)	EUR	LU0539466150	0.33	-	2 322 081.67	-

5 - Administrative fees

For the Sub-Fund Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION, the Depositary and Paying Agent, the Administrative and the Registrar and Transfer Agent are entitled to receive a fee ("the Administrative fees") payable monthly in arrears out of the Sub-Fund assets of up to 0.15% per year (inclusive of VAT) of the Net Asset Value.

For the Sub-Fund Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION, the Depositary and Paying Agent, the Administrative and the Registrar and Transfer Agent are entitled to receive a fee ("the Administrative fees") payable monthly in arrears out of the Sub-Fund assets of up to 0.20% per year (inclusive of VAT) of the Net Asset Value.

For Class AS, the Administrative Fees are included in the Management Company Fee.

For the Sub-Fund Lyxor Investment Funds - EuroGovies Risk Balanced, the Depositary and Paying Agent, the Administrative and the Registrar and Transfer Agent are entitled to receive a fee ("the Administrative fees") payable monthly in arrears out of the Sub-Fund assets of up to 0.20% per year (inclusive of VAT) of the Net Asset Value.

For the Sub-Fund Lyxor Investment Funds - LYXOR SILVER MULTI ASSET, the Depositary and Paying Agent, the Administrative and the Registrar and Transfer Agent are entitled to receive a fee ("the Administrative fees") payable monthly in arrears out of the Sub-Fund assets of up to 0.20% per year (inclusive of VAT) of the Net Asset Value.

Notes to the financial statements (continued)

For the Sub-Fund Lyxor Investment Funds - Lyxor Euro 6M, the Depositary and Paying Agent, the Administrative and the Registrar and Transfer Agent are entitled to receive a fee (the "Administrative Fees") payable monthly in arrears out of the Sub-Fund 'assets of up to 0.20% per year (inclusive of VAT) of the Net Asset Value of the Shares.

Such Administrative fees are paid to the management Company which subsequently pays the Depositary and Paying Agent, the Administrative and the Registrar and Transfer Agent.

6 - Operating fee

For the Sub-Fund Lyxor Investment Funds - GARI European Equity, the Operating Fee may be paid to the Management Company in order to cover fees and expenses of the Depositary, the Paying Agent, the Administrative, Corporate and Domiciliary Agent, legal and audit fees as well as fees of other service providers. The Operating Fee is payable monthly in arrears out of the Sub-Funds' assets of:

- up to 0.30% per year for Class SB, SI, B, I and X Shares (inclusive of VAT) of the Net Asset Value of the Class as applicable.

- up to 0.60% per year for Class G, R and N Shares (inclusive of VAT) of the Net Asset Value of the Class as applicable.

Such Operating Fee may also be paid directly by the Company to the Depositary, the Paying Agent, the Administrative, Corporate and Domiciliary Agent, the Registrar and Transfer Agent, the auditor and other service providers (including legal advisers).

For the Sub-Fund Lyxor Investment Funds - Planet Global Equity, the Depositary, the Paying Agent, the Administrative Agent, the Registrar and Transfer Agent, the legal advisers, the auditor and other service providers will receive a fee (the "Operating Fee") payable monthly in arrears out of the Sub-Fund assets of up to 0.15% per year (inclusive of VAT) of the Net Asset Value of the Sub-Fund as applicable.

Such Operating Fee may be paid to the Management Company which will subsequently pay the Depositary, the Paying Agent, the Administrative Agent, the Registrar and Transfer Agent, the legal advisers, the auditor and other service providers.

7 - Taxation

The following information is based on the laws, regulations, decisions and practice currently in force in Luxembourg and is subject to changes therein, possibly with retrospective effect. This summary does not purport to be a comprehensive description of all Luxembourg tax laws and Luxembourg tax considerations that may be relevant to a decision to invest in, own, hold, or dispose of shares and is not intended as tax advice to any particular investor or potential investor. Prospective investors should consult their own professional advisers as to the implications of buying, holding or disposing of Shares and to the provisions of the laws of the jurisdiction in which they are subject to tax. This summary does not describe any tax consequences arising under the laws of any state, locality or other taxing jurisdiction other than Luxembourg.

Taxation of the Company

The Company is not subject to taxation in Luxembourg on its income, profits or gains.

The Company is not subject to net wealth tax in Luxembourg.

No stamp duty, capital duty or other tax will be payable in Luxembourg upon the issue of the Shares of the Company.

The Company is however subject to a subscription tax (taxe d'abonnement) levied at the rate of 0.05% per annum based on its Net Asset Value at the end of the relevant quarter, calculated and paid quarterly. A reduced subscription tax of 0.01% per annum is applicable to individual compartments of UCIs with multiple compartments referred to in the 2010 Law, as well as for individual classes of securities issued within a UCITS or within a compartment of a UCITS with multiple compartments, provided that the securities of such compartments or classes are reserved to one or more institutional investors.

Subscription tax exemption applies to (i) investments in a Luxembourg UCI subject itself to the subscription tax, (ii) UCI, compartments thereof or dedicated classes reserved to retirement pension schemes, (iii) money market UCIs, and, (iv) UCITS and UCIs subject to the part II of the 2010 Law qualifying as exchange traded funds.

Notes to the financial statements (continued)

Global Risk Exposure (Unaudited Information)

In terms of risk management,

1/ The commitment approach is used in order to determine the global risk for :

- Lyxor Investment Funds - EuroGovies Risk Balanced
- Lyxor Investment Funds - GARI European Equity
- Lyxor Investment Funds - Planet Global equity
- Lyxor Investment Funds - Lyxor Euro 6M

2/ The absolute VaR approach is used in order to determine the global risk for :

- Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION
- Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION
- Lyxor Investment Funds - LYXOR SILVER MULTI ASSET

The lowest, the highest and the average utilisation of the VaR limit calculating during the year from January 1, 2022 to December 31, 2022 are described below :

VaR Model	Historical
Market risk calculation	Absolute VaR
Interval of time	20 days
Limits	- Regulatory Limit: 20% each Sub-fund - Internal limit Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION: 20% - Internal limit Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION: 20% - Internal limit Lyxor Investment Funds - LYXOR SILVER MULTI ASSET: 20%
Scenarios	- Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION: 260 - Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION: 260 - Lyxor Investment Funds - LYXOR SILVER MULTI ASSET: 260
Reliable interval	99%

Overview of VaR (2021)	VaR Utilisation Max (VaR 20 Day)	VaR Utilisation Min (VaR 20 Day)	Average level of leverage (sum of notionals)	Average level of leverage (gross delta)	Average level of leverage (net delta)
Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION	2.00%	1.10%	28.20%	121.50%	115.60%
Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION	5.70%	2.90%	95.10%	192.70%	150.00%
Lyxor Investment Funds - LYXOR SILVER MULTI ASSET	3.60%	1.60%	54.40%	146.90%	131.60%

The level of leverage using the commitment approach is determined in accordance with CSSF circular 11-512 which is further clarified in ESMA Guidelines 10-788.

Remuneration policy (Unaudited Information)

1. Remuneration policy and practices of the AIFM/Management company

The remuneration policy implemented by Amundi Asset Management is compliant with the rules in terms of remuneration specified in the Directive 2011/61/UE of the European Parliament and of the Council of June 8th 2011 on Alternative Investment Fund Managers (the "AIFM Directive"), and in the Directive 2014/91/UE of July 23rd 2014 on undertakings for collective investment in transferable securities (the "UCITS V Directive"). These rules, about remuneration policies and practices, have for objective to promote sound and effective risk management of fund managers and the funds they manage.

Moreover, the remuneration policy is compliant with Regulation (EU) 2019/2088 ("SFDR"), integrating sustainability risk and ESG criteria in Amundi control framework, with responsibilities spread between the first level of controls performed by the Investment teams and second level of controls performed by the Risk teams, that can verify the compliance with ESG objectives and constraints of a fund at all time.

This policy is incorporated within the framework of the remuneration policy of Amundi reviewed each year by its Remuneration Committee. The latter checked the application of the remuneration policy in relation to the 2021 fiscal year, its compliance with the AIFM/UCITS Directives' principles and approved the policy applicable for the 2022 exercise at its meeting held on February 1st 2022.

In 2022, the implementation of the Amundi remuneration policy was subject to an internal, central and independent audit, driven by the Amundi Internal Audit.

1.1 Amounts of remuneration paid by the Management companies to its employees

In 2022, Amundi Asset Management's headcount increased due to the integration of Lyxor's employees.

During fiscal year 2022, the total amount of compensation (including fixed, deferred and non-deferred variable compensation) paid by Amundi Asset Management to its employees (1 673 employees at December 31st 2022) is EUR 202 172 869. This amount is split as follows:

- Total amount of fixed remuneration paid by Amundi Asset Management in 2022:

EUR 134 493 396, which represents 67% of the total amount of compensation paid by Amundi Asset Management to its staff, were in the form of fixed remuneration.

- Total amount of variable compensation deferred and non-deferred paid by Amundi Asset Management in 2022: EUR 67 679 473, which represents 33% of the total amount of compensation paid by Amundi Asset Management to its staff, were in this form. The entire staff is eligible for variable compensation.

Additionally, some 'carried interest' was paid by Amundi AM with respect to fiscal year 2022, and is taken into account in the total amount of bonus referred to here above.

Of the total amount of remuneration (fixed and variable compensation deferred and non-deferred) paid during the fiscal year, EUR 19 393 477 were paid to the 'executives and senior managers' of Amundi Asset Management (31 employees at December 31st 2022), and EUR 16 540 119 were paid to the 'senior investment managers' whose professional activities have a material impact on Amundi Asset Management's risk profile (50 employees at December 31st 2022).

Alignment of remuneration policy and practices with risk profile of the AIFs/UCITS

The Amundi Group has adopted and implemented remuneration policy and practices compliant with the latest norms, rules, and guidelines issued from the regulatory authorities for its management companies (AIFM/UCITS).

The Amundi Group has also identified all of its 'Identified Staff', that include all the employees of the Amundi Group having a decision authority on the UCITS/AIFM management companies or the UCITS/AIFs managed and consequently likely to have a significant impact on the performance or the risk profile.

The variable remuneration awarded to the Amundi Group staff takes into account the performance of the employee, its business unit and the Amundi Group as a whole, and is based on quantitative and qualitative criteria as well as the respect of sound risk management rules.

Remuneration policy (Unaudited Information) (continued)

The criteria taken into account for performance assessment and remuneration award depends on the nature of the employee's functions :

1. Management and selection of AIFs/UCITS functions

Quantitative criteria:

- IR/Sharpe over 1, 3, 5 years
- Gross/absolute/relative performance of the investment strategies (based on GIPS composites) over 1, 3, 5 years, outlook mainly focused on 1 year, adjusted with long-term figures (3,5 years)
- Performance risk adjusted based on IR/Sharpe over 1, 3, 5 years
- Competitive positioning through Morningstar rankings
- Net inflows / Successful requests for proposals, mandates
- Performance fees generation
- ESG rating of the funds according to different providers when applicable (Morningstar, CDP...)
- Respect of ESG beat the benchmark, ESG exclusion policies and climate transition index

Qualitative criteria:

- Compliance with risk policy, compliance and legal rules
- Quality of management
- Innovation/product development
- Collaboration/Sharing of best practices
- Commercial engagement – including the ESG component of commercial effort and flows
- ESG
 - o Compliance with ESG policy and participation to the ESG and net-zero offering
 - o Integration of ESG into investment processes
 - o Capacity to promote and project ESG knowledge internally and externally
 - o Extent of proposition and innovation in the ESG space
 - o Demonstrates capacity to manage well the combination of risk return and ESG (the risk and ESG adjusted return)

2. Sales and marketing functions

Quantitative criteria:

- Net inflows, notably on ESG and impact denominated products
- Revenues
- Gross Inflows
- Client base development and retention; product mix
- Number of commercial activities per year, notably prospection activities
- Number of clients approached on their net zero strategy

Qualitative criteria:

- Compliance with risk policy, compliance and legal rules
- Joint consideration of Amundi's interests and of client's interests
- Securing/developing the business
- Client satisfaction
- Quality of management
- Cross-functional approach and sharing of best practices
- Entrepreneurial spirit
- Capacity to explain and promote ESG policies and capabilities as well as solutions of the firm

Remuneration policy (Unaudited Information) (continued)

3. Control and support functions

For control and support functions, performance assessment and remuneration award are independent from the performance of the business they oversee.

Common criteria taken into account are:

- Mainly criteria related to the meeting of objectives linked to their functions (risk management, quality of controls, completion of projects, tools and systems improvement etc.)
- When financial criteria are used, these are mainly related to management/ optimization of expenses.

The above-mentioned performance criteria, and specifically those applicable to Identified staff in charge of the management of AIFs/UCITS, comply with the applicable regulation as well as to the AIF's/UCITS investment policy. These internal rules of Amundi Group contribute to a sound and effective risk management.

Furthermore, Amundi Group has adopted and implemented, for its entire staff, measures aiming to align remuneration with long-term performance and risks in order to avoid conflicts of interest.

In this respect, notably:

- The deferral policy has been adapted to comply with the AIFM and UCITS V Directives' requirements.
- The deferred portion of variable compensation for identified staff members is awarded at 100% in instruments indexed on the performance of a representative basket of AIFs and/or UCITS funds.
- The actual payment of the deferred portion is linked to the financial situation of Amundi Group, to the continued employment within the group and to a sound and effective risk management over the vesting period.

SFT Regulation (Unaudited Information)

Total return swaps*

Following the Regulation 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions, please find below details about total return swaps for the year ended December 31, 2022:

	Lyxor Investment Funds - LYXOR CONSERVATIVE ALLOCATION	Lyxor Investment Funds - LYXOR FLEXIBLE ALLOCATION	Lyxor Investment Funds - LYXOR SILVER MULTI ASSET

* The Index Equity Swap is considering as Total Return Swaps
Returns and costs incurred from total return swap transactions during the year ended December 31, 2022, are included in the valuation of the swaps.
All transactions are bilateral transactions.
The collateral on total return swaps is not reused.

Transparency of sustainable investments in periodic reports (Unaudited Information)

Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "Taxonomy Regulation") sets out criteria to determine which economic activities qualify as environmentally sustainable at Union level.

According to the Taxonomy Regulation, an economic activity shall qualify as environmentally sustainable where that economic activity contributes substantially to one or more of the six environmental objectives defined by the Taxonomy Regulation (Climate change mitigation; Climate change adaptation; Sustainable use and protection of water and marine resources; Transition to a circular economy; Pollution prevention and control; Protection and restoration of biodiversity and ecosystems).

In addition, such economic activity shall not significantly harm any such environmental objectives ("do no significant harm" or "DNSH" principle) and shall be carried out in compliance with the minimum safeguards laid down in Article 18 of the Taxonomy Regulation.

In accordance with Article 7 of the Taxonomy Regulation, the management company draws the attention of investors to the fact that the investments of the below Sub-Funds do not take into account the European Union criteria for environmentally sustainable economic activities.

These Sub-Funds fall under Article 6 of regulation (EU) 2019/2088 ("SFDR"). It does not promote environmental and/or social characteristics, nor it has sustainable investment as its objective.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Lyxor Euro 6M

Legal entity identifier:
549300X3WLGS8HUX7N91

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

 No

<p><input type="checkbox"/> It made sustainable investments with an environmental objective: _____</p> <p style="margin-left: 40px;"><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p style="margin-left: 40px;"><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It made a sustainable investments with a social objective: _____</p>	<p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of _____ of sustainable investments</p> <p style="margin-left: 40px;"><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p style="margin-left: 40px;"><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p style="margin-left: 40px;"><input type="checkbox"/> with a social objective</p> <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>
--	--

To what extent were the environmental and/or social characteristics promoted by this financial product met?

uring the financial year, the product continuously promoted environmental and/or social characteristics by aiming to have a higher ESG score than the ESG score of its investment universe **ICE BOFA 1-3 YEAR GLOBAL CORPORATE INDEX**. In determining the ESG score of the Product and the ESG investment universe, ESG performance was continuously assessed by comparing the average performance of a security against the security issuer’s industry, in respect of each of the three environmental, social and governance characteristics.

The investment universe is a broad market universe that does not evaluate or include components based on environmental and/or social characteristics and is therefore not intended to be consistent with the characteristics promoted by the fund. No ESG benchmark has been designated.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***How did the sustainability indicators perform?***

Amundi has developed its own in-house ESG rating process based on the “Best-in-class” approach. Ratings adapted to each sector of activity aim to assess the dynamics in which companies operate.

The sustainability indicator used is the ESG score of the Product that is measured against the ESG score of the ESG investment universe of the Product.

At the end of the period:

- The weighted average ESG rating of the portfolio is **0.653 (C)**.
- The weighted average ESG rating of the ESG investment universe is **0.048 (D+)**.

The Amundi ESG rating used to determine the ESG score is an ESG quantitative score translated into seven grades, ranging from A (the best scores universe) to G (the worst). In the Amundi ESG Rating scale, the securities belonging to the exclusion list correspond to a G. For corporate issuers, ESG performance is assessed globally and at relevant criteria level by comparison with the average performance of its industry, through the combination of the three ESG dimensions:

- Environmental dimension: this examines issuers’ ability to control their direct and indirect environmental impact, by limiting their energy consumption, reducing their greenhouse emissions, fighting resource depletion and protecting biodiversity.
- Social dimension: this measures how an issuer operates on two distinct concepts: the issuer’s strategy to develop its human capital and the respect of the human rights in general;
- Governance dimension: This assesses capability of the issuer to ensure the basis for an effective corporate governance framework and generate value over the long-term.

The methodology applied by Amundi ESG rating uses 38 criteria that are either generic (common to all companies regardless of their activity) or sector specific which are weighted according to sector and considered in terms of their impact on reputation, operational efficiency and regulations in respect of an issuer. Amundi ESG ratings are likely to be expressed globally on the three E, S and G dimensions or individually on any environmental or social factor.

● ***... and compared to previous periods?***

The above sustainability indicators were not compared to previous periods as the regulation was not yet in force

● ***What were the objectives of the sustainable investments that the financial product partially intends to make and how did the sustainable investment contribute to such objectives?***

This product did not commit to make sustainable investments during the period.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

This product did not commit to make sustainable investments during the period.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-

corruption and anti-bribery matters.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**
This product did not commit to make sustainable investments during the period.
- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**
This product did not commit to make sustainable investments during the period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The product considers all the mandatory Principal Adverse Impacts as per Annex 1, Table 1 of the Delegated Regulation (EU) 2022/1288 applying to the product’s strategy and relies on a combination of exclusion policies (normative and sectorial), engagement and voting approaches:

- Exclusion : Amundi has defined normative, activity-based and sector-based exclusion rules covering some of the key adverse sustainability indicators listed by the Disclosure Regulation.
- ESG factors integration : Amundi has adopted minimum ESG integration standards applied by default to its actively managed open-ended funds (exclusion of G rated issuers and better weighted average ESG score higher than the applicable benchmark). The 38 criteria used in Amundi ESG rating approach were also designed to consider key impacts on sustainability factors, as well as quality of the mitigation undertaken are also considered in that respect.
- Engagement : Engagement is a continuous and purpose driven process aimed at influencing the activities or behaviour of investee companies. The aim of engagement activities can fall into two categories: to engage an issuer to improve the way it integrates the environmental and social dimension, to engage an issuer to improve its impact on environmental, social, and human rights-related or other sustainability matters that are material to society and the global economy.
- Vote : Amundi's voting policy responds to a holistic analysis of all the long-term issues that may influence value creation, including material ESG issues. For more information, please refer to Amundi's Voting Policy .
- Controversies monitoring : Amundi has developed a controversy tracking system that relies on three external data providers to systematically track controversies and their level of severity. This quantitative approach is then enriched with an in-depth assessment of

each severe controversy, led by ESG analysts and the periodic review of its evolution. This approach applies to all of Amundi's funds.

For any further detail on how mandatory Principal Adverse Impact indicators are taken into account, please refer to the Amundi Sustainable Finance Disclosure Statement available at www.amundi.com.

What were the top investments of this financial product?

Largest Investments	Sector	% Assets	Country
AMUNDI EURO LIQUIDITY SRI - Z (C)	Mutual Funds	5,90%	FRA
SGLT 0% 10/02/23	Treasuries	2,68%	ESP

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 01/01/2022 to 31/12/2022

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made ?***

Sector	% Assets
<i>Banking</i>	23,30%
<i>Consumer Discretionary</i>	18,31%
<i>Mutual Funds</i>	9,92%
<i>Electric</i>	9,20%
<i>Capital Goods</i>	6,02%
<i>Consumer Staples</i>	5,62%
<i>Treasuries</i>	4,46%

<i>Energy</i>	3,53%
<i>Transportation</i>	2,69%
<i>Technology</i>	2,12%
<i>Communications</i>	1,84%
<i>Basic Industry</i>	1,82%
<i>Insurance</i>	1,41%
<i>Other Financials</i>	0,94%
<i>Other Utilities</i>	0,87%
<i>Real Estate Investment Trust (REIT)</i>	0,35%
<i>Natural Gas</i>	0,33%

Taxonomy-aligned activities are expressed as a share of:
-turnover reflecting the share of revenue from green activities of investee companies
-capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy ?

Reliable data regarding the EU Taxonomy (including fossil gas and nuclear energy related activities) was not available during the period.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹ ?**

Yes:
 In fossil gas In nuclear energy
 No

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign first graph shows the Taxonomy alignment in relation to all the investments of the financial product sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Data not yet available

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments in transitional and enabling activities ?**

Reliable data regarding transitional and enabling activities was not available during the period.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods ?**

In previous periods the regulation was not yet in force.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy ?

The share of sustainable investments with environmental objective not aligned to taxonomy was **39,15%** at the end of the period.

This is due to the fact that some issuers are considered sustainable investments under the SFDR Regulation but do have a portion of activities that are not aligned with EU taxonomy standards, or for which data is not yet available to perform an EU taxonomy assessment.

What was the share of socially sustainable investments ?

This product did not commit to have social sustainable investments over the period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards ?

“#2 Other” includes cash and other instruments held for the purpose of liquidity and portfolio risk management. It may also include ESG unrated securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period ?

Sustainability indicators are continuously made available in the portfolio management system allowing the portfolio managers to assess the impact of their investment decisions.

These indicators are embedded within AMUNDI’s control framework, with responsibilities spread between the first level of controls performed by the Investment teams themselves and the second level of controls performed by the Risk teams, who monitor compliance with environmental or social characteristics promoted by the fund on an ongoing basis.

Moreover, AMUNDI’s Responsible Investment Policy sets out an active approach to engagement that promotes dialogue with investee companies including those in the portfolio of this product. Our Annual Engagement Report, available on <https://about.amundi.com/esg-documentation>, provides detailed reporting on this engagement and its results

How did this financial product perform compared to the reference benchmark ?

This product does not have an ESG Benchmark.

- ***How does the reference benchmark differ from a broad market index ?***

This product does not have an ESG Benchmark
