DWS Invest CROCI Japan, a sub-fund of the SICAV DWS Invest

Share class LCH Security code: DWS2VM ISIN: LU1769942233

Management Company: DWS Investment S.A., a member of the DWS Group.

Objectives and investment policy

The Objective of the investment policy is to achieve long term capital appreciation. In order to achieve this, the fund invests in large cap Japanese equities according to the CROCI methodology and the CROCI Japan investment strategy which selects the thirty shares with the lowest positive CROCI Economic Price Earnings Ratio ("CROCI Economic P/E") from a universe comprising approximately 100 of the largest Japanese equities by market capitalisation and for which CROCI Economic P/Es are calculated. Companies in the Financial and Real Estate sectors are not eligible for selection. Stocks with low liquidity may be excluded from selection. The fund's assets are periodically reconstituted in accordance with the investment strategy's rules (re-selecting the approximately thirty shares that the fund will invest in) with the intention that each constituent share is equally weighted. In order to minimise impacts on performance when trading the fund's assets, the fund manager may take necessary steps to reduce the costs related to trading and market impact, including effecting the re-composition in stages over a period of time. In this context, the selection of individual investments is primarily determined by the investment strategy. CROCI is a registered trademark of DWS. CROCI Group is not responsible for the management of the fund or for any error or omission in the Strategy. The Strategy is licensed by the CROCI Group without any representations or warranties of any kind. The fund is oriented to the benchmark. It does not track it exactly but attempts to exceed its performance and can therefore deviate substantially - both positively and negatively - from the benchmark. The currency of the sub-fund is JPY, the currency of the share class is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares on each valuation day. The redemption may only be suspended in exceptional cases taking into account your interests as an investor.

Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund. These risks can impair the performance of the fund and thus impact negatively on the net asset value per unit and on the capital invested by the investor. The unit value may at any time fall below the purchase price paid by the client.

The fund reallocates investments between various asset classes depending on the market. Depending on the market phase and the reallocation of the fund's assets, it is therefore possible that the risk of the fund may vary. The risk/return profile can therefore fluctuate considerably within a short period of time. The fund invests in equities. Equities are subject to strong price fluctuations and thus also to the risk of price decreases. A more detailed description of risks and other general information can be found under "Risk warnings" in the sales prospectus.

Charges

The costs and fees borne by you are used for the management, administration and custody of the fund, as well as for its distribution and marketing. These costs restrict the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	2,00 %. This is the maximum amount that will be deducted from your investment prior to investment. This initial sales charge applies for the calculation according to the gross method; further information on the initial sales charge calculated according to the net method can be found in the "Special section" of the sales prospectus.
Exit charge	No redemption fee
Charges taken from the fund over a year	
Ongoing charge	1,45 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

The front-end load specified here is a maximum amount. It may be lower in individual cases. To find out the amount that is currently applicable for you, please request it from the office responsible for you or from your financial advisor. The current costs shown here are a cost estimate. The current costs do not include the performance-based fee and the transaction

costs. Additional information on costs can be found under "Costs" in the sales prospectus. Shares may in many cases be exchanged for shares in another asset class of the same or another DWS Invest SICAV sub-fund subject to various conditions. Details can be found in the "Exchange of shares" section of the sales prospectus.

Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the LCH share class of DWS Invest CROCI Japan were deducted during the calculation. Initial sales charges and redemption fees were not taken into account. The LCH share class of DWS Invest CROCI Japan was launched in 2018. The performance was calculated in EUR.

PLEASE NOTE: The performance shown up to and including 2018 is not that of the Fund, but that of DB Platinum IV CROCI Japan, which merged into the Fund on 30.08.2018. There will be no change to the investment process as the portfolio manager will apply the same asset allocation strategy as described in the sales prospectus.
