

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so that you can make an informed decision about whether to invest.

**PGIM European Corporate ESG Bond Fund (the “Fund”)
a Sub-Fund of PGIM Funds plc (the “Company”)
EUR I Accumulation Class (IE00BD0YSM05) (the “Class”)**

Objectives and Investment Policy

The objective of the Fund is to seek total return through a combination of current income and capital appreciation consistent with prudent risk management, while applying environmental, social and governance (“ESG”) principles in the selection of securities. There is no assurance that such objective will be achieved.

The Fund will primarily invest in fixed income securities listed or traded on regulated markets globally. The Fund may also invest in debt issued by any sovereign, agency, government sponsored entity, supra-national or corporate issuer, warrants, asset-backed securities, commercial mortgage backed securities, capital securities and money market or short term bond funds.

The Fund refers to the Bloomberg Euro Aggregate Corporate Index as its benchmark (the “Benchmark”). The Benchmark tracks the performance of the investment grade, euro-denominated, fixed-rate corporate bond market with at least one year until final maturity (regardless of optionality). Inclusion in the Benchmark is based on currency denomination of a bond and not country of risk of the issuer.

Fund investments, including investments in collective investment schemes, will be subject to VAG investment restrictions, which require securities to be rated at least B- (Standard & Poor’s and Fitch) or B3 (Moody’s) or the equivalent by another rating agency or, if unrated, as determined by the Investment Manager to be of comparable quality. Assets which have been downgraded below their respective minimum rating, must not, in aggregate, exceed 3% of Fund assets. If the downgraded assets in aggregate exceed 3% of Fund assets they must be sold within six months from the day on which the exceeding of the 3% threshold took place, but only to the extent such assets exceed 3% of Fund assets. The Investment Manager will look through to underlying securities held by any collective investment scheme in which the Fund invests to ensure there is no violation of these VAG investment restrictions.

The Fund may also use, for investment or hedging purposes, exchange traded and over-the-counter derivatives, including, futures and options, credit default swaps, credit default swap indices, forward foreign currency contracts, interest

rate swaps and currency swaps, the underlying reference assets for which will be bonds in which the Fund may invest directly (as set out herein), and interest rates, currencies and indices. The Fund may also engage in efficient portfolio management techniques as set out in the Supplement.

The Fund may not be leveraged in excess of 100% of its net asset value, through the use of derivatives.

While the Fund is actively managed, investors should note that the Benchmark will be used for risk management purposes and performance comparison purposes. The Benchmark is not a reference benchmark for the purpose of attaining the sustainability characteristics promoted by the Fund.

The investment manager has determined that the Fund promotes sustainability characteristics due to its use of its internal evaluation process, which analyses securities based on ESG criteria established by PGIM Fixed Income’s ESG committee (“the ESG Committee”). The Fund seeks to avoid investing in issuers that engage in activities that are not in compliance with certain socially-responsible investment criteria set forth by the ESG Committee. Although the Fund promotes sustainability characteristics, the Fund does not have sustainable investment as its investment objective.

It is not currently anticipated that dividends will be declared in respect of the Class. Net investment income attributable to the Class is expected to be retained by the Fund, which will increase the net asset value per share of the Class.

Portfolio transaction costs, which are paid by the Fund in addition to the costs set out under “Charges” below, may have a material impact on the performance of the Fund.

Investors can buy and sell their shares on each business day of the Fund.

The Fund may not be appropriate for investors who plan to sell their shares within the short term.

The shares are denominated in Euro. The base currency of the Fund is the Euro.

Risk and Reward Profile

The Fund’s risk category of 4 has been calculated using simulated historical data which may not be a reliable indicator of the Fund’s future risk profile.

The risk rating of the Fund is calculated using a standard methodology used by all UCITS funds, and shows where the Fund ranks in terms of its relative risk and potential return based on past share price fluctuation. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean “risk free”.

Below are certain risks that you should be aware of that may result in a loss or reduction in the value of your investments. These risks are not exhaustive. Potential investors should consult the prospectus and their professional advisers before investing in the Fund.

Custodial Risk: Assets which are traded in markets where custodial and/or settlement systems are not fully developed, may be exposed to risk in

circumstances where the custodian will have no liability.

Political Risk: The value of the Fund’s investments may be affected by uncertainties such as international policy developments, social instability and changes in government policies. This can result in more pronounced risks where conditions have a particular impact on one or more countries or regions.

Liquidity Risk: Liquidity risk is the risk that the Fund may not meet requests to redeem shares issued by the Fund without significant dilution of remaining investors’ interests in the Fund. The Fund may invest in instruments that trade in lower volumes and are less liquid than other investments. If the Fund is forced to sell these investments to pay redemption proceeds or for other reasons, the Fund may lose money.

Counterparty Risk: Risk of material investment exposure through contracts with a third party.

Credit Risk: The value of debt securities may be adversely impacted by the erosion in the ability of the issuer to pay the amounts of interest and principal owed as they become due.

Socially Responsible Investment Risk: The Fund may achieve lower returns than an equivalent fund which does not pursue a socially responsible mandate.

Charges

The charges you pay are used to pay the costs of the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The One-off charges taken before or after you invest:	
Entry charge	None
Exit charge	None
This is the maximum amount that might be taken out of your money before it is invested or before the proceeds are paid out.	
Charges taken from the Fund over a year:	
Ongoing charge	0.42%
Charges taken from the Fund under certain specific conditions:	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find out from your financial adviser.

The ongoing charges are based on the expenses as of December 2021. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry / exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section headed Fees and Expenses of the Fund's prospectus and supplement, which is available from the applicable distributor.

Swing pricing may be applied on a subscription or redemption of shares to reflect the costs of dealing in the Fund's assets.

Past Performance

- Past performance is not a reliable indicator of future results.
- The Fund's investment policy changed on 30 September 2021 and performance data quoted reflects past performance which was achieved under circumstances that no longer apply.
- The past performance takes account of all charges and costs, except for any entry or exit charges.
- The value of this Class is calculated in Euro.
- The Fund was launched on 30 November 2018. The Fund was repositioned on 30 September 2021. The Class was launched on 30 November 2018.
