M&G (Lux) Sustainable Allocation Fund

a sub-fund of M&G (Lux) Investment Funds 1

EUR Class C – Distribution shares ISIN no. LU1900800217

Managed by M&G Luxembourg S.A.

Objective and investment policy

The fund has two aims:

- Financial objective: provide a total return (capital growth plus income) of 4 to 8% per year over any five-year period; and
- Sustainable objective: contribute to a sustainable economy by investing in assets supporting environmental and/or social goals, in particular climate change mitigation.

Core investment: the fund typically invests in a mix of assets from anywhere in the world, including emerging markets, as follows: 20-80% in bonds; 20-60% in equities; and 0-20% in other assets. No less than 20%, and typically between 20-50% of the fund is invested in assets that have a positive impact on society by addressing some of the world's social and environmental challenges. The fund invests directly, via derivatives or through other funds. A minimum of 70% of the fund is typically invested in assets denominated in euro or in other currencies hedged back to euro. The Fund invests in securities that meet the ESG Criteria, applying an Exclusionary Approach and Positive ESG Outcome, in addition to its sustainable investment strategy used in pursuit of the sustainable investment objective, as described in the precontractual annex.

Other investments: other funds (including funds managed by M&G) and cash or assets that can be turned into cash quickly.

Derivatives: for investment purposes and to reduce risk and cost.

Strategy in brief:

- Investment approach: the approach is through flexible asset allocation, applying a sustainable investment strategy as described in the precontractual annex.
- Investment manager's ESG classification: Planet+ / Sustainable, as defined in the fund's prospectus.

Benchmark: the fund is actively managed and it has no benchmark. Investors can assess the performance of the fund by its financial objective.

The following information can be found on the M&G website:

- An Annual Report to assess the fund's non-financial objective, when available.

Other information

You can buy and sell shares in the fund on any business day. Instructions received before 13:00 Luxembourg time will be dealt at that day's price.

Any income from the fund may be paid out to you quarterly.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund. These can be higher when investing outside Europe.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

■ The above risk and reward indicator is based on simulated historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 5 because its simulated Net Asset Value has shown medium to high rises and falls in value historically.

■ The risk number shown is not guaranteed and may change over time.

■ The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

■ The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.

■ Investments in bonds are affected by interest rates, inflation and credit ratings. It is possible that bond issuers will not pay interest or return the capital. All of these events can reduce the value of bonds held by the fund.

■ The fund is exposed to different currencies. Derivatives are used to minimise, but may not always eliminate, the impact of movements in currency exchange rates.

■ Investing in emerging markets involves a greater risk of loss due to greater political, tax, economic, foreign exchange, liquidity and regulatory risks, among other factors. There may be difficulties in buying, selling, safekeeping or valuing investments in such countries.

■ The fund may use derivatives to profit from an expected rise or fall in the value of an asset. Should the asset's value vary in an unexpected way, the fund will incur a loss. The fund's use of derivatives may be extensive and exceed the value of its assets (leverage). This has the effect of magnifying the size of losses and gains, resulting in greater fluctuations in the value of the fund.

■ In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.

■ The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.

■ Operational risks arising from errors in transactions, valuation, accounting, and financial reporting, among other things, may also affect the value of your investments.

■ ESG information from third-party data providers may be incomplete, inaccurate or unavailable. There is a risk that the investment manager may incorrectly assess a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the portfolio of the fund.

Further details of the risks that apply to the fund can be found in the fund's Prospectus at www.mandg.co.uk/literature

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest | |
|---|-------|
| Entry charge | 1.25% |
| Exit charge | 0.00% |
| This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. | |
| Charges taken from the fund over a year | |
| Ongoing charge | 0.91% |
| Charges taken from the fund under certain specific conditions | |
| Performance fee | None |

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The ongoing charge is based on expenses for the period/year ending 30 September 2022. This figure may change from year to year. It excludes portfolio transaction costs. This figure includes extraordinary expenses and underlying charges for closed-ended-funds, such as investment trusts and Real Estate investment trusts.

For Distribution shares, the ongoing charge is taken from investments held in the fund's portfolio and not from the income these investments produce. The deduction of this charge will reduce the potential growth of your investment.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.co.uk/literature
