

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Vescore Artificial Intelligence Multi Asset

ISIN	LU1879231311	a sub-fund of Vontobel Fund
Share Class	A	This fund is managed by Vontobel Asset Management S.A., which is part of Vontobel Group.
Currency	EUR	This fund is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Objectives and investment policy

This actively managed sub-fund aims to achieve long-term capital growth, regardless of how the market or the asset class perform.

- The sub-fund invests in particular in the following asset classes by employing strategies based on quantitative methods and models as well as on artificial intelligence: Equity markets, fixed-income asset class (incl. up to 20% of its assets in asset- or mortgage-backed securities), money markets, currencies, volatility and the alternative asset class, in particular commodities. The sub-fund is permitted to have no exposure to one or another asset class at any time. The sub-fund may invest up to 10% of its assets in other investment funds.
- The above investments can also be made indirectly via derivative instruments or permitted investment funds. All such investments in the alternative asset class are only made indirectly via investment

funds, derivatives and structured products. Currencies and volatility may only be traded via derivatives. In adverse market conditions the sub-fund may invest up to 100% of its assets in cash.

- The sub-fund may use derivatives, including total return swaps and credit derivatives, to achieve the investment objective and for hedging purposes.
- The sub-fund is not managed with reference to a benchmark. The portfolio manager has full investment discretion within the predefined investment limits.
- Income may be paid out each year.
- Buying and selling securities entails transaction costs payable in addition to the charges listed.
- Redemption of shares: daily when banks in Luxembourg are open for normal business (see prospectus for details and exceptions).

Risk and reward profile

The indicator above does not signal the risk of a potential loss, but indicates the fluctuations in the sub-fund's share price in the past.

- The share class is assigned to this category because its share price can fluctuate sharply due to the investment policy applied.
- The historical data used to calculate the profile cannot be used as a reliable guide to the future risk profile of the sub-fund.
- The risk category shown is not guaranteed and may change.
- Even the lowest risk category is not entirely free of risk.

When assigning a sub-fund's share class to a risk category, it may be the case that not all risks are taken into account. Such risks include risks in connection with exceptional market events, operational errors,

legal and political events. You can find a detailed list of the risks in the "Notice regarding special risks" section in the general part of the sales prospectus. The following risks have no direct influence on this category, but may still be important:

- Securities with a lower credit quality means a higher risk that an issuer may fail to meet its obligations. The investment value may fall if an issuer's credit rating is downgraded.
- Using derivatives creates significant leverage and entails valuation risks and operational risks. Leverage magnifies gains but also losses. Over-the-counter derivatives involve corresponding counterparty risks.
- Asset-backed and mortgage-backed securities, and their underlying receivables are often non-transparent. The sub-fund may also be subject to a higher credit and/or prepayment risk.
- A company's stock price may be adversely affected by changes in the company, its industry or economic environment and prices can change quickly. Equities typically involve higher risks than bonds and money market instruments.

## Charges

The charges you pay are used to pay the costs of running the fund, including the costs for managing, marketing and distributing it. These charges reduce the return on your investment.

### ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST

<b>Entry charge</b>	5.00%
<b>Exit charge</b>	0.30%
<b>Conversion fee</b>	1.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

### CHARGES TAKEN FROM THE FUND OVER A YEAR

<b>Ongoing charges</b>	1.22%
------------------------	-------

### CHARGES TAKEN FROM THE FUND UNDER CERTAIN SPECIFIC CONDITIONS

#### Performance fee

not charged

## Past performance

The chart shows past performance based on full calendar years. One-off charges are not included when calculating performance.

- Past performance is not an indicator of current or future returns.
- The stated performance of the share class includes ongoing charges, but excludes one-off charges.
- Shares were first issued for this share class in 2018.
- Past performance of the fund is shown in the currency of the share class (EUR).
