General information on the Fund

MULTI UNITS LUXEMBOURG (the “Fund”) has been incorporated on March 29, 2006 under Luxembourg laws as a *Société d’Investissement à Capital Variable* (“SICAV”) for an unlimited period of time. The Fund is governed by the provisions of Part I of the amended Luxembourg Law of December 17, 2010 relating to Undertakings for Collective Investment.

The Articles of Incorporation were deposited with the Register of Commerce and Companies of Luxembourg and have been published in the *Mémorial C, Recueil des Sociétés et Associations* (the “Mémorial”) on April 14, 2006. The Articles of Incorporation have been amended for the last time on January 28, 2014 and were published in the Mémorial on April 4, 2014.

The Fund is registered with the Register of Commerce and Companies of Luxembourg under number B 115.129.

The Fund aims to provide investors with professionally managed Sub-Funds investing in a wide range of transferable securities and money market instruments in order to achieve an optimum return from capital invested while reducing investment risk through diversification.

In addition, the Fund aims to provide investors with professionally managed index Sub-Funds whose objective is to replicate the composition of a certain financial index recognised by the Luxembourg supervisory authority.

As at December 31, 2021, 98 Sub-Funds are available to investors:

Information to the Shareholders

The Annual General Meeting of the Shareholders is held at the registered office of the Fund in Luxembourg each year on the first Friday of April at 10 a.m. (Luxembourg time) or, if any such day is not a business day, on the next following business day.

Notices of all general meetings are sent by mail to all registered Shareholders at their registered address at least 8 days prior to such meeting. Such notice will indicate the time and place of such meeting and the conditions of admission thereto, will contain the agenda and will refer to the requirements of Luxembourg law with regard to the necessary quorum and majority at such meeting.

Audited annual reports and unaudited semi-annual reports are made available for public inspection at each of the registered offices of the Fund and the Administrative Agent within four, respectively two months following the relevant accounting period, and the latest Annual Report shall be available at least fifteen days before the annual general meeting.

The financial period of the Fund ends on December 31 of each year.

The list of changes in the portfolio for the year ended December 31, 2021 is available, free of charge, at the registered office of the Fund.

Audit report

To the Shareholders of
Multi Units Luxembourg

Report on the audit of the financial statements

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Multi Units Luxembourg (the “Fund”) and of each of its sub-funds as at 31 December 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 December 2021;
 - the combined statement of operations and changes in net assets for the Fund and the statement of operations and changes in net assets for each of the sub-funds for the year then ended;
 - the schedule of investments as at 31 December 2021; and
 - the notes to the financial statements, which include a summary of significant accounting policies.
-

Basis for opinion

We conducted our audit in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the EU Regulation No 537/2014, the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

To the best of our knowledge and belief, we declare that we have not provided non-audit services that are prohibited under Article 5(1) of the EU Regulation No 537/2014.

The non-audit services that we have provided to the Fund, for the year ended, are disclosed herebelow:

- Review of interim financial information

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p><i>Valuation of OTC derivatives instruments</i></p> <p>The valuation of such investments is considered to be a Key Audit Matter due to the potential magnitude of material misstatement / Refer to Note 6 of the financial statements for the valuation policy for such instruments.</p>	<p>We gained an understanding of the internal control structure and operating effectiveness of key controls surrounding valuation of OTC derivative instruments through observations, inquiries, and tests of all intervening parties in the valuation process. In addition, we gained an understanding of internal controls implemented by the Management Company including key controls over the fair value process.</p> <p>As of 31 December 2021, a number of the Fund's sub funds (refer to Note 6 of financial statements) invested in OTC derivative instruments. Such instruments are composed by total return swaps.</p> <p>For OTC derivatives such as total return swaps, we independently determined a range of acceptable values, through the use of internally developed models using recognised methodologies, taking into account the key terms of the contracts and observable market data.</p> <p>In addition, for all OTC derivatives, we compared the value of such derivatives to the counter-valuation performed by the Fund's Management Company.</p>
<p><i>Existence of OTC derivatives instruments</i></p> <p>The existence of such assets is considered to be a Key Audit Matter due to the potential magnitude of material misstatement combined with the higher inherent risk for assets that cannot be held by the Depository Bank.</p>	<p>We gained an understanding of the internal control structure and operating effectiveness of key controls surrounding authorisation, completeness and accuracy of OTC Derivative transactions and the reconciliation process in place for these instruments.</p> <p>We obtained from the Depository Bank, the confirmation of the ownership by the Fund of all OTC derivatives instruments. We agreed all positions as per Depository Bank confirmation to the Fund's accounting records.</p>

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Emphasis of Matter

We draw attention to the note 14 – Subsequent events to these financial statements, which indicates that consequently to the current conflict between Ukraine of Russia and the closure of the Moscow stock exchange, the NAV of the Lyxor MSCI Russia UCITS ETF compartment has been suspended on 04/03/2022. Our opinion is not modified in respect of this matter.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d'entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our audit report unless law or regulation precludes public disclosure about the matter.

Report on other legal and regulatory requirements

We have been appointed as “Réviseur d’entreprises agréé” of the Fund by the General Meeting of the Shareholders on 27 May 2020 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is 16 years.

PricewaterhouseCoopers, Société coopérative
Represented by

Luxembourg, 14 April 2022

On June 08, 2021:

- LYXOR - Lyxor iBoxx € Liquid Sovereigns Diversified Overall UCITS ETF merged into MULTI UNITS LUXEMBOURG - Lyxor Core Euro Government Bond (DR) UCITS ETF.

Within each Sub-Fund, the Fund may create different Classes of Shares which are entitled to regular dividend payments ("Distribution Shares") or with earnings reinvested ("Capitalisation Shares"), or which differ also by the targeted investors, their reference currencies, their currency hedging policy, by the management fees or the subscription/redemption fees.

Capitalisation and distribution shares have been issued during the year ended December 31, 2021.

The amounts invested in the several Classes of Shares of one Sub-Fund are themselves invested in a common underlying portfolio of investments within the Sub-Fund, although the Net Asset Value per share of each Class of Shares may differ as a result of either the distribution policy, and/or the management fees and/or the subscription and redemption fees for each Class.

Société Générale S.A. ("SG") was the parent company of the Lyxor group until 31 December 2021. In June 2021, SG and Amundi Asset Management ("Amundi") entered into an agreement regarding the sale of all SG's ownership interests in Lyxor Asset Management S.A.S., Lyxor International Asset Management S.A.S. and consequently the indirect subsidiaries and branches of Lyxor (the "Transaction"). The Transaction was closed on December 31, 2021 (the "Closing Date"). After the Closing Date, there is no change for the funds managed by Lyxor entities (the "Funds") resulting from the Transaction.

Notes to the financial statements (continued)

2 - Significant accounting policies

2.1 Presentation of financial statements

The financial statements are prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investment.

2.2 Valuation of investment in securities

2.2.1 Securities listed on a recognised stock exchange or dealt in on any other regulated market that operates regularly, is recognised and is open to the public, are valued at their last available closing prices, or, in the event that there should be several such markets, on the basis of their last available closing prices on the main market for the relevant security.

2.2.2 In the event that the last available closing price does not, in the opinion of the Board of Directors, truly reflect the fair market value of such securities, the value is defined by the Board of Directors based on the reasonably foreseeable sales proceeds determined prudently and in good faith.

2.2.3 Securities not listed or traded on a stock exchange or not dealt in on another regulated market are valued on the basis of the probable sales proceeds determined prudently and in good faith by the Board of Directors.

2.2.4 Securities not listed or traded on a stock exchange or not dealt in on another regulated market are valued at their face value with interest accrued.

2.2.5 In case of short term instruments which have a maturity of less than 90 days, the value of the instrument based on the net acquisition cost, is gradually adjusted to the repurchase price thereof. In the event of the material changes in market conditions, the valuation basis of the investment is adjusted to the new market yields.

2.2.6 Investments in open-ended UCIs are valued on the basis of the last available net asset value of the units or shares of such UCIs.

2.2.7 All other securities and other assets are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.

2.3 Valuation of Futures

The value of financial derivative instruments traded on exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these financial derivative instruments on exchanges and Regulated Markets on which the particular financial derivative instruments are traded by the Fund; provided that if financial derivative instruments could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the value of such financial derivative instruments shall be such value as the Directors may deem fair and reasonable. The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market will be valued in a reliable and verifiable manner on a daily basis and verified by a competent professional appointed by the Fund.

2.4 Valuation of total return swaps

Swaps linked to indexes or financial instruments are valued at their market value, net present value of future cash flows, based on the applicable index or financial instrument, in accordance with the procedure laid down by the Board of Directors.

2.5 Net realised gains or losses on performance swaps

The realised on swaps in the Statement of Operations and Changes in Net Assets includes the balances on swaps paid or received by the Fund in the context of the increase / decrease of the composition of the securities basket, or paid / received in the context of subscriptions / redemptions at the Fund's level.

2.6 Net realised gains or losses resulting from investments

The realised gains or losses resulting from the sales of investments are calculated on an average cost basis.

2.7 Foreign exchange translation

The accounts of each Sub-Fund are maintained in the reference currency of the Sub-Fund and the financial statements are expressed in that currency.

The acquisition cost of securities expressed in a currency other than the reference currency is translated into the reference currency at the exchange rates prevailing on the date of purchase.

Notes to the financial statements (continued)

Income and expenses expressed in other currencies than the reference currency are converted at exchange rates ruling at the transaction date.

Assets and liabilities expressed in other currencies than the reference currency are converted at exchange rates ruling at the year end.

The realised or unrealised gains and losses on foreign exchange are recognised in the Statement of Operations and Changes in Net Assets in determining the increase or decrease in net assets.

2.8 Forward foreign exchange contracts

Net change in unrealised profits and losses on forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the relevant valuation date and are included in the Statement of Operations and Changes in Net Assets.

Forward foreign exchange contracts are disclosed in the Statement of Net Assets under the item "Net unrealised profit/loss on forward foreign exchange contracts".

Net change in unrealised profits and losses and net realised gain/loss are recorded in the Statement of Operations and Changes in Net Assets.

2.9 Combined financial statements

The combined Statement of Net Assets and combined Statement of Operations and Changes in Net Assets represent the total of the Statements of Net Assets Assets and Statements of Operations and Changes in Net Assets of the individual Sub-Funds, converted in Euro, based on exchange rates applicable at year-end.

2.10 Income

Dividends are credited to income on the date upon which the relevant securities are first listed as ex-dividend. Interest income is accrued on a daily basis.

For the index Sub-Funds which replicate the composition of a financial index, the dividend payments are included in the swap performance.

2.11 Formation expenses

The formation expenses of the Fund are borne by the Management Company.

2.12 Other expenses

Other charges correspond to the RTO fees for the following Sub-Funds :

- MULTI UNITS LUXEMBOURG - Lyxor FTSE Europe Minimum Variance (DR) UCITS ETF
- MULTI UNITS LUXEMBOURG - Lyxor US Treasury 1-3Y (DR) UCITS ETF

- MULTI UNITS LUXEMBOURG - Lyxor Net Zero 2050 S&P 500 Climate PAB (DR) UCITS ETF

3 - Management fees

Following a Main Delegation Agreement dated March 29, 2006, as amended, Lyxor Asset Management Luxembourg S.A. was appointed as Management Company of the Sub-Funds.

Following a Novation Agreement dated February 28, 2014, Lyxor International Asset Management S.A.S was appointed as Management Company of the Sub-Funds.

A management fee is payable monthly in arrears to the Management Company in compensation for its services. Such fee was payable monthly and is set for the period under review at the following rates of the Net Asset Value (inclusive of VAT):

Notes to the financial statements (continued)

The Management fees rates applicable at December 31, 2021, are as follows :

Notes to the financial statements (continued)

4 - Depositary, Administrative, Registrar Agent and other fees

As Administrative, Corporate and Domiciliary Agent, Société Générale Luxembourg is entitled to receive fees and commissions for its services rendered to the Sub-Funds. Such fees are payable by the Management Company out of the Total Fee it receives to cover structural costs.

As Depositary, Société Générale Luxembourg is entitled to receive a fee for its services rendered to the Sub-Fund. Such fee is payable by the Management Company out of the Total Fee it receives from the Fund.

As Registrar and Transfer Agent, Société Générale Luxembourg is entitled to receive fees and commissions for its services rendered to the Sub-Fund. Such fees are payable by the Management Company out of the Total Fee it receives from the Fund.

5 - Taxation

The amended Law of December 17, 2010 lays down that Sub-Funds of umbrella UCI established under the Law of December 20, 2002 are exempted of the *taxe d'abonnement* if they comply with following conditions stated in the article 175 e):

- whose securities are listed or dealt in on a stock exchange or another market which is regulated, operates regularly and is recognised and open to the public;
- whose exclusive object is to replicate the performance of one or several indices.

Considering that all classes of shares of all Sub-Funds of the Fund described in the Prospectus comply with the conditions required by the article 175 e) of the amended Law of December 17, 2010, the Board of Directors decided, by a Circular Resolution dated December 31, 2010, that all Sub-Funds and their classes of shares are exempted of the *taxe d'abonnement* as from January 1, 2011.

The Fund is not liable to any Luxembourg tax other than a once-and-for-all tax of EUR 1250 that was paid upon incorporation. Investment income from dividends and interest received by the Fund may be subject to withholding taxes at varying rates. Such withholding taxes are usually not recoverable.

6 - Total return swap agreements

The total return swaps entered into by the Sub-Funds are governed by the Master Index Swap Confirmation Agreement dated as of November 13, 2014, signed between Société Générale and Lyxor International Asset Management on behalf of the Sub-Funds, (the "Master Agreement").

The terms and conditions of the swap transactions are detailed for each swap transaction in appendices to this Master Agreement.

Under the Master Agreement, the Sub-Fund pays to Société Générale an amount reflecting the performance of the basket of securities (including income received) held by the Sub-Fund, and receives an amount reflecting the performance of an index (see below the index for each Sub-Fund).

The performance difference between the two legs is adjusted by (i) the difference of repo rate between the basket of securities held by the Sub-Fund and the index components, (ii) the difference between the index components dividend level in the index methodology and their market price, and (iii) pricing parameters linked to the index replication.

The market value of those swaps, used only for index replication purpose are booked in the caption "Swap at market value" of the Statement of Net Assets.

Counterparty's countries are listed following the ISO 3166-1 standard.

Lines captioned "basket of securities" in the tables below should be read in accordance with the swap details presented per Sub-fund and do not have to be considered as swap positions.

As at December 31, 2021, no collateral was received or granted by the collective investment undertaking as part of Total Return Swaps.

Notes to the financial statements (continued)

As at December 31, 2021, the Company holds the following Total Return Swaps :

6.1 MULTI UNITS LUXEMBOURG - Lyxor DAILY LevDAX UCITS ETF

The domiciliary agent and registered office have been amended as follows:

From
Société Générale Luxembourg
28-32, Place de la gare
L-1616 Luxembourg
Grand Duchy of Luxembourg

To
Arendt Services SA
9, Rue de Bitbourg,
L - 1273 Luxembourg
Grand Duchy of Luxembourg

In order to protect the interests of investors in the Fund, the Board of Directors (the "Board") of the Company has taken the decision to suspend the valuation of the Fund, and the issue, redemptions and conversion of shares of the Fund "Lyxor MSCI Russia UCITS ETF" are effective since March 04, 2022 until further notice. The decision is directly related to the current conflict between Ukraine and Russia which has severe impacts on market trading conditions, including the fact that a substantial portion of the Fund's assets cannot be traded currently.

In this view, the Board believed that it was in the interests of the Fund and investors that subscriptions, redemptions, and conversions of Shares of the Fund on the primary market be temporarily suspended with effect from March 04, 2022, in accordance with the pursuant to the "Temporary Suspension of the Calculation of the Net Asset Value per Share" provision in the Fund's prospectus. While subscription, redemptions and conversion of shares remain suspended, any primary market dealing request received will be rejected.

Please note that this suspension of subscription, redemption, and conversion of shares of the Fund on the primary market does not apply to secondary market dealing. As a result, trading on stock exchanges on which the shares of the Fund are admitted to trading will remain possible, subject to each Stock Exchange policy.

Under the current situation, it is not possible to determine for how long the suspension of subscription, redemption, and conversion of shares of the Fund on the primary market will last. The Board will closely monitor the situation in order to review the decision on an ongoing basis. Meanwhile, the Fund will be managed in accordance with its investment objective and its investment policy.

Updates will be posted to the Lyxoretf website www.lyxoretf.com.

Russia's entry into the war caused a closure of the Moscow stock exchange and the impossibility of dealing with Russian assets, then the closure of the market for GDRs replicating Russian assets - certificates domiciled in developed countries. On the date of writing this report (13/04/2022) and in this context of closed markets, the NAV of the Lyxor MSCI Russia UCITS ETF compartment, which is exposed to a basket of Russian GDRs, has been suspended as of 04/03/2022. Subscriptions and redemptions in this compartment are therefore suspended.

We continue to monitor developments in this crisis and its impact on the management of this compartment.

Global risk exposure (Unaudited information)

In terms of risk management, the commitment approach is used in order to determine the global risk for:

The absolute VaR approach is used in order to determine the global risk for :

- MULTI UNITS LUXEMBOURG - Lyxor US Curve Steepening 2-10 UCITS ETF

The lowest, the highest and the average utilisation of the VaR limit calculating during the year from January 1, 2021 to December 31, 2021 are described below :

VaR Model	Historical
Market risk calculation	Absolute VaR
Interval of time	20 days
Limits	20%
Scenarios	Historical, 260 business days
Reliable interval	99%

Overview of VaR (2021)	VaR Utilisation Max (VaR 20 Day)	VaR Utilisation Min (VaR 20 Day)	Average level of leverage (sum of notionals)	Average level of leverage (gross delta)	Average level of leverage (net delta)
MULTI UNITS LUXEMBOURG - Lyxor US Curve Steepening 2-10 UCITS ETF	3.60%	2.15%	441.89%	340.43%	100.21%

The level of leverage using the commitment approach is determined in accordance with CSSF circular 11-512 which is further clarified in ESMA Guidelines 10-788.

COMPENSATION OF THE STAFF OF LYXOR INTERNATIONAL ASSET MANAGEMENT (2021 ACCOUNTING YEAR)**1.1 COMPENSATION POLICY AND PRACTICES**

The compensation awarded by Lyxor International Asset Management to its employees consists of fixed compensation and may, if economic conditions permit, include a variable component in the form of a discretionary bonus. These bonuses are not related to the performance of the managed vehicles (no profit-sharing in the capital gains).

Lyxor International Asset Management has been Amundi's company since December 31st 2021. Lyxor remuneration policy still applies to the variable compensation granted in 2022 for the 2021 performance year. This policy takes into consideration the remuneration provisions of directives 2011/61/EU of the European Parliament and of the Council of 8 June 2011 ("AIFM Directive") and 2014/91/EU of the European Parliament and of the Council of 23 July 2014 ("UCITS V Directive"), which apply to the investment fund management sector.

In this framework, Lyxor International Asset Management notably implements, for all of the employees receiving deferred variable compensation, an indexing mechanism for a part of this variable compensation composed of multiple investment funds representing the activity of the Lyxor group, such as to ensure that the interests of the employees align with those of investors.

The Lyxor International Asset Management compensation policy insures notably the appropriate management of the risks and the compliance by its staff of the Rules and regulations.

The details of the compensation policy are available at the following website:
<https://www.lyxor.com/en/policies-and-regulatory-notice>

1.2 BREAKDOWN OF FIXED AND VARIABLE COMPENSATION

Lyxor International Asset Management	Staff	Full Time Equivalent	Fixed Compensation (EUR)	Variable Compensation (EUR)	Total (EUR)
Lyxor International Asset Management personnel	125	121,46	11 175 256	7 114 427	18 289 683

Lyxor International Asset Management	Staff	Full Time Equivalent	Total Compensation (Fixed and Variable) (EUR)
Identified Population*	42	39,60	7 738 333
Of which Portfolio Management team	36	35,50	5 742 133
Of which other personnel identified	6	4,10	1 996 200

(*) Staff the professional activity of which may have a significant impact on the risk profile of Lyxor International Asset Management, or the AIF or UCITS managed by Lyxor International Asset

Management, within the meaning of article L533-22-2 of the *Code monétaire et financier* (the French Financial Code).

Figures set forth in the tables above correspond to the amounts, before deduction of any tax and social costs, awarded to the staff in the context of the Annual Compensation Review occurred in the relevant accounting year, on the basis of the number of employees as at 31 December of the preceding accounting year and transferred to Amundi. Please note that variable remuneration set out in table above are those awarded to the staff, and take into account amounts partially differed to following years, and do not take into account the amount actually paid during this accounting year by virtue of a differed remuneration awarded in a previous year. No carried interest was paid during the relevant accounting year.

SFT Regulation (Unaudited information)

Total return swaps

Following the Regulation 2015/2365 of the European Parliament and of the Council of November 25, 2015 on transparency of securities financing transactions, please find below details about total return swaps for the period ending December 31, 2021:

Lyxor DAX (DR) UCITS ETF - December 2021

This Fund falls under Article 6 of regulation (EU) 2019/2088 ("SFDR"). It does not promote environmental and/or social characteristics, nor it has sustainable investment as its objective.

Transparency of environmentally sustainable investments in periodic reports in accordance with regulation (UE) 2020/852

Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "Taxonomy Regulation") sets out criteria to determine which economic activities qualify as environmentally sustainable at Union level.

According to the Taxonomy Regulation, an economic activity shall qualify as environmentally sustainable where that economic activity contributes substantially to one or more of the six environmental objectives defined by the Taxonomy Regulation (Climate change mitigation; Climate change adaptation; Sustainable use and protection of water and marine resources; Transition to a circular economy; Pollution prevention and control; Protection and restoration of biodiversity and ecosystems).

In addition, such economic activity shall not significantly harm any such environmental objectives ("do no significant harm" or "DNSH" principle) and shall be carried out in compliance with the minimum safeguards laid down in Article 18 of the Taxonomy Regulation.

In accordance with Article 7 of the Taxonomy Regulation, the management company draws the attention of investors to the fact that the investments underlying the Fund do not take into account the European Union criteria for environmentally sustainable economic activities.

Lyxor Daily LevDAX UCITS ETF - December 2021

This Fund falls under Article 6 of regulation (EU) 2019/2088 ("SFDR"). It does not promote environmental and/or social characteristics, nor it has sustainable investment as its objective.

- Very Severe	0.0%				0.0%			
Transition Score	5.8	100%	5.6	100%	5.9	98%		

Weighted Average Carbon Intensity (tons CO2 e M Sales)

A measure of the portfolio's exposure to the most carbon intensive companies, reflected by the average carbon intensity of the companies (CO2 emissions normalized by revenue) The carbon intensity of the portfolio is calculated as the weighted average of the carbon intensities of underlying issuers

These measures do not take into account all emissions induced by the company particularly those related to the use of products or upstream by suppliers (scope 3).

Low Carbon Transition Score

This indicator aims to identify potential leaders and laggards by measuring companies holistically in terms of their exposure and management of risks and opportunities related to the low carbon transition.

A company level score that measures a company's level of alignment to the Low Carbon Transition Companies with higher Low Carbon Transition score are more aligned with the Low Carbon Transition compared to the companies with lower scores ..(Score 0 10).

Human Rights Concerns Assessment

These indicators indicate whether a company is exposed to reputational and operational risks due to major and or very important (breaches with regard to social issues such as the management of Human Capital and labor.

Human Rights Compliance

This factor indicates whether the company is in compliance with the United Nations Guiding Principles for Business and Human Rights The possible values are Fail, Watch List, or Pass.

Female Directors Percentage

The percentage of board members who are female For companies with a two tier board, the calculation is based on members of the Supervisory Board only.

Board Independence Percentage

The percentage of board members that meet our designated criteria for independence For companies with a two tier board, the calculation is based on members of the Supervisory Board only.

Transparency of environmentally sustainable investments in periodic reports

The Fund promotes environmental characteristics within the meaning of Article 6 of Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "Taxonomy Regulation").

The Taxonomy Regulation aims to identify economic activities which qualify as environmentally sustainable (the "Sustainable Activities").

The Taxonomy Regulation identifies such activities according to their contribution to six environmental objectives: (i) Climate change mitigation; (ii) Climate change adaptation; (iii) Sustainable use and protection of water and marine resources; (iv) Transition to a circular economy; (v) Pollution prevention and control; (vi) Protection and restoration of biodiversity and ecosystems.

An economic activity shall qualify as environmentally sustainable where that economic activity contributes substantially to one or more of the six environmental objectives, does not significantly harm any of the environmental objectives ("do no significant harm" or "DNSH" principle) and is carried out in compliance with the minimum safeguards laid down in Article 18 of the Taxonomy Regulation. The "do no significant harm" principle applies only to those investments underlying the Fund that take into account the European Union criteria for environmentally sustainable economic activities.

This Fund may invest, but does not commit to invest at the date of this Prospectus, in economic activities that contribute to the following environmental objectives set out in the Article 9 of the Taxonomy Regulation: climate change mitigation and climate change adaptation.

As described in detail above in sections "Index Objectives" and "Index Methodology", the Fund aims to invest in companies according to an ESG score that includes environmental factors.

In line with this investment objective and in order to contribute to the environmental objectives above, it is expected that this Fund will make investments in economic activities eligible under the Taxonomy Regulation including but not limited to alternative energy and carbon energy and efficiency.
