FIMARGE BALANCED PORTFOLIO FUND, class I

LU1892387462

a sub-fund of FIMARGE FUND

This sub-fund is managed by Kredietrust Luxembourg S.A., member of Quintet Private Bank (Europe) S.A..

Objectives and investment policy

Objectives

The sub-fund targets long-term capital growth through mixed, flexible and non-indexed management using wide risk diversification.

Investment policy

The sub-fund's net assets will be allocated according to the investment manager's convictions on market evolution, the economic environment, market opportunities etc. and with no restrictions or limits as to geographic, industrial or sectoral diversification.

The sub-fund will invest in a selected portfolio of international equity and equity-linked instruments, bonds and debt securities and money-markets denominated in different currencies. The sub-fund achieves its aim by investing its net assets in and/or be exposed to:

- 0-100% in fixed income transferable debt securities issued by governments, public or private companies, rated investment grade and with up to 50% of the net assets in high yield securities. The average rating of the bonds held by the sub-fund shall be at least BB- as rated by S&P or Ba3 as rated by Moody's. Fixed income products from emerging countries may not exceed 25% of net assets. The sub-fund may invest up to 15% of the net assets in contingent convertible bonds ("Cocos"). The sub-fund may invest up to 15% in unrated bonds. The sub-fund will not invest in securitization instruments (ABS, CMBS, CLO or CLN).
- 0-35% in equities, equity-linked instruments across all industrial sectors and geographical zone and sizes of stock market capitalization. The geographic and sectorial mix of issuers is not determined in advance and will be achieved on the basis of the market opportunities.
- 0-10% in UCITS and/or other UCI (including ETFs).
- 0-50% in securities and/or currencies other than Euros. The exposure to

foreign exchange risk will be made on the basis of a global macroeconomic analysis.

The sub-fund may hold, on a temporary basis, up to 100% of its assets in cash or money market instruments (i.e. cash and short term deposits, certificates of deposit and bills, money market funds).

It may also hedge its exposure to non-euro currencies according to the investment manager's conviction.

It should be noted that the investment policy of the sub-fund is to invest in the shares or units of UCITS and/or other UCI (including ETFs) (within the limit indicated above) and that entails a double payment of fees (such as subscriptions and redemptions fees, management fees...). The total management fee calculated based on actual management fees costs paid on behalf of fund holdings, may vary up to 2.5% of their respective net assets.

The sub-fund may not use derivatives, financial techniques or instruments and will not conclude securities' lending transactions and repurchase agreements. The sub-fund may use only forwards on currencies and only in order to hedge the currency exposure of the portfolio up to 50% of its net assets in accordance with Part I - Chapter 5 of the Prospectus. The forward will be used to adjust the portfolio's currency allocation.

The sub-fund is actively managed without reference to a benchmark.

The reference currency of this sub-fund and unit class is expressed in EUR.

Income of this unit class is reinvested (accumulated).

The investor may subscribe, convert and redeem units on each bank business day in Luxembourg.

Recommendation

This sub-fund may not be appropriate for investors who plan to withdraw their money within 4 years.

Risk and reward profile

What does this synthetic indicator mean?

- The calculation of the risk indicator is based on estimated and historical data which may not be a reliable indication of the future risk profile of the sub-fund.
- The risk category shown is not guaranteed to remain unchanged. The sub-fund's risk indicator may shift over time.
- The lowest category of the risk indicator does not mean a risk-free investment.
- The sub-fund FIMARGE BALANCED PORTFOLIO FUND is classified in category 4 due to a mixed and flexible management.
- Your initial investment does not benefit from any guarantee or protection.

The risk and reward Indicator does not take into account the following:

- The value of debt securities may change significantly depending on economic and interest rate conditions as well as the credit worthiness of the issuer. These risks are typically increased for below investment grade debt securities, which may also be subject to higher volatility and lower liquidity than investment grade debt securities.

- The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions.
- The investment in underlying funds implies that the sub-fund is exposed to 1) the investment risks borne by the underlying funds, 2) the risk of increases in the level of charges borne by the underlying funds and 3) the risk that the underlying funds limit or suspend the right for their investors to redeem.
- Movements in currency exchange rates can adversely affect the return of your investment. The currency hedging used to minimize the effect of currency fluctuations may not always be successful.
- The sub-fund invests in the shares of small and medium-sized companies, which may be less liquid, more volatile and tend to carry greater financial risk than securities of larger companies.
- Emerging markets may be subject to increased risks, including less developed custody, legal regulation and settlement practices, greater economic and political instability, higher volatility and lower liquidity than non-emerging market securities.
- It might be that an organization with which the fund trades assets or derivatives may be unable to fulfil its obligations, which could cause losses to the sub-fund.
- Failure or deficient processes, systems and controls, human error or catastrophic events may lead to important losses.

Full information on the risks applicable to the sub-fund is detailed in the prospectus.

Charges

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.
