

Objective & Strategy

Haussmann seeks to deliver long-term capital growth through investments in talented and independent money managers. The investment philosophy is based on the selection of "individual talents", who apply an active investment management approach. The managers typically have an absolute return objective combining maximum flexibility with strict risk management and typically aim at high returns. Haussmann invests opportunistically to achieve superior long-term risk-adjusted capital appreciation with meaningful participation in up-markets while delivering protection in down-markets, without the constraints of formal benchmarks.

Investment Manager

Founded in 1974 by the Worms Group and NS Partners SA. Mirabaud, Banca del Ceresio and Bordier joined Haussmann in the early 80's. Haussmann is managed today by the Investment Committee of the General Partner, which is composed of representatives of Mirabaud Asset Management, NS Partners SA and Ceresio Investors. Haussmann's Investment Committee has shown the ability over few decades to adapt to an ever-changing investment environment while remaining true to its original, simple and successful philosophy.
