Who We Are

Founded in 1964, Alger is recognized as a pioneer of growth-style investment management. Privately-owned and headquartered in New York City, Alger can help "Unlock Your Growth Potential" through a suite of growth equity separate accounts, mutual funds, ETFs, and privately offered investment vehicles. Alger's investment philosophy, discovering companies undergoing Positive Dynamic Change, has been in place for 60 years.

Philosophy

We believe "Weatherbie Growth Stocks" offer the best investment opportunities for our clients. Our competitive edge is identifying companies experiencing high growth in the most dynamic areas of the market. We think of growth in two ways: Foundation Growth Stocks in the "sweet spot" of their life cycles and Opportunity Growth Stocks that are early in their life cycles or experiencing a growth resurgence.

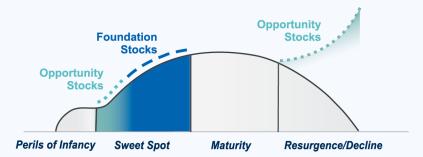

INVESTING IN WEATHERBIE GROWTH STOCKS

Foundation Growth Stocks

- Companies with enduring competitive advantages and realizing rapid growth
- Proven track records by experienced management teams
- Comprise at least two-thirds of the portfolio

Opportunity Growth Stocks

- Younger companies with promising growth potential
- High-growth companies with temporarily depressed earnings and experiencing change that we believe will accelerate earnings growth

Process

| FIUCESS | |
|--------------|---|
| NEW IDEAS | We look for Weatherbie Growth companies with innovative business models across the most dynamic areas of the market. We look for high-growth Foundation and Opportunity stocks. |
| ANALYSIS | Fundamental, bottom-up research incorporates detailed financial analysis and field research as the team proactively looks for new investment ideas. The Weatherbie Way of investing drives stock selection. |
| DIALOGUE | The Research Meeting is a critical step when evaluating new ideas. An engaging and in-depth dialogue among the team members results in a thorough evaluation of each new stock idea. The end result is the team's "best ideas," creating <i>The Weatherbie 50</i> . |
| CONSTRUCTION | Each portfolio manager is responsible for a discrete tranche of the strategy. They may <u>only</u> select stocks from <i>The Weatherbie 50</i> . This is a focused, high-conviction portfolio of "best ideas" constructed at optimal weights. |
| MONITORING | The team engages in an ongoing dialogue and analysis of portfolio holdings. We believe risk is mitigated by depth of research and the resulting understanding of a company's specific business risks and opportunities. We are long-term investors. |
