Correlation to MSCI AC World Daily TR Net USD	0.93

## INVESTMENT OBJECTIVE

The investment objective of the Fund is to seek capital appreciation over the medium to long term. The Fund seeks to achieve its investment objective by allocating its assets across various long only equity investment strategies which are proprietary to each Sub-Investment Manager and/or Lyxor Asset Management ("Lyxor") acting as Investment Manager of the Fund (the " Equity Investment Strategies"). Each of the Equity Investment Strategies will be implemented by a Sub-Investment Manager and/or the Investment Manager with respect to a Trading Portfolio. The selection of the Sub-Investment Managers and the allocation of the Sub-Fund's assets are implemented by Lyxor based on the recommendations of Skandinaviska Enskilda Banken AB ("SEB") acting as Investment Adviser of the Fund.

### IMPORTANT INFORMATION FOR INVESTORS

Parties entering into transactions (such as a derivative or financing transaction) or investing in financial instruments that use an index or a variable interest rate (benchmark) are exposed to the risk that:

(1) such benchmark may be subject to methodological or other changes which could affect the value of the relevant transaction; or (2) (i) may become not compliant with applicable laws and regulations (such as the European Benchmark Regulation), (ii) may cease to be published (possible cessation of LIBOR publication or planned cessation of EONIA both after December 2021), or (iii) the supervisor or administrator of any such benchmark may make a statement that the relevant benchmark is no longer representative, and as a consequence the relevant benchmark may be replaced by another benchmark which may have an adverse and material impact on the economics of the relevant transactions.

You should conduct your own independent investigation and analysis of the potential consequences of any relevant risks such as those mentioned above, particularly in light of the ongoing industry initiatives related to the development of alternative reference rates and the update of the relevant market standard documentation.
