

Investment Objective

The World Stars Global Equity Fund seeks to achieve its objective by investing in a concentrated selection of shares in leading global companies with enduring competitive advantages and a long runway of growth.

We select companies based on our own fundamental research, taking a long-term horizon. We do not follow benchmarks and always seek to invest in quality and value.

Quality means companies that are global leaders, have strong competitive positions and pricing power in structurally attractive and growing markets, have management teams with strong records of value creation and have robust balance sheets.

Value means buying those companies at prices that allow for the prospect of significant capital growth over 5-10 years or more.

Portfolio Comment

Our World Stars Global Equity fund continued its strong performance and has delivered its second-best quarter since inception in 2012. Significant new growth opportunities in AI have boosted our digital stocks, but also benefit our industrials led by *Eaton* (+9%) and *Amphenol* (+6%). Performance has broadened further in March with the top 10 comprised of four industrials, three consumer, two digital and one healthcare.

The macro-economic background continued to improve as we have expected. Both the US Fed and the ECB raised their GDP forecasts for 2024. Core CPI in the Eurozone fell to 2.9% in March, the lowest for two years, and US PCE inflation in Q1 is the lowest for three years. The ISM manufacturing PMI in the US increased to 50.3 in March, the first expansion since October 2022.

Nvidia (+14%) unveiled its new GB200 'superchip' which is twice as powerful as the existing H100 GPUs for training and five times as powerful for inference, the critical element of generative AI focused on problem-solving and decision-making.

Alphabet (+9%) is reported to be in discussions with Apple over supplying its Gemini AI model to new iPhones. This would significantly extend the partnership between the two businesses.

Givaudan (+10%), the global No 1 in flavours and fragrances, is benefiting from robust consumer confidence, led by the US, and rising travel volumes which are encouraging many large consumer goods companies to re-build inventories.

Performance since launch on 8th April 2019 is that of the Fund's A1 USD Share class. Prior to launch performance was that of J. Stern & Co.'s World Stars USD Strategy, unhedged, which the Fund follows, based on total return (with dividends reinvested) and net of 1% fees per annum, deducted quarterly in arrears, inception 1st October 2012. Past performance is not a reliable indicator of future results; the value of any investment can fall as well as rise; and returns may increase or decrease as a result of currency fluctuations.
