LUMYNA

Lumyna – Zeal Greater China Long Short UCITS Fund – EUR Z (Acc)

ISIN Code: LU1093412077

a sub-fund of Lumyna Funds (the "Fund")

Management Company: Generali Investments Luxembourg S.A.

Objectives and investment policy

The Fund aims to generate long-term risk-adjusted returns from investments in companies predominantly established in or operating within the People's Republic of China (including Hong Kong and Macau) and Taiwan. The Fund pursues a long short equity investment strategy by investing in companies which the Investment Manager believes are not valued correctly by the market (because, for example, of a misunderstanding of the company's fundamentals). Investment decisions are based upon the investment philosophy and strategy of the Investment Manager following the principle of value investing, under which the Investment Manager seeks to get an in-depth and accurate understanding of the company's business and management in order to determine the company's value.

The Fund is actively managed and is not managed in reference to a benchmark.

To achieve its investment objective, the Fund will invest primarily in listed equities and equity-related instruments, debt securities, and a range of derivative instruments including, but not limited to, futures, forwards, swaps and options. With respect to securities issued by China mainland incorporated companies, the Fund may also invest in China B-

Shares and/ or China A-shares. Exposure to China A-Shares and China B-Shares may be obtained in different ways, such as via the Shanghai-Hong Kong Stock Connect for China A-shares. The Fund may also, to a lesser extent, invest in securities which are not related to Greater China from time to time where opportunities can be identified.

The currency of the Fund is USD and your shares will be denominated in EUR. Your shares will be hedged with the aim of protecting them from exchange rate fluctuations between their denominated currency and the currency of the Fund.

Your shares are non-distributing (i.e. any income arising from your shares will be included in their value).

You may redeem your shares on demand on any Luxembourg, UK, United States and Hong-Kong banking day.

The risk category has been calculated based upon simulation of the Fund's performance using historical data, which may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may change over time.

The lowest category (category 1) does not mean that the investment is risk-free.

The Fund is rated 6 due to the nature of its investments which include the following risks:

- **Currency risk** – The risk that the investment's value may change due to fluctuations in exchange rates between currencies.
- **Derivatives risk** – The Fund may use derivatives for investment purposes. Derivatives are highly sensitive to changes in the value of the asset on which they are based, which may result in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
- **Equity risk** – The risk that the value of equities and equity-related securities within the Fund may be affected by stock market movements.

- **Operational risk** – The Fund is exposed to regulatory and operational risks in some of the markets it may invest including the Shanghai – Hong Kong Stock Connect programme. For more information about risks linked to Shanghai-Hong Kong Stock Connect, investors should also refer to the general part of the Prospectus.
- **Emerging market risk** – The Fund may invest in less economically or politically developed markets which can involve greater risks than well developed economies. Political/economic instability, lack of liquidity or transparency, or safekeeping issues should be considered.
- **China Risk** – The Fund is exposed to political risk linked to investment in companies operating or having exposure to the People's Republic of China ("PRC").

The following are additional risks which are not captured in the risk category:

- **Counterparty risk** – The risk that the other party to a transaction with the Fund may fail to fulfil its contractual obligations and may expose the Fund to financial losses.
- **Liquidity risk** – The risk that insufficient buyers or sellers to an investment, or an impairment in the market may affect the price or the ability to sell such investment within the Fund.

Your investment is not guaranteed and its value can go down as well as up.

For more information about risk, please see the 'Risk Factors' section of the prospectus, which is available at www.lumyna.com.
