Key Investor Information Document

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this fund. You are advised to read it so you can make an informed decision about whether to invest.

Storm Bond ICL NOK

Storm Fund II

ISIN LU2058024360

Managed by Hauck & Aufhäuser Fund Services S.A.

Objectives & Investment Policy

The Sub-Fund is an absolute return oriented Sub-Fund. The Sub-Fund seeks to have a strong exposure to the Nordic countries either by investing in bonds traded or dealt on Nordic Markets or by investing in bonds mainly issued by Nordic entities or by entities active or exposed to the Nordic markets. The Sub-Fund will invest at least 51% in bonds of all type including but not limited to corporate bonds, convertible bonds and convertible asset backed bonds within the framework of its investment policy. In accordance with the principle of risk diversification, the Sub-Fund may invest into bonds, equities, profit participation certificates, units of investment funds (UCITS and UCIs), as well as certificates containing financial indices, equities, interest rates and foreign currencies as underlyings, and certificates on other permitted underlyings worldwide, including on the emerging markets, without restriction. Up to 10% of the net assets of

the Sub-Fund may be invested in units of investment funds. The Sub-Fund may not borrow in excess of 10% of its net assets. The Fund may make use of derivatives transactions to reduce any losses or to achieve higher growth. The investor's horizon should be long-term. Returns may be accumulated. Investors are entitled to request redemption of shares from the Management Company on each Valuation Day. However, we may suspend redemptions in exceptional circumstances if suspension is deemed necessary in consideration of investor interests. Fees for the purchase and sale of securities shall be paid by the Sub-Fund. These fees are incurred in addition to the percentages listed under "Charges" and may negatively impact Sub-Fund returns. This fund is an actively managed fund, which is not benchmarked.

Risk and Reward Profile

Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. Even the lowest category does not mean 'risk free'. The fund has been categorized SRRI 4 because its net asset value shows moderate volatility leading to adequate probabilities for losses as well as gains. Risks that could significantly affect fund performance and are not necessarily fully reflected in the risk and reward rating include: Issuer Risk - Bonds owned by the Fund may lose some or all of their value if the financial health of the bonds issuers declines or fails. Liquidity risks: The fund can invest part of its assets in papers for which no buyer can be found in the short term due to the size of the company or the low trading volumes. This can increase the risk that the Fund may have to suspend the redemption of its shares. Derivate Risk - Derivatives, especially when used to seek higher gains or to speculate on price movements, can expose the Fund to additional risk

of loss. Counterparty Risk - The Fund's transactions with counterparties may be significant, increasing its exposure to losses if a counterparty becomes unable to meet its obligations to the Fund. Operational Risk - The Fund may be exposed to significant operational risks, such as processing errors, misconduct, communications failures or misunderstanding on the part of those involved in fund management and administration.

Charges for this fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest.

| | |
|---------------------|-------|
| Entry charge | 3% |
| Exit charge | 0,25% |

Charges taken from the fund over a year

| | |
|------------------------|-------|
| Ongoing charges | 0,67% |
|------------------------|-------|

Charges taken from the fund under certain specific conditions

| | |
|------------------------|-----|
| Performance fee | 10% |
|------------------------|-----|

A yearly performance fee of up to 10 % of the net return is charged and is subject to a high watermark. A positive cumulative performance fee claim is only paid on the reporting date if the net asset value per share exceeds the high water mark. In this case, the high water mark is adjusted to the net asset value per share on

The entry charges shown are maximum figures. This is the maximum that might be taken out of your money. In some cases you might pay less - you can find this out from your financial adviser. The ongoing charges figure is based on expenses for the last finished financial year. This figure may vary from year to year. The ongoing charges figure excludes performance fees and transaction costs. Information provided on ongoing charges is an estimate until the first financial year of the fund has concluded and the annual report has been published.

the reporting date for the next observation period. Any negative provision balance accumulated on the reporting date is taken into account in the subsequent period. The effective performance fee is 1,04% as the share class was created on 1 November 2019. The accounting period ends on 31 December of each year.

Past Performance

Past value performance is no guarantee for future performance. In the calculation, all costs and fees were deducted with the exception of the issue premium. Storm Bond Fund ICL (NOK) was issued in 2019. The historical value performance was calculated in NOK.
