You are advised to familiarise yourself with this document in order to make a fully-informed investment decision.

LAZARD CONVERTIBLE GLOBAL

SICAV

This UCITS is managed by LAZARD FRERES GESTION SAS
FR0010858498 - RC EUR

Objective and Investment Policy

Investment objective: The investment objective is to achieve over the recommended investment horizon of 5 years, a return (net of charges) above the following benchmark: Refinitiv (ex. Thomson Reuters) Global Focus Convertible EUR Index. The benchmark is expressed in EUR. Nets dividends or coupons are reinvested.

Investment policy: Lazard Frères Gestion delegated the financial management of the Fund to Lazard Asset Management LLC New York. To achieve this objective, the SICAV is actively managed using a fundamental approach comprising several analysis phases: study of the economic environment with market expectations produced by the Economic Strategy department, financial analysis of companies issuing bonds and of underlying equities and analysis of the technical features of issuance contracts.

In this context, the manager must manage the SICAV's overall exposure to interest rates and equity markets. In addition to the characteristics of the portfolio assets (exposure, equities and sensitivity), the manager will use interest-rate and equity futures to increase or decrease the SICAV's sensitivity or exposure to the equity market. Furthermore, the SICAV will manage currency risk dynamically for shares that are not hedged against foreign exchange risk, in order to optimise performance in the medium term. The SICAV may also actively manage interest rates through active management of the modified duration (use of BOBL or bund futures, for instance).

The SICAV's portfolio comprises:

- European and foreign (including emerging) convertible bonds issued by companies and financial institutions, and similar instruments ("preferred convertibles"). These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds exchangeable for shares issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with share warrants issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with warrants for participating securities issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- Bonds whose value is indexed to a stock market index to a maximum of 15% of the net assets.
- French or foreign money-market, short-term money-market,

- bond or mixed UCITS or AIFs that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code Monétaire et Financier), up to a maximum of 10% of the net assets. These UCIs may be managed by the management company.
- Money market instruments (negotiable debt instruments, repurchase agreements, etc.) up to a maximum of 10% of the net assets. Equities up to a maximum of 10% of the net assets (excluding "preferred convertibles"). These shares will derive from the conversion of the convertible bonds shown in the portfolio.
- The SICAV may also hold other securities with embedded derivatives comprising up to 100% of the net assets.

The Fund may use futures, swaps, options and currency forward transactions on regulated, organised and/or OTC markets to hedge and/or expose the portfolio, up to the amount of the net assets, to equity, interest rate, currency, credit and volatility risk.

Allocation of distributable income:

Allocation of net income: Accumulation

Allocation of net realised capital gains: Accumulation

Other information : Environmental, social and governance (ESG) criteria are integrated into management through an internal analysis and rating model that directly influences management without being a determining factor in decision-making

Recommended investment period: This UCI may not be suitable for investors planning to withdraw their contributions within 5 years.

Redemption option: Orders are executed as indicated in the table below

Business d	Day on which NAV is set (d)	Business d+1	Business d+2
Daily order reception and daily centralisation of redemption orders before 11:00 a.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Risk and reward profile

Explanation of the indicator and its main limitations:

The diversified exposure to the equity market, interest rate and currency risk explains the UCI's classification in this category.

The historical data used may not provide a reliable indication of the UCI's future risk profile.

We can give no assurance that the category displayed will not change, and the classification may change over time.

The lowest category does not imply a risk-free investment. There is no capital guarantee.

Other material risk factors not incorporated into the indicator:

- Credit Risk:** represents the potential risk that an issuer defaults or its creditworthiness declines, which would lead to a fall in the price of its securities and, hence, a decrease in the Fund's net asset value.
- Risks associated with derivatives:** Use of complex products such as derivatives may increase losses.

The materialisation of one of these risks may result in a decline in the net asset value of the UCI. The other risks are stipulated in the prospectus.

Charges

The charges and fees paid are used to cover the UCI's operating expenses, including the costs of marketing and distributing its shares. These charges reduce the investments' potential growth.

Incidental costs collected before or after investment

Front-end load	4.00%
Back-end load	0%

The percentage indicated is the maximum percentage that may be applied to your capital before it is invested or before the proceeds of your investment are distributed. Investors may pay less in some cases. Investors may contact their advisor or distributor to find out the effective front-end and back-end load rates.

Charges collected by the UCI over a year

Ongoing charges	1.87*
-----------------	-------

Charges collected by the UCI under certain circumstances

Performance fee	None
-----------------	------

* The figure communicated is based on the fees charged for the previous financial year ended 30/10/2020. It may vary from one year to the next. The description includes direct and indirect costs.

For more information on fees, please refer to the charges and fees section of the prospectus for this UCI, available online at www.lazardfreresgestion.fr.

Ongoing charges do not include: performance fees and brokerage fees, except in the case of upfront or exit costs paid by the UCI when buying or selling units or shares in other collective investment vehicles.

Past performance

Past performance is not a reliable indication of future performance and is not constant.

Performance is calculated less the charges collected by the UCI.

Launch date of the UCI: 17/09/1985

Base currency: EUR

Benchmark indicator:

Refinitiv (ex. Thomson Reuters) Global Focus Convertible EUR Index
The benchmark is expressed in EUR.
Nets dividends or coupons are reinvested.

Practical information

Name of the custodian: CACEIS BANK.

Where and how to find out the net asset value: the net asset value is published daily in the offices of LAZARD FRERES GESTION SAS and on the internet www.lazardfreresgestion.fr.

Where and how to obtain information on the UCI: A full copy of the prospectus and the most recent annual and periodic statements may be obtained within eight business days by sending a request in writing to LAZARD FRERES GESTION SAS, 25, rue de Courcelles 75008 Paris France.

Taxation: depending on your tax status, you may be subject to tax on any capital gains and income derived from the ownership of units or shares. Investors are advised to discuss this with their advisor or distributor.

LAZARD FRERES GESTION SAS shall only be held liable for statements made herein that may be misleading, inaccurate or inconsistent with the corresponding sections of the UCI's prospectus.

Investment objective: The investment objective is to achieve over the recommended investment horizon of 5 years a return (net of charges) above the following benchmark: Refinitiv (ex. Thomson Reuters) Global Focus Convertible Hedged USD Index. The benchmark is expressed in USD an index hedged against foreign exchange risk with the USD as its base currency. Nets dividends or coupons are reinvested. The share's performance may be impacted by possible foreign exchange hedging costs.

Investment policy: Lazard Frères Gestion delegated the financial management of the Fund to Lazard Asset Management LLC New York. To achieve this objective, the SICAV is actively managed using a fundamental approach comprising several analysis phases: study of the economic environment with market expectations produced by the Economic Strategy department, financial analysis of companies issuing bonds and of underlying equities and analysis of the technical features of issuance contracts.

In this context, the manager must manage the SICAV's overall exposure to interest rates and equity markets. In addition to the characteristics of the portfolio assets (exposure, equities and sensitivity), the manager will use interest-rate and equity futures to increase or decrease the SICAV's sensitivity or exposure to the equity market. Furthermore, the SICAV will manage currency risk dynamically for shares that are not hedged against foreign exchange risk, in order to optimise performance in the medium term. The SICAV may also actively manage interest rates through active management of the modified duration (use of BOBL or bund futures, for instance).

The SICAV's portfolio comprises:

- European and foreign (including emerging) convertible bonds issued by companies and financial institutions, and similar instruments ("preferred convertibles"). These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds exchangeable for shares issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with share warrants issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with warrants for participating securities issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.

- Bonds whose value is indexed to a stock market index to a maximum of 15% of the net assets.
- French or foreign money-market, short-term money-market, bond or mixed UCITS or AIFs that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code Monétaire et Financier), up to a maximum of 10% of the net assets. These UCIs may be managed by the management company.
- Money market instruments (negotiable debt instruments, repurchase agreements, etc.) up to a maximum of 10% of the net assets. Equities up to a maximum of 10% of the net assets (excluding "preferred convertibles"). These shares will derive from the conversion of the convertible bonds shown in the portfolio.
- The SICAV may also hold other securities with embedded derivatives comprising up to 100% of the net assets.

The Fund may use futures, swaps, options and currency forward transactions on regulated, organised and/or OTC markets to hedge and/or expose the portfolio, up to the amount of the net assets, to equity, interest rate, currency, credit and volatility risk.

Allocation of distributable income:

Allocation of net income: Accumulation

Allocation of net realised capital gains: Accumulation

Other information : Environmental, social and governance (ESG) criteria are integrated into management through an internal analysis and rating model that directly influences management without being a determining factor in decision-making

Recommended investment period: This UCI may not be suitable for investors planning to withdraw their contributions within 5 years.

Redemption option: Orders are executed as indicated in the table below

Business d	Day on which NAV is set (d)	Business d+1	Business d+2
Daily order reception and daily centralisation of redemption orders before 11:00 a.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Risk and reward profile

Explanation of the indicator and its main limitations:

The diversified exposure to the equity market, interest rate and currency risk explains the UCI's classification in this category.

The historical data used may not provide a reliable indication of the UCI's future risk profile.

We can give no assurance that the category displayed will not change, and the classification may change over time.

The lowest category does not imply a risk-free investment. There is no capital guarantee.

Other material risk factors not incorporated into the indicator:

- **Credit Risk:** represents the potential risk that an issuer defaults or its creditworthiness declines, which would lead to a fall in the price of its securities and, hence, a decrease in the Fund's net asset value.
- **Risks associated with derivatives:** Use of complex products such as derivatives may increase losses.

The materialisation of one of these risks may result in a decline in the net asset value of the UCI. The other risks are stipulated in the prospectus.

Charges

The charges and fees paid are used to cover the UCI's operating expenses, including the costs of marketing and distributing its shares. These charges reduce the investments' potential growth.

Incidental costs collected before or after investment

Front-end load	4.00%
Back-end load	0%

The percentage indicated is the maximum percentage that may be applied to your capital before it is invested or before the proceeds of your investment are distributed. Investors may pay less in some cases. Investors may contact their advisor or distributor to find out the effective front-end and back-end load rates.

Charges collected by the UCI over a year

Ongoing charges	1.92*
-----------------	-------

Charges collected by the UCI under certain circumstances

Performance fee	None
-----------------	------

* The figure communicated is based on the fees charged for the previous financial year ended 30/10/2020. It may vary from one year to the next. The description includes direct and indirect costs.

For more information on fees, please refer to the charges and fees section of the prospectus for this UCI, available online at www.lazardfreresgestion.fr.

Ongoing charges do not include: performance fees and brokerage fees, except in the case of upfront or exit costs paid by the UCI when buying or selling units or shares in other collective investment vehicles.

Past performance

Past performance is not a reliable indication of future performance and is not constant.

Performance is calculated less the charges collected by the UCI.

Launch date of the UCI: 17/09/1985

Base currency: USD

Benchmark indicator:

Refinitiv (ex. Thomson Reuters) Global Focus Convertible Hedged USD Index. The benchmark is expressed in USD an index hedged against foreign exchange risk with the USD as its base currency. Nets dividends or coupons are reinvested.

Thomson Reuters) Global Focus Convertible Hedged HKD Index. The benchmark is expressed in HKD an index hedged against foreign exchange risk with the HKD as its base currency. Nets dividends or coupons are reinvested. The share's performance may be impacted by possible foreign exchange hedging costs.

Investment policy: Lazard Frères Gestion delegated the financial management of the Fund to Lazard Asset Management LLC New York. To achieve this objective, the SICAV is actively managed using a fundamental approach comprising several analysis phases: study of the economic environment with market expectations produced by the Economic Strategy department, financial analysis of companies issuing bonds and of underlying equities and analysis of the technical features of issuance contracts.

In this context, the manager must manage the SICAV's overall exposure to interest rates and equity markets. In addition to the characteristics of the portfolio assets (exposure, equities and sensitivity), the manager will use interest-rate and equity futures to increase or decrease the SICAV's sensitivity or exposure to the equity market. Furthermore, the SICAV will manage currency risk dynamically for shares that are not hedged against foreign exchange risk, in order to optimise performance in the medium term. The SICAV may also actively manage interest rates through active management of the modified duration (use of BOBL or bund futures, for instance).

The SICAV's portfolio comprises:

- European and foreign (including emerging) convertible bonds issued by companies and financial institutions, and similar instruments ("preferred convertibles"). These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds exchangeable for shares issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with share warrants issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with warrants for participating securities issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.

- Bonds whose value is indexed to a stock market index to a maximum of 15% of the net assets.
- French or foreign money-market, short-term money-market, bond or mixed UCITS or AIFs that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code Monétaire et Financier), up to a maximum of 10% of the net assets. These UCIs may be managed by the management company.
- Money market instruments (negotiable debt instruments, repurchase agreements, etc.) up to a maximum of 10% of the net assets. Equities up to a maximum of 10% of the net assets (excluding "preferred convertibles"). These shares will derive from the conversion of the convertible bonds shown in the portfolio.
- The SICAV may also hold other securities with embedded derivatives comprising up to 100% of the net assets.

The Fund may use futures, swaps, options and currency forward transactions on regulated, organised and/or OTC markets to hedge and/or expose the portfolio, up to the amount of the net assets, to equity, interest rate, currency, credit and volatility risk.

Allocation of distributable income:

Allocation of net income: Accumulation

Allocation of net realised capital gains: Accumulation

Other information : Environmental, social and governance (ESG) criteria are integrated into management through an internal analysis and rating model that directly influences management without being a determining factor in decision-making

Recommended investment period: This UCI may not be suitable for investors planning to withdraw their contributions within 5 years.

Redemption option: Orders are executed as indicated in the table below

Business d	Day on which NAV is set (d)	Business d+1	Business d+2
Daily order reception and daily centralisation of redemption orders before 11:00 a.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Risk and reward profile

Explanation of the indicator and its main limitations:

The diversified exposure to the equity market, interest rate and currency risk explains the UCI's classification in this category.

The historical data used may not provide a reliable indication of the UCI's future risk profile.

We can give no assurance that the category displayed will not change, and the classification may change over time.

The lowest category does not imply a risk-free investment. There is no capital guarantee.

Other material risk factors not incorporated into the indicator:

- **Credit Risk:** represents the potential risk that an issuer defaults or its creditworthiness declines, which would lead to a fall in the price of its securities and, hence, a decrease in the Fund's net asset value.
- **Risks associated with derivatives:** Use of complex products such as derivatives may increase losses.

The materialisation of one of these risks may result in a decline in the net asset value of the UCI. The other risks are stipulated in the prospectus.

Charges

The charges and fees paid are used to cover the UCI's operating expenses, including the costs of marketing and distributing its shares. These charges reduce the investments' potential growth.

Incidental costs collected before or after investment

Front-end load	4.00%
Back-end load	0%

The percentage indicated is the maximum percentage that may be applied to your capital before it is invested or before the proceeds of your investment are distributed. Investors may pay less in some cases. Investors may contact their advisor or distributor to find out the effective front-end and back-end load rates.

Charges collected by the UCI over a year

Ongoing charges	1.92*
-----------------	-------

Charges collected by the UCI under certain circumstances

Performance fee	None
-----------------	------

* The figure communicated is based on the fees charged for the previous financial year ended 30/10/2020. It may vary from one year to the next. The description includes direct and indirect costs.

For more information on fees, please refer to the charges and fees section of the prospectus for this UCI, available online at www.lazardfreresgestion.fr.

Ongoing charges do not include: performance fees and brokerage fees, except in the case of upfront or exit costs paid by the UCI when buying or selling units or shares in other collective investment vehicles.

Past performance

Past performance is not a reliable indication of future performance and is not constant.

Performance is calculated less the charges collected by the UCI.

Launch date of the UCI: 17/09/1985

Base currency: HKD

Benchmark indicator:

Refinitiv (ex. Thomson Reuters) Global Focus Convertible Hedged HKD Index. The benchmark is expressed in HKD an index hedged against foreign exchange risk with the HKD as its base currency. Nets dividends or coupons are reinvested.

Investment policy: Lazard Frères Gestion delegated the financial management of the Fund to Lazard Asset Management LLC New York. To achieve this objective, the SICAV is actively managed using a fundamental approach comprising several analysis phases: study of the economic environment with market expectations produced by the Economic Strategy department, financial analysis of companies issuing bonds and of underlying equities and analysis of the technical features of issuance contracts.

In this context, the manager must manage the SICAV's overall exposure to interest rates and equity markets. In addition to the characteristics of the portfolio assets (exposure, equities and sensitivity), the manager will use interest-rate and equity futures to increase or decrease the SICAV's sensitivity or exposure to the equity market. Furthermore, the SICAV will manage currency risk dynamically for shares that are not hedged against foreign exchange risk, in order to optimise performance in the medium term. The SICAV may also actively manage interest rates through active management of the modified duration (use of BOBL or bund futures, for instance).

The SICAV's portfolio comprises:

- European and foreign (including emerging) convertible bonds issued by companies and financial institutions, and similar instruments ("preferred convertibles"). These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds exchangeable for shares issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with share warrants issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with warrants for participating securities issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.

- Bonds whose value is indexed to a stock market index to a maximum of 15% of the net assets.
- French or foreign money-market, short-term money-market, bond or mixed UCITS or AIFs that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code Monétaire et Financier), up to a maximum of 10% of the net assets. These UCIs may be managed by the management company.
- Money market instruments (negotiable debt instruments, repurchase agreements, etc.) up to a maximum of 10% of the net assets. Equities up to a maximum of 10% of the net assets (excluding "preferred convertibles"). These shares will derive from the conversion of the convertible bonds shown in the portfolio.
- The SICAV may also hold other securities with embedded derivatives comprising up to 100% of the net assets.

The Fund may use futures, swaps, options and currency forward transactions on regulated, organised and/or OTC markets to hedge and/or expose the portfolio, up to the amount of the net assets, to equity, interest rate, currency, credit and volatility risk.

Allocation of distributable income:

Allocation of net income: Distribution

Allocation of net realised capital gains: Accumulation and/or Distribution and/or Retention

Other information : Environmental, social and governance (ESG) criteria are integrated into management through an internal analysis and rating model that directly influences management without being a determining factor in decision-making

Recommended investment period: This UCI may not be suitable for investors planning to withdraw their contributions within 5 years.

Redemption option: Orders are executed as indicated in the table below

Business d	Day on which NAV is set (d)	Business d+1	Business d+2
Daily order reception and daily centralisation of redemption orders before 11:00 a.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Risk and reward profile

Explanation of the indicator and its main limitations:

The diversified exposure to the equity market, interest rate and currency risk explains the UCI's classification in this category.

The historical data used may not provide a reliable indication of the UCI's future risk profile.

We can give no assurance that the category displayed will not change, and the classification may change over time.

The lowest category does not imply a risk-free investment. There is no capital guarantee.

Other material risk factors not incorporated into the indicator:

- **Credit Risk:** represents the potential risk that an issuer defaults or its creditworthiness declines, which would lead to a fall in the price of its securities and, hence, a decrease in the Fund's net asset value.
- **Risks associated with derivatives:** Use of complex products such as derivatives may increase losses.

The materialisation of one of these risks may result in a decline in the net asset value of the UCI. The other risks are stipulated in the prospectus.

Charges

The charges and fees paid are used to cover the UCI's operating expenses, including the costs of marketing and distributing its shares. These charges reduce the investments' potential growth.

Incidental costs collected before or after investment

Front-end load	4.00%
Back-end load	0%

The percentage indicated is the maximum percentage that may be applied to your capital before it is invested or before the proceeds of your investment are distributed. Investors may pay less in some cases. Investors may contact their advisor or distributor to find out the effective front-end and back-end load rates.

Charges collected by the UCI over a year

Ongoing charges	1.27*
-----------------	-------

Charges collected by the UCI under certain circumstances

Performance fee	None
-----------------	------

* The figure communicated is based on the fees charged for the previous financial year ended 30/10/2020. It may vary from one year to the next. The description includes direct and indirect costs.

For more information on fees, please refer to the charges and fees section of the prospectus for this UCI, available online at www.lazardfreresgestion.fr.

Ongoing charges do not include: performance fees and brokerage fees, except in the case of upfront or exit costs paid by the UCI when buying or selling units or shares in other collective investment vehicles.

Past performance

Past performance is not a reliable indication of future performance and is not constant.

Performance is calculated less the charges collected by the UCI.

Launch date of the UCI: 17/09/1985

Base currency: EUR

Benchmark indicator:

Refinitiv (ex. Thomson Reuters) Global Focus Convertible Hedged EUR Index. The benchmark is expressed in EUR an index hedged against foreign exchange risk with the EUR as its base currency. Nets dividends or coupons are reinvested.

To achieve this objective, the SICAV is actively managed using a fundamental approach comprising several analysis phases: study of the economic environment with market expectations produced by the Economic Strategy department, financial analysis of companies issuing bonds and of underlying equities and analysis of the technical features of issuance contracts.

In this context, the manager must manage the SICAV's overall exposure to interest rates and equity markets. In addition to the characteristics of the portfolio assets (exposure, equities and sensitivity), the manager will use interest-rate and equity futures to increase or decrease the SICAV's sensitivity or exposure to the equity market. Furthermore, the SICAV will manage currency risk dynamically for shares that are not hedged against foreign exchange risk, in order to optimise performance in the medium term. The SICAV may also actively manage interest rates through active management of the modified duration (use of BOBL or bund futures, for instance).

The SICAV's portfolio comprises:

- European and foreign (including emerging) convertible bonds issued by companies and financial institutions, and similar instruments ("preferred convertibles"). These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds exchangeable for shares issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with share warrants issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with warrants for participating securities issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.

- Bonds whose value is indexed to a stock market index to a maximum of 15% of the net assets.
- French or foreign money-market, short-term money-market, bond or mixed UCITS or AIFs that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code Monétaire et Financier), up to a maximum of 10% of the net assets. These UCIs may be managed by the management company.
- Money market instruments (negotiable debt instruments, repurchase agreements, etc.) up to a maximum of 10% of the net assets. Equities up to a maximum of 10% of the net assets (excluding "preferred convertibles"). These shares will derive from the conversion of the convertible bonds shown in the portfolio.
- The SICAV may also hold other securities with embedded derivatives comprising up to 100% of the net assets.

The Fund may use futures, swaps, options and currency forward transactions on regulated, organised and/or OTC markets to hedge and/or expose the portfolio, up to the amount of the net assets, to equity, interest rate, currency, credit and volatility risk.

Allocation of distributable income:

Allocation of net income: Accumulation

Allocation of net realised capital gains: Accumulation

Other information : Environmental, social and governance (ESG) criteria are integrated into management through an internal analysis and rating model that directly influences management without being a determining factor in decision-making

Recommended investment period: This UCI may not be suitable for investors planning to withdraw their contributions within 5 years.

Redemption option: Orders are executed as indicated in the table below

Business d	Day on which NAV is set (d)	Business d+1	Business d+2
Daily order reception and daily centralisation of redemption orders before 11:00 a.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Risk and reward profile

Explanation of the indicator and its main limitations:

The diversified exposure to the equity market, interest rate and currency risk explains the UCI's classification in this category.

The historical data used may not provide a reliable indication of the UCI's future risk profile.

We can give no assurance that the category displayed will not change, and the classification may change over time.

The lowest category does not imply a risk-free investment. There is no capital guarantee.

Other material risk factors not incorporated into the indicator:

- **Credit Risk:** represents the potential risk that an issuer defaults or its creditworthiness declines, which would lead to a fall in the price of its securities and, hence, a decrease in the Fund's net asset value.
- **Risks associated with derivatives:** Use of complex products such as derivatives may increase losses.

The materialisation of one of these risks may result in a decline in the net asset value of the UCI. The other risks are stipulated in the prospectus.

Lazard Convertible Global

Charges

The charges and fees paid are used to cover the UCI's operating expenses, including the costs of marketing and distributing its shares. These charges reduce the investments' potential growth.

Incidental costs collected before or after investment	
Front-end load	4.00%
Back-end load	0%
The percentage indicated is the maximum percentage that may be applied to your capital before it is invested or before the proceeds of your investment are distributed. Investors may pay less in some cases. Investors may contact their advisor or distributor to find out the effective front-end and back-end load rates.	
Charges collected by the UCI over a year	
Ongoing charges	0.4*
Charges collected by the UCI under certain circumstances	
Performance fee	None

* The figure communicated is based on the fees charged for the previous financial year ended 30/10/2020. It may vary from one year to the next. The description includes direct and indirect costs.

For more information on fees, please refer to the charges and fees section of the prospectus for this UCI, available online at www.lazardfreresgestion.fr.

Ongoing charges do not include: performance fees and brokerage fees, except in the case of upfront or exit costs paid by the UCI when buying or selling units or shares in other collective investment vehicles.

Past performance

Past performance is not a reliable indication of future performance and is not constant.

Performance is calculated less the charges collected by the UCI.

Launch date of the UCI: 17/09/1985

Only performance data for full calendar years are displayed.

Base currency: GBP

Benchmark indicator:

Refinitiv (ex. Thomson Reuters) Global Focus Convertible Hedged GBP Index. The benchmark is expressed in GBP an index hedged against foreign exchange risk with the GBP as its base currency. Nets dividends or coupons are reinvested.

In addition to the characteristics of the portfolio assets (exposure, equities and sensitivity), the manager will use interest-rate and equity futures to increase or decrease the SICAV's sensitivity or exposure to the equity market. Furthermore, the SICAV will manage currency risk dynamically for shares that are not hedged against foreign exchange risk, in order to optimise performance in the medium term. The SICAV may also actively manage interest rates through active management of the modified duration (use of BOBL or bund futures, for instance).

The SICAV's portfolio comprises:

- European and foreign (including emerging) convertible bonds issued by companies and financial institutions, and similar instruments ("preferred convertibles"). These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds exchangeable for shares issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with share warrants issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with warrants for participating securities issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- Bonds whose value is indexed to a stock market index to a maximum of 15% of the net assets.

- French or foreign money-market, short-term money-market, bond or mixed UCITS or AIFs that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code Monétaire et Financier), up to a maximum of 10% of the net assets. These UCIs may be managed by the management company.
- Money market instruments (negotiable debt instruments, repurchase agreements, etc.) up to a maximum of 10% of the net assets. Equities up to a maximum of 10% of the net assets (excluding "preferred convertibles"). These shares will derive from the conversion of the convertible bonds shown in the portfolio.
- The SICAV may also hold other securities with embedded derivatives comprising up to 100% of the net assets.

The Fund may use futures, swaps, options and currency forward transactions on regulated, organised and/or OTC markets to hedge and/or expose the portfolio, up to the amount of the net assets, to equity, interest rate, currency, credit and volatility risk.

Allocation of distributable income:

Allocation of net income: Distribution

Allocation of net realised capital gains: Accumulation and/or Distribution and/or Retention

Other information : Environmental, social and governance (ESG) criteria are integrated into management through an internal analysis and rating model that directly influences management without being a determining factor in decision-making

Recommended investment period: This UCI may not be suitable for investors planning to withdraw their contributions within 5 years.

Redemption option: Orders are executed as indicated in the table below

Business d	Day on which NAV is set (d)	Business d+1	Business d+2
Daily order reception and daily centralisation of redemption orders before 11:00 a.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Risk and reward profile

Explanation of the indicator and its main limitations:

The diversified exposure to the equity market, interest rate and currency risk explains the UCI's classification in this category. The historical data used may not provide a reliable indication of the UCI's future risk profile. We can give no assurance that the category displayed will not change, and the classification may change over time. The lowest category does not imply a risk-free investment. There is no capital guarantee.

Other material risk factors not incorporated into the indicator:

- **Credit Risk:** represents the potential risk that an issuer defaults or its creditworthiness declines, which would lead to a fall in the price of its securities and, hence, a decrease in the Fund's net asset value.
- **Risks associated with derivatives:** Use of complex products such as derivatives may increase losses.

The materialisation of one of these risks may result in a decline in the net asset value of the UCI. The other risks are stipulated in the prospectus.

Charges

The charges and fees paid are used to cover the UCI's operating expenses, including the costs of marketing and distributing its shares. These charges reduce the investments' potential growth.

Incidental costs collected before or after investment

Front-end load	4.00%
Back-end load	0%

The percentage indicated is the maximum percentage that may be applied to your capital before it is invested or before the proceeds of your investment are distributed. Investors may pay less in some cases. Investors may contact their advisor or distributor to find out the effective front-end and back-end load rates.

Charges collected by the UCI over a year

Ongoing charges	1.55*
-----------------	-------

Charges collected by the UCI under certain circumstances

Performance fee	None
-----------------	------

* The figure communicated is based on the fees charged for the previous financial year ended 30/10/2020. It may vary from one year to the next. The description includes direct and indirect costs.

For more information on fees, please refer to the charges and fees section of the prospectus for this UCI, available online at www.lazardfreresgestion.fr.

Ongoing charges do not include: performance fees and brokerage fees, except in the case of upfront or exit costs paid by the UCI when buying or selling units or shares in other collective investment vehicles.

Past performance

Past performance is not a reliable indication of future performance and is not constant.

Performance is calculated less the charges collected by the UCI.

Launch date of the UCI: 17/09/1985

Base currency: GBP

Benchmark indicator:

Refinitiv (ex. Thomson Reuters) Global Focus Convertible GBP Index
The benchmark is expressed in GBP.
Nets dividends or coupons are reinvested.

Practical information

Name of the custodian: CACEIS BANK.

Where and how to find out the net asset value: the net asset value is published daily in the offices of LAZARD FRERES GESTION SAS and on the internet www.lazardfreresgestion.fr.

Where and how to obtain information on the UCI: A full copy of the prospectus and the most recent annual and periodic statements may be obtained within eight business days by sending a request in writing to LAZARD FRERES GESTION SAS, 25, rue de Courcelles 75008 Paris France.

Taxation: depending on your tax status, you may be subject to tax on any capital gains and income derived from the ownership of units or shares. Investors are advised to discuss this with their advisor or distributor.

LAZARD FRERES GESTION SAS shall only be held liable for statements made herein that may be misleading, inaccurate or inconsistent with the corresponding sections of the UCI's prospectus.

LAZARD CONVERTIBLE GLOBAL

SICAV

This UCITS is managed by LAZARD FRERES GESTION SAS

FR0011575240 - K

Objective and Investment Policy

Investment objective: The investment objective is to achieve over the recommended investment horizon of 5 years, a return (net of charges) above the following benchmark: Refinitiv (ex. Thomson Reuters) Global Focus Convertible EUR Index. The benchmark is expressed in EUR. Nets dividends or coupons are reinvested.

Investment policy: Lazard Frères Gestion delegated the financial management of the Fund to Lazard Asset Management LLC New York. To achieve this objective, the SICAV is actively managed using a fundamental approach comprising several analysis phases: study of the economic environment with market expectations produced by the Economic Strategy department, financial analysis of companies issuing bonds and of underlying equities and analysis of the technical features of issuance contracts.

In this context, the manager must manage the SICAV's overall exposure to interest rates and equity markets. In addition to the characteristics of the portfolio assets (exposure, equities and sensitivity), the manager will use interest-rate and equity futures to increase or decrease the SICAV's sensitivity or exposure to the equity market. Furthermore, the SICAV will manage currency risk dynamically for shares that are not hedged against foreign exchange risk, in order to optimise performance in the medium term. The SICAV may also actively manage interest rates through active management of the modified duration (use of BOBL or bund futures, for instance).

The SICAV's portfolio comprises:

- European and foreign (including emerging) convertible bonds issued by companies and financial institutions, and similar instruments ("preferred convertibles"). These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds exchangeable for shares issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with share warrants issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with warrants for participating securities issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- Bonds whose value is indexed to a stock market index to a maximum of 15% of the net assets.

- French or foreign money-market, short-term money-market, bond or mixed UCITS or AIFs that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code Monétaire et Financier), up to a maximum of 10% of the net assets. These UCIs may be managed by the management company.
- Money market instruments (negotiable debt instruments, repurchase agreements, etc.) up to a maximum of 10% of the net assets. Equities up to a maximum of 10% of the net assets (excluding "preferred convertibles"). These shares will derive from the conversion of the convertible bonds shown in the portfolio.
- The SICAV may also hold other securities with embedded derivatives comprising up to 100% of the net assets.

The Fund may use futures, swaps, options and currency forward transactions on regulated, organised and/or OTC markets to hedge and/or expose the portfolio, up to the amount of the net assets, to equity, interest rate, currency, credit and volatility risk.

LAZARD CONVERTIBLE GLOBAL

SICAV

This UCITS is managed by LAZARD FRERES GESTION SAS
FR0014002P01 - RC H-CHF

Objective and Investment Policy

Investment objective: The investment objective is to achieve over the recommended investment horizon of 5 years a return (net of charges) above the following benchmark: Refinitiv (ex. Thomson Reuters) Global Focus Convertible Hedged CHF Index. The benchmark is expressed in CHF an index hedged against foreign exchange risk with the CHF as its base currency. Nets dividends or coupons are reinvested. The share's performance may be impacted by possible foreign exchange hedging costs.

Investment policy: Lazard Frères Gestion delegated the financial management of the Fund to Lazard Asset Management LLC New York. To achieve this objective, the SICAV is actively managed using a fundamental approach comprising several analysis phases: study of the economic environment with market expectations produced by the Economic Strategy department, financial analysis of companies issuing bonds and of underlying equities and analysis of the technical features of issuance contracts.

In this context, the manager must manage the SICAV's overall exposure to interest rates and equity markets. In addition to the characteristics of the portfolio assets (exposure, equities and sensitivity), the manager will use interest-rate and equity futures to increase or decrease the SICAV's sensitivity or exposure to the equity market. Furthermore, the SICAV will manage currency risk dynamically for shares that are not hedged against foreign exchange risk, in order to optimise performance in the medium term. The SICAV may also actively manage interest rates through active management of the modified duration (use of BOBL or bund futures, for instance).

The SICAV's portfolio comprises:

Nature of the rights attached to the UCI's shares	Each shareholder has an ownership right in and to the assets of the UCI in proportion to the number of shares owned.
Voting rights attached to the UCI's shares	Each shareholder is entitled to one vote for each share held.
Form of shares	Bearer or administered registered at the unitholder's discretion. The UCI is listed with Euroclear France.
Fractional or whole shares	The UCI's shares may be subscribed for and/or redeemed in whole number or can be splitted (see details in section 14. Features of the shares).
Financial year end	Last valuation day in October. Nevertheless, as an exception, 2015 shall include all transactions performed between January 1st, 2015 and the last trading day in October 2015, and as an exception shall comprise ten months.
First financial year end	Last valuation day in December 1986.
Taxation	The UCI is not subject to corporate income tax. However, its shareholders are liable for taxation on dividends that the SICAV distributes and on realised capital gains or losses. The tax treatment of sums distributed by the SICAV or the unrealised or realised capital gains or losses of the SICAV depends on the tax rules applicable to the particular circumstances of each subscriber and/or the SICAV's investment jurisdiction. If you are unsure of the tax rules applying to your particular circumstances, you should consult a professional adviser. The SICAV's "in" or "out" status as regards the investment thresholds of the EU directive on the taxation of savings is shown in the annual report.

Benchmark ESG investment universe	Outstanding international convertible bonds with a nominal value of more than USD 50 million and excluding bonds issued in the following currencies: CNY, TWD and KRW.	

1. Strategies used

The SICAV is actively managed using a fundamental approach comprising several analysis phases: study of the economic environment with market expectations produced by our Economic Strategy department, financial analysis of companies issuing bonds and of underlying equities and analysis of the technical features of issuance contracts.

To this end, the manager will manage the SICAV's overall exposure to interest rates and equity markets. In addition to the characteristics of the portfolio assets (exposure, equities and sensitivity), the manager will use interest-rate and equity futures to increase or decrease the SICAV's sensitivity or exposure to the equity market. Furthermore, the SICAV will manage currency risk dynamically for shares that are not hedged against foreign exchange risk, in order to optimise performance in the medium term.

The SICAV may also actively manage interest rates through active management of the modified duration (use of BOBL or bund futures, for instance).

The SICAV may use futures, swaps, options and forward foreign-exchange contracts on regulated, organised and/or OTC markets, up to the amount of the net assets (without overexposure), in order to hedge the portfolio and/or expose it to equity, interest rate, exchange rate, credit and volatility risk.

Extra-financial criteria

The integration of Environmental, Social and Governance (ESG) criteria is an integral part of our process of analysing the performance and risk potential of our investments. The management team uses sustainability scorecards produced by Lazard Asset Management and/or external service providers to identify the impact and ESG management of companies on various criteria, such as human resources and diversity management, resource intensity, supply chain management and board independence.

At least 90% of net assets will therefore be analysed from an extra-financial perspective. These ESG criteria are taken into account in investment choices and their weighting, without being a determining factor in this decision-making. In addition, the analyst-managers ensure that a synthetic average ESG rating is maintained that is better

than that of the investment universe. This weighted average rating will be based on the ratings assigned by the analyst-managers or, alternatively, those of our external service provider.

The methodology used to calculate indicators and the definition of the investment universe can be found on the management company's website.

Lazard Asset Management's Sustainable Investment and ESG Policy, available on the management company's website, describes its approach and commitment to integrating environmental, social and governance issues into investment processes in order to guarantee the interests of its clients and other relevant stakeholders, including the Fund. In particular, this Policy requires the asset manager to incorporate sustainability risks into its portfolio management in accordance with the SFDR or similar local regulations.

2. Assets (excluding embedded derivatives)

Equities: Shares in live securities (excluding "Preferred Convertibles") deriving from the conversion of one of the types of instrument defined below, to a maximum of 10% of net assets.

Debt securities and money market instruments:

- European and foreign (including emerging) convertible bonds denominated in euros and/or in local currencies issued by companies and financial institutions and equivalent ("Preferred Convertibles").
- European and foreign (including emerging) bonds exchangeable for shares denominated in euros and/or in local currencies issued by companies and financial institutions.
- European and foreign (including emerging) bonds with share warrants denominated in euros and/or in local currencies issued by companies and financial institutions.
- European and foreign (including emerging) bonds with warrants for participating securities denominated in euros and/or in local currencies issued by companies and financial institutions.
- Bonds whose value is indexed to a stock market index to a maximum of 15% of net assets.
- Up to 10% of net assets, may be invested in negotiable debt securities, repurchase agreements, etc.

UCI:

- French or foreign UCITS or AIFs that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (*Code Monétaire et Financier*): money-market, short-term money-market, bond or mixed funds, to a maximum of 10% of net assets.

These UCIs may be managed by the management company.

3. Derivatives

• Types of markets:

- ☒ regulated
- ☒ organised
- ☒ OTC

• The manager intends to seek exposure to:

- ☒ equities
- ☒ interest rates
- ☒ currencies
- ☒ credit

☒ other: volatility

• Types of transactions – all transactions must be limited to achieving the investment objective:

- ☒ hedging
- ☒ exposure
- ☐ arbitrage
- ☐ other

• Type of instruments used:

☒ futures:

- ☒ equity and equity index
- ☒ interest rate
- ☒ currency
- ☐ other

☒ options:

- ☒ equity and equity index
- ☒ interest rate
- ☒ currency
- ☐ other

☒ swaps:

- ☒ equity swaps
- ☒ interest rate swaps
- ☒ currency swaps
- ☐ performance swaps

☒ currency forwards

☐ credit derivatives

☐ other

• Strategy of use of derivatives to achieve the investment objective:

- ☒ partial or general portfolio hedging
- ☒ creating synthetic exposure to assets and risks
- ☒ increasing exposure to the market without leverage
- ☐ maximum permitted and sought
- ☐ other strategy

4. Securities with embedded derivatives

The manager may invest in all securities with embedded derivatives that are permitted under the management company's business plan, notably convertible bonds and warrants traded on regulated, organised and OTC markets, up to 100% of the net assets.

Within this framework, the manager may take positions with a view to hedging the portfolio against and/or exposing it to particular business sectors, geographic regions, shares (all capitalisation types), stocks and similar securities in order to achieve the investment objective.

5. Deposits

Up to 10% of the UCIs assets may be held in deposits.

6. Cash borrowings

The UCI may borrow cash within the limit of 10% of its assets to meet specific cash requirements related to its operating needs.

7. Temporary purchases and sales of securities

None

8. Information on financial guarantees

In connection with over-the-counter derivative transactions, and in accordance with Position paper 2013-06 issued by the French financial markets regulator (Autorité des Marchés Financiers- AMF), the UCI may receive collateral in the form of securities (such as bonds or other securities issued or guaranteed by a State or issued by international financing agencies and bonds or securities issued by high quality corporate issuers), or cash. Any cash collateral received is reinvested in accordance with the applicable rules. All such assets must be from high-quality issuers that are not an entity of the counterparty or its group, and must be liquid and diversified with low volatility. Discounts may be applied to the collateral received; they take into account the quality of credit and the price volatility of the securities.

9. Risk profile

Disclaimer

Your money will be mainly invested in financial instruments selected by the management company. These instruments will be exposed to market trends and fluctuations.

• Risk of capital loss

There is no guarantee of the UCI's performance or protection of capital. As such, the investor may not get back the full amount of the initial investment during redemption.

• Risk related to discretionary management

Discretionary management is based on anticipation of market trends. The UCI's performance is dependent both on the selection of securities and UCI picked by the manager and the manager's asset allocation. There is therefore a risk that the manager will not select the best performing securities and that the asset allocation is not optimal.

• Equity risk

Share price fluctuations may have a negative impact on the UCI's net asset value. The UCI's net asset value may decrease during periods in which the equity markets are falling.

• Interest rate risk

The risk of a decline in debt instruments as a result of changes in interest rates. This risk is measured by the level of sensitivity. For instance, bond prices tend to move in the opposite direction to interest rates. The net asset value may decline during periods when there is an increase (positive sensitivity) or decrease (negative sensitivity) in interest rates.

- **Credit risk**

The risk of a deterioration in the credit quality of or default by a public or private issuer. The UCI's exposure to issuers either through direct investment or via other UCI may give rise to a decline in the net asset value. If the UCI is exposed to unrated or speculative/high yield debt, the credit risk is high and may lead to a decline in the UCI's net asset value.

- **Foreign exchange risk (PC EUR, RC EUR, K, TC EUR, PD EUR, RD EUR, TC GBP, TD GBP, RC USD, RD USD et PC USD shares only)**

Investing in the fixed-income markets of countries outside the Eurozone generates exposure to foreign exchange risk and could lead to greater volatility.

- **Volatility risk**

As certain securities such as convertible bonds and derivative financial instruments traded OTC or on listed markets entail an option component, volatility fluctuations can lead to a decrease in the UCI's net asset value.

- **Derivative financial instrument risk**

The risk arising from the UCI's use of forward financial instruments (derivatives), which may lead to a bigger decrease in the net asset value than on the markets or in the underlying assets in which the UCI has invested.

- **Counterparty risk**

this type with one or more counterparties potentially exposes the UCI to a risk of insolvency of one or more of these counterparties, which could lead to default on payment and cause a decrease in the UCI's net asset value.

- **Emerging country risk**

The operational and supervisory standards applicable to emerging markets may differ from those on international markets, as a result there is a risk that this may affect the UCI's net asset value.

- **Sustainability risk**

Any environmental, social or governance event or situation that, if it occurs, could have an actual or potential negative impact on the value of the investment. Specifically, the negative effects of sustainability risks can affect issuers via a range of mechanisms, including: 1) lower revenues; 2) higher costs; 3) damage or impairment of asset value; 4) higher cost of capital; and 5) fines or regulatory risks. Due to the nature of sustainability risks and specific issues such as climate change, the likelihood of sustainability risks impacting returns on financial products is likely to increase in the longer term.

10. Guarantee or protection

None

11. Eligible subscribers and typical investor profile

All subscribers seeking to optimise their investments in fixed-income instruments.

Subscribers are strongly advised to diversify their investments sufficiently to avoid exposure solely to the risks of this UCI.

Information on US investors:

LAZARD CONVERTIBLE GLOBAL

The UCI is not registered as an investment vehicle in the United States and its units are not and will not be registered under the Securities Act of 1933 and, therefore, they may not be offered or sold in the United States to Restricted Persons, as defined hereafter.

A Restricted Person is (i) any person or entity located in the United States (including US residents), (ii) any corporation or any other entity subject to the laws of the United States or any state thereof, (iii) any US military personnel or any employee of a US government department or agency located outside the United States, or (iv) any other person that would be considered a US Person under Regulation S of the Securities Act of 1933, as amended.

FATCA:

Pursuant to the provisions of the Foreign Account Tax Compliance Act ("FATCA") applicable as of July 1st, 2014, if the UCI invests directly or indirectly in US assets, the capital and income arising from such investments may be subject to withholding tax of 30%.

To avoid paying the 30% withholding tax, France and the United States have entered into an intergovernmental agreement under which non-US financial institutions ("foreign financial institutions") agree to institute procedures for identifying direct or indirect investors who qualify as US taxpayers and to provide certain information about these investors to the French tax authorities, which will disclose said information to the US tax authority, the Internal Revenue Service.

As a foreign financial institution, the UCI undertakes to comply with the FATCA and to take all appropriate measures pursuant to the aforementioned intergovernmental agreement.

The amount that it is reasonable to invest in this UCI depends on each investor's personal circumstances. To determine this, investors should take account of their personal financial situation, current needs and the recommended investment period, and should also consider their ability to assume risk or whether they prefer instead to opt for a more cautious

This UCI may not be suitable for investors planning to withdraw their contributions within 5 years.

12. Allocation of distributable income

Distributable income consists of:

1) net income plus retained earnings, plus or minus the balance of the revenue adjustment account. Net income for the financial year is equal to the amount of interest, arrears, dividends, bonuses and prizes, directors' fees and all income generated by the securities that make up the UCIs portfolio, plus income generated by temporary cash holdings and minus management fees and borrowing costs.

2) realised capital gains, net of charges, minus realised capital losses, net of charges, recognised for the financial year, plus any net capital gains of the same kind recognised over previous years that have not been distributed or accumulated, plus or minus the balance of the capital gains adjustment account.

The amounts referred to in 1) and 2) may be distributed independently of each other, in whole or in part.

Share	Allocation of distributable income
RC EUR , RC H-EUR , RC USD , RC H-USD , RC H-SGD , RC H-HKD , PC EUR , PC H-EUR , PC H-CHF , PC USD , PC H-USD , PC H-GBP , TC EUR , TC GBP , RC H-CHF	All distributable income shall be fully accumulated, with the exception of those amounts subject to compulsory distribution by law

RD EUR , RD USD , RD H-USD , PD EUR , PD H-EUR , TD GBP	Net income is distributed in full and the allocation of net realised capital gains is decided each year by the shareholders' meeting. It may pay interim dividends.
T H-EUR , K	The allocation of distributable income is decided each year by the shareholders' meeting. It may pay interim dividends.

13. Frequency of distribution

Dividends may be distributed annually to shareholders, as appropriate, upon the decision of the shareholders' meeting called to approve the financial statements for the past financial year.

14. Characteristics of the shares (base currency, division of shares, etc.)

15. Terms and conditions of subscription and redemption

Subscription and redemption orders are accepted in amount and/or in shares.

Date and frequency of NAV calculation

The net asset value is calculated every day except Saturdays and Sundays, public holidays in one of the following countries: France, United-States.

The net asset value is not calculated on the closing days of one of the following stock exchanges: Paris, New-York.

Where and how to find out the net asset value: the net asset value is published daily in the offices of LAZARD FRERES GESTION SAS and on the internet www.lazardfreresgestion.fr.

Address of the institutions designated to receive subscription and redemption orders

CACEIS BANK - 1-3 place Valhubert - 75013 Paris

Bank and investment services provider accredited by the CECEI on April 1st, 2005.

LAZARD CONVERTIBLE GLOBAL

Investors are reminded that orders transmitted to distributors other than the institution referred to above must take into consideration the fact that the cut-off time for the processing of orders applies to the said distributors vis-à-vis the institution referred to above. Consequently, such distributors may apply their own cut-off time, which may be earlier than the cut-off time indicated above, in order to take into account the time required to transmit orders to the institution referred to above.

LAZARD FRERES BANQUE - 175 boulevard Haussmann - 75008 Paris

On behalf of clients for whom it provides custody account-keeping services

Orders are executed as indicated in the table below

Business d	Day on which NAV is set (d)	Business d+1	Business d+2	Business d+2
Daily order reception and daily centralisation of redemption orders before 11:00 a.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of subscription	Settlement of redemptions

Subscriptions preceded by a redemption received from the same shareholder on the same day for the same number of shares at the same NAV may be executed.

16. Fees and expenses

Subscription and redemption fees are respectively added to the subscription price paid by the investor or deducted from the redemption price paid. The fees earned by the UCI are used to cover the charges that it incurs in investing or divesting the assets under management. The remaining fees are paid to the management company, the distributor, etc.

Only the contributions payable for the management of the UCI pursuant to Article L. 621-5-3 II 4° d) of the French Monetary and Financial Code (Code monétaire et financier) and any exceptional legal costs related to debt recovery are outside the scope of the three blocks of charges referred to above.

Repurchase agreements are executed at market prices.

With the exception of brokerage fees, accounting management costs and custodians fees, all of the charges referred to above are levied as part of the joint venture arrangement between Lazard Frères Banque and Lazard Frères Gestion SAS which since 1995 has enabled them to pool their financial control, administration, and portfolio execution resources.

All revenue resulting from efficient portfolio management techniques, net of direct and indirect operating costs, is allocated to the UCI. All costs and expenses related to these management techniques are assumed by the UCI.

For further information, investors may refer to the management report.

17. Outline of the counterparty selection procedure

Lazard Asset Management selects brokers from a list of around 175 approved brokers covering all products and markets.

Acceptance of new brokers is subject to an assessment and approval process, including a review of the broker's solvency, financial strength and reputation within the financial community. Its financial statements and regulatory documents are also examined in the selection process. A recommendation is then submitted to the Operating Officer and the Compliance Officer for a final review.

Lazard Asset Management Broker Committee:

The Lazard Asset Management Broker Committee ratifies all decisions to authorise new intermediaries. It examines the brokers' performance and reviews the key service expectation criteria.

Brokers are rated according to the quality of their research and the trading services that they provide. At the end of the vote, recommendations are made on the allocation of commissions.

Twice a year, the Broker Committee oversees the broker voting process, which analysts, managers and traders take part in.

IV - SALES AND MARKETING INFORMATION

Publication of information about the	LAZARD FRERES GESTION SAS
	25, rue de Courcelles 75008 Paris France

UCI	Customer service - Monday to Friday - 9 to 18 Tel +33 (0)1 44 13 01 79
-----	--

Information regarding environmental, social and corporate governance (ESG) issues is available on the management company's website (www.lazardfreresgestion.fr) and will be included in the fund's annual report.

The management company may send, directly or indirectly, information on the composition of the UCI's assets to the UCI's shareholders for purposes related solely to shareholders' regulatory obligations. This information will be sent, where applicable, within a period not less than 48 hours after publication of the NAV.

Information in the event of a change in the operation of the UCI:

The shareholders shall be informed of any changes in the operation of the UCI in the press or by any other means in accordance with the prevailing regulations. This information may, where relevant, be provided through Euroclear France financial intermediaries affiliated with it.

Information about the use of investment decision-making support and order execution services (SADIE) can be found on the management company's website (www.lazardfreresgestion.fr).

V - INVESTMENT RULES

The UCI's investment rules are laid down in the French Monetary and Financial Code.

VI - AGGREGATE RISK

The aggregate risk is calculated using the commitment method.

VII - ASSET VALUATION AND ACCOUNTING RULES

1. ASSET VALUATION RULES

1.1. Financial instruments and securities traded on a regulated market are valued at their market price.

- **Shares and similar securities** are valued on the basis of the last known price on their main market.

If applicable, prices are translated into euros using the exchange rate prevailing in Paris on the valuation day (as published by WM Closing).

- **Fixed-income securities**

Fixed-income securities are for the most part marked to market based on either Bloomberg prices (BGN)[®] derived from averages of contributed prices, or on those of direct contributors.

There may be a discrepancy between the carrying amounts, valued as indicated above, and the actual disposal prices that would be obtained if a portion of these portfolio assets were to be sold.

- o **Bonds and similar instruments** are valued on the basis of the average of the closing prices gathered from several contributors.

Financial instruments whose prices have not been determined on the valuation date or whose prices have been adjusted are valued at their probable trading price under the responsibility of the shareholders' meeting. These estimates and their supporting documentation will be provided to the statutory auditor during audits.

However, the following instruments are valued using the following specific methods:

o **Negotiable debt securities:**

Negotiable debt securities are marked to market based on either Bloomberg prices (BVAL and/or BGN)[®] derived from averages of contributed prices, or on those of direct contributors.

There may be a discrepancy between the carrying amounts, valued as indicated above, and the actual disposal prices that would be obtained if a portion of these portfolio assets were to be sold.

The valuation of money market instruments complies with the provisions of Regulation (EU) 2017/1131 of 14 June 2017. Consequently, the UCI does not use the amortised cost method.

- **UCIs:** Units or shares of UCIs are valued at the last known net asset value. Units or shares of UCIs for which net asset values are published monthly may be valued on the basis of interim net asset values calculated from estimated prices.
- **Temporary purchases and sales of securities** - Securities purchased under repurchase agreements are valued at their contract price using an actuarial method with a benchmark rate (overnight Eonia, one- or two-week interbank rates, one- to 12-month Euribor) corresponding to the term of the contract.
- Securities sold under repurchase agreements continue to be valued at their market price. Liabilities on securities sold under repurchase agreements are calculated using the same method as that used for securities purchased under repurchase agreements.
- **Futures and options**
- Futures and options are valued on the basis of intraday trading prices the timing of which is based on that of the valuation of the underlying assets.
- Positions taken on the futures or options markets and over the counter are valued at their market price or at the value of the equivalent underlying asset.

1.2. Financial instruments and securities not traded on a regulated market

All of the UCI's securities are traded on regulated markets.

1.3. Valuation methods for off-balance sheet commitments

- Off-balance sheet transactions are valued at the commitment value.
- The commitment value for futures contracts is equal to the price (in the UCI's currency) multiplied by the number of contracts multiplied by the face value.
- The commitment value for options is equal to the price of the underlying security (in the UCI's currency) multiplied by the number of contracts multiplied by the delta multiplied by the face value of the underlying security.
- The commitment value for swaps is equal to the face value of the contract (in the UCI's currency).

2. ACCOUNTING POLICIES

The UCI complies with the accounting rules prescribed by current regulations, in particular the accounting standards applicable to UCIs. The financial statements are presented in accordance with the regulatory provisions governing the preparation and publication of financial statements of undertakings for collective investment.

- **Income from fixed-income securities**

- Income from fixed-income securities is recorded on the basis of accrued interest.

- **Management fees**

- Management fees are calculated on each valuation day.

- The annual management fee rate is applied to gross assets (equal to net assets before deduction of the day's management fees):

Gross assets less UCIs managed by Lazard Frères Gestion
x operating and management fees rate
x no. of days between the calculated NAV and the previous NAV
365 (or 366 in a leap year)

- These amounts are then recorded in the SICAV's income statement.

- The SICAV pays the operating fees, which include:

- . financial management;
- . administration and accounting;
- . custody services;
- . other operating fees;
- . statutory auditors' fees;
- . legal notices (Balo, Petites Affiches, etc.) if applicable.

These fees do not include transaction charges.

- **Transaction charges**

Transactions are recorded excluding charges.

- **Retrocessions received on management fees or entry charges**

The method used to calculate retrocession amounts is set out in the sales and marketing agreements.

- If the amount is significant, a provision is recognised in account 61719.
- The final amount is recognised upon settlement of invoices after reversal of any provisions.

Method related to swing pricing adjustments to net asset value (NAV) with a trigger level:

To avoid disadvantaging unitholders that remain in the Fund, a swing factor will be applied to subscriptions and redemptions that have a significant impact on the Fund's outstandings, which may generate costs for unitholders entering and leaving the Fund that would otherwise have been allocated across all unitholders in the Fund. Therefore, if, on a particular NAV calculation date, the total net subscription/redemption orders of investors across all categories of shares in the SICAV exceeds a threshold predetermined by the financial sub-manager on the basis of objective criteria and expressed as a percentage of the net assets in the SICAV, the NAV may be adjusted upwards or downwards to take account of the readjustment costs attributable to the net subscription/redemption orders. The NAV of each share category shall be calculated separately, but any adjustment shall have an identical impact, expressed as a percentage, on all of the NAV calculations of each share category in the SICAV. The cost parameters and trigger level shall be determined by the financial sub-manager and shall be reviewed periodically, and at least every six months. These costs shall be estimated by the management company based on transaction fees, bid/offer spreads and tax charges applicable to the SICAV. Insofar as this adjustment mechanism is linked to the net balance of subscriptions/redemptions within the SICAV, it is not possible to predict a given time in the future at which it will be applied. Consequently, neither is it possible to predict the precise frequency at which the financial sub-manager will have to make such adjustments, which shall not exceed 2,00% of the NAV. Investors should be aware that the volatility of the SICAV's NAV may not

reflect solely that of the securities in the portfolio arising from the application of swing pricing.

ARTICLES OF ASSOCIATION

LAZARD CONVERTIBLE GLOBAL

Registered office - 121 boulevard Haussmann - 75008 Paris
333 455 459 Paris Trade and Companies Register

Title I - Form - Object - Name - Registered offices - Term of the company

ARTICLE 1 - FORM

An investment company with variable capital (Société d'Investissement à Capital Variable - SICAV) shall be formed among the holders of shares created hereinafter and shares to be subsequently created. The Sicav shall be governed notably by the provisions of the French Commercial Code concerning limited companies (sociétés anonymes) (Book II – Title II – Chapter V), the French Monetary and Financial Code (), their implementing texts, subsequent texts and by these articles of association.

ARTICLE 2 - OBJECT

The purpose of this company is to set up and manage financial instruments and deposits.

ARTICLE 3 - NAME

The company's name is: Lazard Convertible Global followed by the notation “Société d'investissement à Capital Variable”, with or without the term “Sicav”.

ARTICLE 4 - REGISTERED OFFICES

The registered office is established at 121 boulevard Haussmann - 75008 Paris.

ARTICLE 5 - TERM

The company's term is 99 years, commencing from its registration with the Trade and Companies Register, except in the event that the Sicav is dissolved before the end of the term or extended pursuant to these regulations.

Title II - Capital - Changes in capital - Features of the shares

ARTICLE 6 - SHARE CAPITAL

LAZARD CONVERTIBLE GLOBAL

The initial capital totals FFR 123 000 000 divided into 12 300 fully paid-up shares, i.e. the equivalent of €18 751 350 divided into 12 300 fully paid-up shares of the same category of €1 524,50 each. It was created from cash payments.

The different share classes may:

- apply different dividend policies (distribution or accumulation);
- be denominated in different currencies;
- be subject to different management fees;
- be subject to different subscription and redemption fees;
- have a different par value;
- be systematically hedged, in full or in part, against risk as set out in the prospectus. This hedging is achieved through financial instruments that reduce to a minimum the impact of hedging transactions on the UCI's other share classes;
- be reserved to one or more distribution networks.

The shares may be combined or split upon the decision of the Extraordinary Shareholders' Meeting.

The shares may be sub-divided upon the decision of the board of directors into tenths, hundredths, thousandths or ten-thousandths, referred to as fractional shares.

The provisions hereof governing the issue and redemption of shares shall apply to fractional shares, the value of which shall always be proportional to the value of the share they represent. Unless otherwise stipulated, all other provisions of the articles of association relating to shares shall automatically apply to fractional shares.

ARTICLE 7 - CHANGES IN CAPITAL

The amount of capital may be changed as a result of the issue of new shares by the company and reductions following the redemption of shares by the company for shareholders who so request.

ARTICLE 8- ISSUE AND REDEMPTION OF SHARES

Shares may be issued at any time at the request of shareholders on the basis of the net asset value plus subscription fees, if any.

Redemptions and subscriptions shall be made under the conditions and in accordance with the procedures set out in the prospectus.

Redemptions may be made in cash and/or in kind. If the redemption in kind corresponds to a representative share of the assets in the portfolio, only the outgoing shareholder's written and signed agreement must be obtained by the UCI or management company. If the redemption in kind does not correspond to a representative share of the assets in the portfolio, all of the shareholders must provide their written signed agreement authorising the outgoing shareholder to obtain redemption of their shares against certain specific assets, as explicitly defined in the agreement.

As an exception to the foregoing, in cases where the UCI is an ETF, redemptions on the primary market may, if the portfolio management company agrees and provided that the interests of the shareholders are upheld, be made in kind under the conditions set out in the UCI's prospectus. The assets are then delivered by the issuer account keeper under the conditions set out in the UCI's prospectus.

Generally speaking, the redeemed assets are valued according to the rules set out in Article 9, and redemption in kind is based on the first net asset value following acceptance of the instruments in question.

All subscriptions to new shares must, under pain of being declared void, be fully paid up and the shares issued shall have the same dividend date as that of the existing shares on the issuance date.

Pursuant to Article L. 214-7-4 of the French Monetary and Financial Code, redemption by the company of its shares, and the issue of new shares, may be temporarily suspended by the board of directors in exceptional circumstances and if required in the interests of shareholders.

No shares may be redeemed if the net assets of the Sicav are less than the regulatory amount.

Pursuant to Article L. 214-7-4 of the French Monetary and Financial Code and Article 411-20-1 of the General Regulation of the French financial markets regulator (Autorité des Marchés Financiers - AMF), the management company may decide to put a cap on redemptions if warranted by exceptional circumstances and in the interest of the shareholders and the general public.

The method used for this capping mechanism and the measures for informing the shareholders must be described in detail.

Minimum subscription conditions may apply, as set out in the prospectus.

The UCI may cease to issue shares on a temporary or permanent basis, in part or in full, pursuant to the provisions set out in the third paragraph of Article L. 214-7-4 of the French Monetary and Financial Code, in objective situations that warrant the closure of subscription such as cases where the maximum number of issued shares has been reached, the maximum amount of assets has been reached, or the subscription period has expired. If such partial or full closure is activated, the existing shareholders must be informed by all available means, including details of the threshold and objective situation that triggered the decision. In the case of partial closure, the existing shareholders must also be informed in detail of the methods by which they can continue to subscribe during this partial closure period. The shareholders must also be informed by all available means if the UCI or management company decide to discontinue the full or partial subscription closure period (when the activation threshold is no longer exceeded) or continue the closure period (change in the threshold or the objective situation that warranted implementation of the measure). Any change in the specified objective situation or in the activation threshold must always be in the interest of the shareholders. The existing shareholders must be informed by all means of the exact reasons for such changes.

ARTICLE 9 - CALCULATION OF NET ASSET VALUE

The net asset value of the shares is calculated according to the valuation rules set out in the prospectus.

Further, if the shares are listed for trading, the exchange operator will calculate an instant indicative net asset value.

Contributions in kind may consist only of securities, stocks or contracts that are eligible to form the assets of UCITS; they are valued according to the valuation rules used to calculate the net asset value.

ARTICLE 10- FORM OF THE SHARES

The shares may have the form of bearer or registered shares, as selected by the subscriber.

Pursuant to Article L. 211-4 of the French Monetary and Financial Code, the securities must be registered in accounts kept by the issuer or an authorised intermediary, as the case may be.

Holders' rights will be represented by an entry in an account their name:

- with the intermediary of their choice for bearer securities;
- with the issuer and, if they so wish, with the intermediary of their choice for registered securities.

The company may, at its own expense, request the name, nationality and address of the Sicav's shareholders, as

well as the number of securities held by each of them, in accordance with Article L. 211-5 of the French Monetary and Financial Code.

ARTICLE 11 - ADMISSION TO TRADING IN A REGULATED MARKET AND/OR A MULTILATERAL TRADING SYSTEM

The shares may be admitted to trading in a regulated market and/or a multilateral trading system, depending on the applicable regulations.

If the Sicav whose shares are admitted to trading in a regulated market, has an investment objective based on an index, it must have set up a system to ensure that its share price does not deviate significantly from its net asset value.

ARTICLE 12 - RIGHTS AND OBLIGATIONS ATTACHED TO THE SHARES

Each share confers the right, in proportion to the fraction of the share capital represented, to a share in the ownership of the company's assets and of the company's profits.

The rights and duties attached to a share shall be transferred to any owner thereof.

Whenever the exercise of a right is conditional upon a certain number of shares being held and specifically in the case of a swap or consolidation of shares, holders of individual shares or of less than the required number of shares may only exercise such rights if they personally undertake to consolidate their holdings and, if applicable, to buy or sell the necessary quantity of shares.

ARTICLE 13 - INDIVISIBILITY OF SHARES

All co-owners of shares or assignees are required to be represented with the company by a single person named by mutual agreement or, failing such agreement, appointed by the Chief Judge of the Commercial Court with jurisdiction for the registered offices.

Holders of fractional shares may consolidate their holdings. In this case, they must be represented as set out above, by a single person who shall perform, for each group, all of the rights attached to the ownership of the entire share.

In cases where beneficial ownership and bare ownership are separated, the division of voting rights at shareholders' meetings between the beneficial owner and the bare owner is left to the discretion of the parties concerned, who should inform the company accordingly.

Title III - Administration and management of the company

ARTICLE 14 - ADMINISTRATION

The company is administered by a board of directors with at least three and no more than 18 members, appointed by the shareholders' meeting.

During the life of the company, the directors shall be appointed or re-appointed by the ordinary shareholders' meeting.

The directors of the company may be natural persons or legal entities. In the case of a legal entity, on appointment, they must designate a permanent representative who is subject to the same conditions and obligations and bears the same civil and criminal liability as if they themselves were a member of the board of directors, without prejudice to the liability of the legal entity they represent.

This permanent mandate is given for the duration of the legal entity's own mandate. If the legal entity terminates the appointment of its representative, it must notify the Sicav immediately by registered mail and also inform the Sicav of the identity of its new permanent representative. The same shall apply in the event of the death, resignation or extended impediment of the permanent representative.

ARTICLE 15 - TERM OF OFFICE OF DIRECTORS -REPLACEMENT OF THE BOARD

Subject to the provisions of the final paragraph of this article, the directors' term of office is three years for initial directors and up to six years for subsequent directors, with each year being understood as the period between two consecutive annual shareholders' meetings.

If one or more directors' seats become vacant between two shareholders' meetings as a result of death or resignation, the board of directors may make interim appointments.

A director appointed by the board on an interim basis to replace another shall remain in office only for the remaining term of office of his predecessor. This appointment shall be subject to ratification at the next shareholders' meeting.

All directors shall be eligible for re-election. They may be dismissed at any time by the ordinary shareholders' meeting.

Each director's term of office shall expire at the close of the ordinary shareholders' meeting called to approve the financial statements for the past financial year and held in the year during which the director's term of office expires, it being understood that, if the meeting is not held in that year, the term of office of the director concerned shall expire on December 31st of the same year, subject to the exceptions hereafter.

All directors may be appointed for a term of less than six years where necessary to ensure that changes are made as regularly as possible and that all members have changed by the end of each six-year period. This is notably the case if the number of directors is increased or decreased and the renewal frequency has been affected.

Where the number of members of the board of directors falls below the legal minimum, the remaining member or members must immediately call an ordinary shareholders' meeting in order to fill the vacant seats on the board.

The age limit for members of the board of directors is set at 80. Nevertheless, directors older than this age limit may in exceptional cases have their mandate renewed for a period of six years; no more than three directors may be renewed under these conditions.

The board of directors may be renewed by rotation.

In the event of the resignation or death of a director, and where the number of directors still in office is equal to or greater than the statutory minimum, the board may appoint a temporary replacement for the remaining term of office.

ARTICLE 16 - BUREAU OF THE BOARD

The board shall elect a chairman from among its members for a term determined by it, but which may not exceed

the chairman's term of office as a director. The chairman must be an individual.

The chairman of the board of directors shall organise and direct the board's activities, and shall report on these to the shareholders' meeting. The chairman shall oversee the smooth operation of the company's management bodies and in particular shall ensure that the directors are capable of fulfilling their duties.

If he considers it appropriate, he shall also appoint a vice- chairman and may also choose a secretary, who need not be member of the board.

In the event of the temporary incapacity or death of the chairman, the board of directors may agree to delegate the chairman's functions to a director.

ARTICLE 17- BOARD MEETINGS AND DELIBERATIONS

The board of directors shall meet when convened by the chairman, as often as the company's interests require, either at the registered offices or at any other location indicated in the notice of meeting.

Whenever the board has not met for more than two months, at least one-third of its members may ask the chairman to convene a meeting based on a specific agenda. The chief executive officer may also ask the chairman to convene a board of directors' meeting to deal with a specific agenda. The chairman is bound by such a request.

Company bylaws may determine, in accordance with legal and regulatory provisions, the conditions for organising meetings of the board of directors, which except when held for the adoption of resolutions that are expressly excluded from this option under the French Commercial Code, may take place via video-conference.

Invitations may be sent to the directors by post or verbally.

A quorum of at least half the members is required in order for decisions to be valid. Decisions are adopted by a majority vote of members present or represented. Each director holds one vote. In the case of a split-vote, the chairman has the casting vote.

Where video-conferencing is permitted, the company's bylaws may stipulate, in accordance with the regulations in force, that directors participating in a board of directors' meeting via video-conference are deemed present for the purpose of quorum and majority calculations.

ARTICLE 18 - MINUTES

Minutes are written up and copies or excerpts of decisions are issued and certified as required by law.

ARTICLE 19- POWERS OF THE BOARD OF DIRECTORS

The board of directors steers the company's activity and oversees correct execution. Within the limits of the corporate object and subject to the powers expressly granted by law to shareholders' meetings, the board shall consider any issue that affects the proper operation of the company and settle any matters concerning the company through its decisions

The board of directors shall carry out such controls and audits that it considers appropriate. The chairman or the chief executive officer is required to provide each director with all documents and information needed to perform his or her duties.

A director may authorise another director to represent him at a meeting of the board of directors under the conditions established by law. Each director shall have only one such power of attorney during a single session.

The provisions set out above shall apply to permanent representatives of directors who are legal entities.

ARTICLE 20 - EXECUTIVE MANAGEMENT - NON-VOTING BOARD MEMBERS

The executive management of the company shall be the responsibility of the chairman of the board of directors or of another natural person appointed by the board of directors and holding the title of chief executive officer.

The choice of these two methods shall be made in accordance with the terms of these articles of association by the board of directors for a term that shall run until the expiry of the functions of the current chairman of the board of directors. Shareholders and third parties shall be informed of this choice under the conditions defined by the applicable legislative and regulatory provisions.

Based on the board of directors' choice as stipulated above, the company will be managed by either the chairman or a chief executive officer.

When the board of directors decides to separate the functions of chairman and chief executive officer, it shall appoint a chief executive officer and shall decide on his/her term of office.

If the chairman of the board of directors assumes responsibility for the executive management of the company, the following provisions regarding the chief executive officer shall apply.

Subject to the powers expressly attributed by law to shareholders' meetings as well as those specifically reserved by law to the board of directors, and within the limits of the corporate purpose, the chief executive officer is vested with the broadest powers to act in all circumstances on behalf of the company. He shall exercise these powers within the limits of the corporate object and subject to the powers expressly attributed by law to shareholders' meetings and the board of directors. He shall represent the company in its dealings with third parties.

The chief executive officer may authorise any partial delegation of his powers to any person of his choice.

The chief executive officer may have his/her appointment revoked at any time by the board of directors.

At the request of the chief executive officer, the board of directors may appoint up to five deputy chief executive officers to assist the chief executive officer. Deputy chief executive officers may be removed from office at any time by the board upon the recommendation of the chief executive officer.

In agreement with the chief executive officer, the board shall determine the scope and duration of the powers delegated to deputy chief executive officers.

Such powers may include a right of partial delegation. If the chief executive officer resigns or is dismissed or is unable to perform his duties, the deputies shall retain their powers and positions, unless the board decides otherwise, until the appointment of a new chief executive officer.

Deputy chief executive officers shall have the same powers vis-à-vis third parties as the chief executive officer.

The age limit of the chief executive officer and deputy chief executive officers is set at 80.

The shareholders' meeting may appoint one or more non-voting board members.

The term of office for non-voting board members shall be a maximum of six years. It shall expire at the close of

the ordinary shareholders' meeting called to approve the financial statements for the past financial year and held in the year during which the non-voting board members' term of office expires.

Non-voting board members may be re-elected at any time without limitation; they may be removed from office at any time upon the decision of the shareholders' meeting.

In the event of the death or resignation of one or more non-voting board members, the board of directors may co-opt their successor(s), this provisional appointment being subject to ratification at the next shareholders' meeting.

Non-voting board members are responsible for ensuring the strict enforcement of the articles of association. They attend the board of directors meetings and hold a consultative role. They examine statements of assets and liabilities and the annual financial statements and offer their comments on these matters to the shareholders' meetings when they consider it appropriate to do so. Remuneration of non-voting board members is decided upon by the board.

ARTICLE 21 - BOARD ALLOCATIONS AND REMUNERATION

Directors may be allocated an annual lump sum for attendance at board meetings, the amount of which shall be determined by the ordinary shareholders' meeting. This amount, which shall be charged to overheads, shall remain unchanged until further decision.

The board shall divide this remuneration among its members as it sees fit.

The chairman's and the chief and deputy chief executive officer(s)' remuneration shall be set by the board of directors. Remuneration may be fixed or both fixed and variable.

The board of directors may also allocate special payments for tasks and duties assigned to directors; any such payments will be charged to operating expenses and subject to the approval of the ordinary shareholders' meeting.

No other permanent or other type of remuneration may be allocated to the directors unless they hold an employment contract with the company under the conditions set out by law.

ARTICLE 22 - CUSTODIAN

The custodian is appointed by the board of directors.

The custodian performs the tasks for which it is responsible under applicable laws and regulations as well as those assigned to it contractually by the Fund or the management company.

In particular, the custodian must ensure that the decisions of the management company are lawful. It shall take any protective measures it considers appropriate.

In the event of a dispute with the management company, it shall inform the AMF.

ARTICLE 23 - PROSPECTUS

The board of directors or, where the Sicav has delegated full responsibility for management, the management company, has all necessary powers to make, as needed, any amendments to the prospectus to ensure the proper management of the company, pursuant to the legislative and regulatory provisions specific to Sicavs.

Title IV - Statutory auditors

ARTICLE 24 - APPOINTMENT - POWERS - REMUNERATION

The statutory auditor is appointed by the board of directors for a term of six financial years, following AMF approval, from among persons authorised to perform such duties in commercial companies.

The statutory auditor shall certify that the financial statements give a true and fair view of the company.

The statutory auditor's term may be renewed.

The statutory auditor has a duty to report promptly to the AMF any fact or decision concerning the Fund of which he has become aware in the course of his duties and which is liable to:

1. Constitute a breach of the laws or regulations that apply to that body that is likely to have a significant impact on its financial situation, profits or assets;
2. Affect the conditions or the continuity of its operations;
3. Lead to the expression of reservations or the refusal to certify the financial statements.

The statutory auditor shall oversee the valuation of assets and the calculation of exchange ratios used in the event of a conversion, merger or split.

The statutory auditor shall assess any contribution in kind under his own responsibility.

He shall verify the accuracy of the composition of assets and other information prior to publication.

The statutory auditor's fees shall be set by mutual agreement between the statutory auditor and the SICAV's board of directors, on the basis of a work schedule setting out the procedures deemed necessary.

The statutory auditor shall certify the positions used as the basis for the distribution of interim dividends.

Title V - Shareholder's meetings

ARTICLE 25 - SHAREHOLDER'S MEETINGS

Shareholders' meetings shall be convened and shall deliberate under the conditions provided for by law.

The annual shareholders' meeting, which must approve the company's financial statements, must be held within four months of the close of the financial year.

Meetings shall be held either at the registered offices or at any other location specified in the notice of meeting.

Each shareholder may participate in the Shareholders' Meetings, either in a personal capacity or by appointing another person as proxy, subject to proof of identity and share ownership either in the form of registration in the registered share accounts held by the company or of registration in the bearer securities registry, at the places specified in the notice of meeting; these formalities must be completed two days before the meeting date.

A shareholder may be represented at a meeting in accordance with Article L. 225-106 of the French Commercial

Code.

A shareholder may also vote by correspondence under the conditions set out in the regulations in force.

Shareholders' meetings shall be chaired by the chairman of the board of directors or, in his absence, by a vice-chairman or a director appointed by the board for that purpose. Failing this, the shareholders' meeting shall elect the chairman itself.

Minutes of meetings shall be written up and copies certified and issued as required by law.

Title VI - Annual financial statements

ARTICLE 26 - FINANCIAL YEAR

The company's financial year begins on the day after the last trading day in Paris in October and ends on the last trading day in Paris of the same month in the following year.

Nevertheless, as an exception, 2015 shall include all transactions performed between January 1st, 2015 and the last trading day in October 2015, and as an exception shall comprise ten months.

ARTICLE 27 - ALLOCATION OF DISTRIBUTABLE INCOME

Distributable income consists of:

- 1) net income plus retained earnings, plus or minus the balance of the revenue adjustment account. Net income for the financial year is equal to the amount of interest, arrears, dividends, bonuses and prizes, directors' fees and all income generated by the securities that make up the UCI's portfolio, plus income generated by temporary cash holdings and minus management fees and borrowing costs.
- 2) realised capital gains, net of charges, minus realised capital losses, net of charges, recognised for the financial year, plus any net capital gains of the same kind recognised over previous years that have not been distributed or accumulated, plus or minus the balance of the capital gains adjustment account.

The amounts referred to in 1) and 2) may be accumulated and/or distributed and/or retained independently of each other, in whole or in part.

Details of the relevant process are provided in the prospectus under the section entitled "Allocation of distributable income".

Title VII- Extension -Dissolution -Liquidation

ARTICLE 28 - EXTENSION OR EARLY DISSOLUTION

The board of directors may, at any time and for any reason, recommend the extension, early dissolution or liquidation of the Sicav to an extraordinary shareholders' meeting.

This issue of new shares and the redemption by the Sicav of shares for shareholders who so request shall cease

on the date of publication of the notice of the shareholders' meeting at which a resolution for the early dissolution or liquidation of the company is considered, or at the end of the company's term.

ARTICLE 29 - LIQUIDATION

At the end of the term set by the articles of association or in the case of a resolution for early dissolution, the shareholders' meeting shall decide, on the recommendation of the board of directors, the method of liquidation and shall appoint one or more liquidators.

Liquidation procedures are established in accordance with Article L. 214-12 of the French Monetary and Financial Code.

The liquidator shall represent the company. The liquidator is authorised to pay the creditors and divide out the available balance. The appointment of the liquidator shall terminate the powers held by the directors, but not those held by the statutory auditor.

The liquidator may, pursuant to a resolution of the extraordinary shareholders' meeting, contribute all or part of the assets, rights and obligations of the dissolved company to another company, or transfer such assets, rights and obligations to a company or to any other person.

The net proceeds from the liquidation, after settlement of liabilities, shall be distributed in cash or securities among the shareholders.

During the liquidation process, the duly constituted shareholders' meeting shall retain the same authority as during the life of the company, including in particular the power to approve the liquidation accounts and discharge the liquidator.

Title VIII - Disputes

ARTICLE 30 - JURISDICTION ADDRESS FOR SERVICE

Any disputes that may arise during the company's operations or at the time of its liquidation, either between shareholders and the company or among the shareholders themselves, concerning the business of the company, shall be judged in accordance with the law and submitted to the courts with jurisdiction.
