

William Blair SICAV Global Leaders Sustainability Fund

Investors should note that, relative to the expectations of the Autorité des Marchés Financiers, the name of this UCITS is disproportionate to the consideration of non-financial criteria in its investment policy.

OBJECTIVE

Capital appreciation

CHARACTERISTICS

The Fund seeks to invest in companies around the world with above-average returns on equity, strong balance sheets and consistent, above-average earnings growth, resulting in a focused portfolio of leading companies.

WHY CONSIDER THIS FUND?

- Systematically integrates ESG considerations in the investment process
- High quality focus emphasizing long term sustainable value creation
- Active, fundamental research-driven
- The Fund is actively managed and is not constrained by a benchmark

RISKS

- The value of shares can increase or decrease and an investor may not get back the amount originally invested
- Where investments are made in currencies other than an investor's base currency, the value of those investments will be affected (favourably or unfavourably) by movements in exchange rates
- Equity securities may decrease in value in response to the activities of an individual company or in response to general market, business, and economic conditions
- International investments typically involve special risk considerations, including higher volatility, lower liquidity, economic and political risk

Past performance is not necessarily a guide to future performance. Returns for periods of one year or more are annualized. All charges and fees, except any entry, exit and switching charge, have been taken into account in calculating the Fund's performance. Returns for other share classes will differ from those shown above. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than the original cost. Levels and bases for taxation may change. For the most current month-end performance information, please visit our web site at sicav.williamblair.com.

1 The MSCI All Country World IMI Index (net) is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. This series approximates the minimum possible dividend reinvestment. For more information on the index, please visit the website at www.msci.com.

2 Top ten holdings are shown as % of total net assets. Sector and market cap diversification exclude cash equivalents. Sector diversification calculated by William Blair based on Global Industry Classification Sectors (GICS). Market capitalization and geographic distribution are calculated by William Blair. Weights shown are percentages of total net assets. Sector weights may vary over time as benchmark index weights shift.

3 Information about the Fund's holdings should not be considered investment advice. There is no guarantee that the Fund will continue to hold any one particular security or stay invested in any one particular sector. Holdings are subject to change at any time.

* These amounts are calculated using float-adjusted market capitalizations.
