

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

UBAM - Multifunds Secular Trends, a sub-fund of UBAM

Class: KHC EUR (Capitalisation) LU2002000631

UBAM is a SICAV managed by UBP Asset Management (Europe) S.A.

Objectives and investment policy

The Fund seeks to grow capital and generate income primarily by investing in regulated UCITS and non-UCITS funds which have as investment objective to mainly invest in equities and other similar transferable securities with no restrictions about region, country (including Emerging countries), industry sector or capitalization. The non UCITS funds will be submitted to a regulatory supervision equivalent to a UCITS.

The Fund aims to invest in a range of themes having the potential to have a material effect on the world and financial landscapes with long-term and lasting effects (secular trends). These trends can be related to climate change, demographics, consumption patterns and disruptive innovation (technology or business model whose application significantly affects the way a market or industry functions), although this list is not intended to be exhaustive.

The Fund is actively managed and well diversified, mainly investing in securities denominated in US Dollars, but some foreign currency exposure may be taken. These investments may or may not be hedged at the investment manager discretion.

On an ancillary basis, the Fund may also invest in liquid assets as well as derivative instruments for hedging purposes.

The Fund can invest in Contingent Convertible bonds ("CoCos"), through funds which invest on an ancillary basis in CoCos.

The Fund uses the MSCI AC World Net Return Index ("the Benchmark") for performance comparison. The Benchmark is representative of the Fund's risk profile and the portfolio's investments will deviate materially from the Benchmark's constituents in respect to countries, sectors, issuers and instruments, in order to take advantage of specific investment opportunities.

The Fund's value is calculated and expressed in US Dollars.

The currency risk in relation to the base currency USD is mainly hedged.

Investors in the Fund can subscribe and redeem units on any business day in Luxembourg.

Details of the closing days are available here:

<https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

The recommended holding period is minimum five years.

As a Fund of equity funds, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

Any income received by the Fund is reinvested (capitalisation share class).

Risk and reward profile

With lower risk, With higher risk,

←—————→

potentially lower rewards potentially higher rewards

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk category 6 reflects a very high potential gain and/or loss in the value of the portfolio.

This is due to investments in equities or bonds through funds on the worldwide market.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Counterparty risk: As the Fund uses over-the-counter derivatives, there is a risk that the counterparty to the transactions will wholly or partially fail to honour its contractual obligations. This may result in a financial loss to the Fund.

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

Emerging country risk: The Fund invests in overseas countries which carry a higher risk than investing in larger established countries. Investments in Emerging countries are likely to experience greater rises and falls in value. Emerging countries are also more likely to experience political and/or legal uncertainty and investments held in these countries may not have the same protection as those held in more developed countries. The Fund may invest via the Shanghai Hong Kong Stock Connect (HKSC). It means that the Fund will be subject to rules and regulations issued/amended by HKSC particularly about quota limitation and trading suspension. When using the HKSC the Fund will be subject to operational risk, clearing settlement and custody risk.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	2.01%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower. Your financial advisor or distributor can inform you of the associated entry and exit charges.

Ongoing charges are based on the charges for the previous year, ending on 31 December 2021. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another fund.

For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at www.ubp.com.

Past performance

The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund.

Fund creation date: 12/07/2019

Share class launch date: 12/07/2019

Prior 2021, there was no Benchmark.
