LONG TERM INVESTMENT FUND (SIA)

Notes to the financial statements as at June 30, 2021

NOTE 1

GENERAL

LONG TERM INVESTMENT FUND (SIA) (the "SICAV") is an open-ended investment company of the umbrella type organised as a "*société anonyme*" under the laws of the Grand Duchy of Luxembourg and qualifies as a *Société d'Investissement à Capital Variable* ("SICAV") under Part I of the Luxembourg amended law of December 17, 2010 (the "2010 Law") regarding undertakings for collective investment ("UCIs"), whose object is to invest in transferable securities under the principle of risk spreading in accordance with, and as more fully described in, its Articles of Incorporation and the current Prospectus.

The SICAV was incorporated for an indefinite period on February 2, 2006, with an initial capital of EUR 31,000 and its Articles of Incorporation were published in the *Mémorial C, Recueil Spécial des Sociétés et Associations* of the Grand Duchy of Luxembourg on August 30, 2006. They were last amended on November 15, 2017 and published in the *the Recueil Electronique des Sociétés et Associations* ("RESA").

A legal statement giving notice of the issue and sale of shares by the SICAV has been filed with the Trade and Companies Register of Luxembourg.

The SICAV is registered at the Trade and Companies Register of Luxembourg under the number B113981.

The SICAV is divided into several sub-funds. Each sub-fund is governed by a specific investment policy and is denominated in a specific currency.

FundPartner Solutions (Europe) S.A., a public limited company (*société anonyme*) with registered office at 15, avenue J.F. Kennedy, L-1855 Luxembourg, was appointed management company of the SICAV as of January 1, 2013. It is a management company within the meaning of Chapter 15 of the 2010 Law.

d) Pooling

The SICAV makes use of pooling for the purpose of efficient management of assets.

The investment portfolio of the LONG TERM INVESTMENT FUND (SIA) - CLASSIC and LONG TERM INVESTMENT FUND (SIA) - STABILITY sub-funds are managed jointly in a single pool of investments.

However this pool is used exclusively for the purpose of internal management. It is not an individual legal entity and is not directly accessible to investors. Each co-managed sub-fund will have its own assets allocated to it.

When the assets of a sub-fund are managed according to this technique, the assets initially attributable to each co-managed sub-fund are determined according to its initial contribution to the pool. Subsequently, the composition of these assets shall vary according to the contributions or withdrawals made by these sub-funds.

The allocation system described above applies to each holding in the pool. Henceforth, any additional investments made on behalf of the co-managed sub-funds are attributed to these sub-funds according to their respective rights, while any assets sold shall be deducted in the same way from the assets attributable to each of the co-managed sub-funds.

Dividends, interest and non-contractual fees are accounted for in the pool and prorated to each sub-fund on the date these operations are recorded (expense provisions, recording of expenses and/or income on bank accounts). Conversely, contractual fees (Depositary Bank, administration, management fees, etc.) are recorded directly in the respective sub-funds.

The assets and liabilities attributable to each sub-fund are identifiable at any given moment.

LONG TERM INVESTMENT FUND (SIA)

Notes to the financial statements as at June 30, 2021 (continued)

The realised gain/loss and/or unrealised appreciation/depreciation on investments are recorded in the pool in the reference currency of the said pool. They are then recorded in each sub-fund on the basis of its participation in the pool.

The statement of net assets and the statement of investments and net assets show the situation of the portfolio on the closing date of the period based on the sub-fund's participation in the pool as at closing date.

The data recorded in the statement of operations and changes in net assets under "Net realised gain/loss on pool - pooling effect" represent:

- the currency effect due to differences between the exchange rates used as at the closing date and those used at each NAV calculation;
- the effect of the difference between the percentage participation in the pool(s) as at the closing date and the percentage participation applicable as at each NAV calculation.
