

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Class: RC USD (Capitalisation) LU1861454616

UBAM is managed by UBP Asset Management (Europe) S.A.

The Fund seeks to grow capital and generate income by investing primarily up to 100% in worldwide hybrid securities such as:

- Contingent Convertible bonds ("Cocos") with specific loss-absorbing mechanisms including permanent write-down, temporary writedown or conversion into equity
- Hybrid securities such as financial and non-financial subordinated debt.

The Fund is actively managed.

The Fund is allowed to invest without limits in currencies other than its base currency (USD) but the currency risk is limited to 10% of its net assets.

A minimum of 50% of the bond investments will be in issuers deemed to maintain sustainable characteristics with a minimum Environmental, Social and Governance (ESG) rating of BBB for developed market issuers and BB for emerging market issuers as measured by MSCI ESG research or if such rating is not available an equivalent internal rating assigned by the Investment Manager. ESG investment strategy is based on three pillars: (i) Sector exclusion according to the UBP Responsible Investment policy; (ii) ESG integration to select issuers through the analysis of ESG and financial factors; (iii) a preference for Green, Social and Sustainability bonds.

The Fund uses the index ICE BofA Contingent Capital Index (the "Benchmark") for risk monitoring. The Fund's investment objective does not aim to replicate this Benchmark nor to define the Fund's investment universe. The Fund's performance is likely to be significantly different from that of the Benchmark because the Investment Manager has significant discretion to deviate from the Benchmark's constituents in respect to countries, sectors and issuers, in order to take advantage of specific investment opportunities.

The Fund may invest its net assets up to:

- 100% in High yield
- 100% in Cocos
- 30% in Emerging countries (including China through Bond Connect)
- 10% in equity including equity derivatives.

Cocos will have a minimum rating of B- (or equivalent), will be issued by banks whose parent company has a minimum balance sheet of USD 100 billion and whose parent company is domiciled in countries rated with a minimum rating of BB- (or equivalent).

High yield rated securities and higher risk bonds are issued by entities whose activity is more sensitive to the economic cycle and therefore pay a higher interest rate than investment grade bonds to compensate for the increased risk.

The Fund's base currency is USD.

The minimum initial investment is USD 50'000 or equivalent.

Any income received by the Fund is reinvested (capitalisation share class).

Investors in the Fund can subscribe and redeem units on any business day in Luxembourg except days where the decisive markets are closed: United States (US), United Kingdom (UK) and Eurex.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

The recommended holding period is minimum 3 years.

With lower risk, ← ————— → With higher risk,
potentially lower rewards potentially higher rewards

This indicator represents the annual historical volatility of the Fund over a 3-year period.

Risk Category 4 reflects average/moderate potential gain and/or loss in the value of the portfolio.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Bond Connect risk: Investment through Bond Connect is subject to additional risks mainly regulatory and tax.

Counterparty risk: The use of over-the-counter derivatives exposes the Fund to a risk that the counterparty to the transactions will fully or partially fail to

honour its contractual obligations. This may result in a financial loss for the Fund

Credit risk: The Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

Emerging countries risk: The Fund invests in overseas countries which carry a higher risk than investing in larger established countries. Investments in Emerging countries are likely to experience greater rises and falls in value and may suffer trading problems. A Fund which invests in Emerging countries rather than more developed countries may encounter difficulties when buying and selling investments. Emerging countries are also more likely to experience political uncertainty and investments held in these countries may not have the same protection as those held in more developed countries.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to trade at advantageous times or prices.

Political and Social risk: Investments in China will be sensitive to any political, social and diplomatic developments which may take place in or in relation to China. Investors should note that any change in the policies of China may adversely impact on the securities.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	1.44%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	Not applicable
-----------------	----------------

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower. Your financial advisor or distributor can inform you of the associated entry and exit charges.

Ongoing charges are based on the charges for the previous year, ending on 31 December 2022. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another fund.

For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at www.ubp.com.

Past performance

The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund.

Fund launch date: 06/11/2018

Share class launch date: 28/05/2019

Share class currency: USD

Prior 2021, there was no Benchmark.
