

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

## Mercer Sustainable Global Equity Fund (the "Sub-Fund") A sub-fund of MGI Funds plc (the "Umbrella")

Mercer Global Investments Management Limited (the "Manager"), Marsh McLennan Companies, Inc. group  
**A12-H-0.2700-EUR (IE00BGK8YV41) (the "Share Class")**

This Sub-Fund is authorised in Ireland and regulated by the Central Bank of Ireland.  
The Manager is authorised in Ireland and is regulated by the Central Bank of Ireland as a UCITS Management Company.

### OBJECTIVE AND INVESTMENT POLICY

The investment objective of the Sub-Fund is to seek long-term growth of capital and income.

The Sub-Fund will seek to achieve its objective by primarily investing in a diversified range of global equity and equity-related securities. The Sub-Fund seeks to promote environmental and social characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation ("SFDR").

In selecting Sub-Investment Managers for the Sub-Fund, the Investment Manager will limit the available universe to those strategies that have received the highest (ESG1) or second highest (ESG2) ESG ratings by Mercer's global manager research team, and seeks to combine strategies that in turn embed ESG considerations in their investment processes. Further, the Sub-Fund will invest at least 35% in sustainable investments, being investments which, according to the Investment Manager's framework: (a) contribute positively to UN Sustainable Development Goals ("SDGs"); (b) do no significant harm to any environmental or social objective; and (c) follow good governance practices.

The Sub-Fund is actively managed and will seek to outperform the MSCI World Net Total Return Index (the "Index") by 0.75% - 1.5%, gross of the fees of the Manager, the Investment Manager and the Distributor, but net of all other fees and expenses of the Sub-Fund, on average per annum over the medium to long term.

The Investment Manager may use its discretion to invest in, for example, securities, issuers, companies or sectors not included in the Index. The Index is a free-float weighted equity index, that captures large and mid-cap representation across prescribed developed markets countries. There is no guarantee the Sub-Fund will outperform the Index.

The Sub-Fund is anticipated to have a tracking error within a range of 1.5% - 4.0% on an ex-post basis, although this is not a target or a restriction and there is no guarantee the Sub-Fund will stay within this range. Tracking error is an indicator of the degree to which the Sub-Fund's performance may deviate from that of the Index. Certain indices (including the Index) may also be used in the management of the Sub-Fund, including for investment purposes, as detailed in the Supplement.

The Sub-Fund may invest no more than 30% in emerging market listed equity securities.

The Sub-Fund may use financial derivative instruments (instruments for which the price is dependent on one or more underlying asset, "FDI") for hedging and /or investment purposes. FDI may enable the Sub-Fund to obtain market exposure up to 100% in excess of the value of the Sub-Fund's assets. The use of FDI may multiply the gains or losses made by the Sub-Fund on a given investment or on its investments generally.

Your shares will be hedged with the aim of mitigating the effect of exchange rate fluctuations between the currency of your share class and the currencies of the Sub-Fund's underlying assets. The currency hedging approach may not be successful, so changes in exchange rates may adversely impact the value of your investment.

The Share Class will not distribute dividends. Income and capital gains from the Sub-Fund are reinvested.

You can buy and sell shares in the Sub-Fund on demand each day which is a bank business day in Ireland or the United Kingdom.

### RISK AND REWARD PROFILE

The risk and reward indicator value is calculated using historical data and may not be a reliable indicator of the Sub-Fund's future risk profile.

The risk category shown is not guaranteed and may change over time.

The lowest category, 1, does not mean risk free.

The value of investments and income from them can go down as well as up and you may not get back the full amount you invested.

The Share Class is rated 6 due to the nature of its investments which include the risks listed below:

**Equities:** The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political and economic news, company earnings and significant corporate events.

**Emerging markets:** Emerging markets or less developed countries may face more political, economic or structural challenges than developed countries do. This means your money is at greater risk if it is invested in emerging markets.

**Liquidity risk:** Lower liquidity means there are insufficient buyers or sellers to allow the Sub-Fund to sell or buy investments readily.

**Operational risk:** All funds are subject to the risk that something could go wrong in the day-to-day running of an organisation.

**Sector specific:** Investment risk is concentrated in specific sectors, countries, currencies or companies. This means that the Sub-Fund is more sensitive to any localised economic, market, political or regulatory events.

For more information on risks please refer to the "Special Considerations and Risk Factors" section in the prospectus and in the supplement for the Sub-Fund.
