Objectives and investment policy

The aim of the Product is to provide capital growth by investing primarily in a portfolio of equity securities issued by large, medium and small U.S. companies that are expected to show quality characteristics and positive sustainability attributes but are undervalued by the marketplace.
The Investment Manager will primarily choose companies no smaller than the smallest company, and no larger than the largest company in Standard & Poor's 500, at the time of investment. The Product's performance is primarily measured against the Standard & Poor's 500 Index and the Russell 3000® Growth Index as a secondary index. The Product is actively managed within its objective and is not constrained by a benchmark. In particular, the Product integrates what it deems to be financially material ESG factors into its investment due diligence and selection process. In pursuing these opportunities, the Investment Manager will seek to avoid companies that do not respect global norms and conventions, and companies that derive a significant portion of their revenues from activities that the Investment Manager deems not to be compliant with sustainable investment principles, including, but not limited to, revenues drawn from tobacco, alcohol, weapons, adult entertainment, gambling, palm oil or fossil fuel enterprises. Companies that manufacture cluster munitions are also excluded.
This Product promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR.
The Product is a sub-fund of a collective investment scheme set up in Luxembourg as a company with variable capital, a Société d'Investissement à Capital Variable [SICAV]

Any income generated by the Product is reinvested to grow the value of your investment.
This Product is not subject to any fixed term.

You can buy and sell shares in the Product on a daily basis on any full working day in Luxembourg when the New York Stock Exchange is open for trading. Further information on the Product's investment objectives and policy are detailed in the prospectus.
The Product is not suitable for investors who plan to withdraw their money within 5 years. Investors should consider the Product only for the more aggressive portion of their portfolio. The Product is suitable for investors who: Seek a return over the long term; Seek income whether in the form of capital appreciation or distributions, as outlined in the "Dividend Policy" section of the prospectus; Accept the risks associated with this type of investment, as set out in the "Risk Factors" section of the prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- This Fund is categorized as a 6 because funds of this type have historically experienced high rises and falls in value. However, even the lowest category does not mean "risk free". The risk category shown above is not guaranteed and may shift over time. Historical data may not be a reliable indication for the future.

- Currency exchange rate fluctuations may have a positive or negative impact on the value of your investment.
- By focusing its investments in the United States, the fund will have greater exposure to the market, political and economic risks of that country than if it was more diversified across a number of countries.
- With respect to sustainable investing, the Investment Manager seeks to integrate environmental, social and governance (ESG) factors into its investment process by investing in companies that have a product or service that enables more sustainable outcomes, operate their business in a manner aligned with sustainability principles, or have demonstrated a commitment to improving their alignment with ESG principles. The Investment Manager seeks to avoid companies that do not respect global norms and conventions, and companies that derive a significant portion of their revenues from activities that the Investment Manager deems not to be compliant with sustainable investment principles, including, but not limited to revenues drawn from tobacco, alcohol, weapons, adult entertainment, gambling, palm oil or fossil fuel enterprises. Companies that manufacture cluster munitions are also excluded.
- All the risks currently identified as being applicable to the Fund are detailed in the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
