

CT (Lux) Sustainable Multi-Asset Income

Share Class R Inc EUR

31-Mar-24 | For professional investors only

Fund manager
Simon Holmes

Fund objective and policy

The Fund aims to achieve capital appreciation and income through sustainable investments, while maintaining long-term value. The Fund is actively managed. It is not constrained by its comparator benchmark, the 1mth EURIBOR Index, and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. The Fund aims to achieve its objective by investing in a diversified mix of traditional and alternative asset classes which meet high sustainability standards, based on a detailed assessment using internal and external data. Through this the Manager seeks to invest in companies that support a sustainable future; to avoid investments in companies with unsustainable business practices; and to improve investee companies' ESG practices through constructive engagement and voting.

Risk warning

The value of investments and any income derived from them can go down as well as up as a result of market or currency movements and investors may not get back the original amount invested. Screening out sectors or companies may result in less diversification and hence more volatility in investment values. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.
