Fidelity Enhanced Reserve Fund

a sub-fund of Fidelity ICAV II

Fidelity UCITS II ICAV - Fidelity Enhanced Reserve Fund Y-ACC-EUR HEDGED

(ISIN:IE00BKPHX620)

This fund is managed by FIL Investment Management (Luxembourg) S.A.

Objectives and Investment Policy

Objective: The fund aims to provide an attractive level of risk adjusted total return (income plus capital growth) from a portfolio of debt securities issued worldwide.

Investment Policy: The fund invests primarily in a broad range of fixed income securities and money market instruments which are issued by governments of, government agencies or corporate issuers worldwide. These include bonds, bonds with warrants, convertible bonds, contingent convertible bonds (including corporate hybrid securities), subordinated bonds, dim sum bonds, debentures and notes.

The fund may invest in securities issued in both developed and emerging market countries.

The fund may also invest in other permitted assets such as asset backed securities, Sukuk structures (Islamic debt instruments which represent a proportionate beneficial ownership in an asset or pool of assets), cash and cash equivalents and other collective investment schemes. The fund may invest up to 30% in below-investment grade securities and up to 50% in dim sum bonds.

The fund may invest, in the aggregate, up to 20% directly in onshore China fixed income securities through either the China Inter-bank Bond Market or the QFII programme, subject to a maximum of 10% being invested through the QFII programme.

The fund may use derivatives for hedging, efficient portfolio management and investment purposes.

Investment Process: The Investment Manager will approach investment opportunities from a total return perspective, seeking to deliver attractive risk adjusted returns by extracting the highest level of return per unit of risk or minimising the risk for each unit of return. Accordingly, for every level of risk the Investment Manager will look for debt securities with the most attractive yield and for any level of yield, the Investment Manager will aim to purchase debt securities with the lowest level of risk.

The selection of investments shall be driven by bottom-up security selection, based on fundamental and relative-value credit analysis.

Benchmark: N/A. The fund is actively managed without reference to a benchmark.

Base Currency: EUR.

Distribution: As this is a non-distributing share class, dividends are re-invested.

Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This Fund is categorised in risk class 3 because, in accordance with the investment policy, the value of the investments may fluctuate slightly. Consequently, both the expected return and the potential risk of loss may be moderate.

Additional risks: emerging markets, credit.
