## Investment Objective and Policy

**Investment Objective:** The objective of the Fund is to track the U.S. equity market performance of large cap equity securities.

**Investment Policy:** The investment policy of the Fund is to track the performance of the Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible, while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

The Index measures the performance of the top 500 companies in the U.S. equity market which are weighted by market capitalisation, while aiming to screen out certain securities based on their exposure to controversial weapons, civilian firearms, tobacco, thermal coal and companies deemed not compliant with United Nations Global Compact principles. The adoption of these screens within the Index correspond to the environmental and social factors which the Fund promotes, as further described in the "ESG Screening" subsection of the "ESG Investing" section of the Prospectus. Companies deemed by the Index provider to be compliant with the United Nations Global Compact are considered to exhibit good governance.

Index constituents may on occasion be rebalanced more often than the Index Rebalance Frequency, if required by the Index methodology, including for example where corporate actions such as mergers or acquisitions affect components of the Index.

The Investment Manager and/or Sub-Investment Manager, on behalf of the Fund, will invest using the replication strategy as further described in the "**Investment Objectives and Policies – Index Tracking Funds**" section of the Prospectus, primarily in the securities of the Index, at all times in accordance with the Investment Restrictions set forth in the Prospectus. The Investment Manager and/or Sub-Investment Manager also may, in exceptional circumstances, invest in securities not included in the Index but that it believes closely reflect the risk and distribution characteristics of securities of the Index. The equity securities in which the Fund invests will be primarily listed or traded on Recognised Markets in accordance with the limits set out in the UCITS Regulations. Details of the Fund's portfolio and the indicative net asset value per Share for the Fund are available on the Website daily.

## Permitted Investments

**Equities:** The securities in which the Fund invests may include equities, or equity-related securities such as American Depositary Receipts (ADRs) or Global Depositary Receipts (GDRs). ADRs and GDRs are typically used

instead of local shares, where owning the local shares represented in the Index is not possible or prohibitively expensive.

**Other Funds / Liquid Assets:** The Fund may invest up to 10% of its net assets in other regulated open-ended funds (including Money Market Funds) where the objectives of such funds are consistent with the objective of the Fund and where such funds are authorised in member states of the EEA, United Kingdom, USA, Jersey, Guernsey or the Isle of Man and where such funds comply in all material respects with the provisions of the UCITS Regulations. The Fund may hold ancillary liquid assets such as deposits in accordance with the UCITS Regulations.

**Derivatives:** The Fund may, for efficient portfolio management purposes only, use financial derivative instruments ("**FDIs**"). Any use of FDIs by the Fund shall be limited to futures and forward foreign exchange contracts (including non-deliverable forwards). Efficient portfolio management means investment decisions involving transactions that are entered into for one or more of the following specific aims: the reduction of risk; the reduction of cost; the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund; or the minimisation of tracking error, i.e. the risk that the Fund return varies from the Index return. FDIs are described in the "**Investment Objectives and Policies – Use of Financial Derivative Instruments**" section of the Prospectus.

## Securities Lending, Repurchase Agreements & Reverse Repurchase Agreements

The Fund does not currently participate in a securities lending programme, though it is entitled to do so. The Fund also does not intend to engage in repurchase agreements and reverse repurchase agreements. Should the Directors elect to change this policy in the future, due notification will be given to Shareholders and this Supplement will be updated accordingly.

## Investment Risks

Investment in the Fund carries with it a degree of risk. Investors should read the "**Risk Information**" section of the Prospectus. In addition, the following risks are particularly relevant for the Fund.

**Index Tracking Risk:** The Fund's return may not match the return of the Index. It is currently anticipated that the Fund will track the Index with a potential variation of up to 1% annually under normal market conditions. The Fund's ability to track the Index will be affected by Fund expenses, the amount of cash and cash equivalents held in its portfolio, and the frequency and the timing of purchases and sales of interests in the Fund. The Investment Manager

and/or Sub-Investment Manager may attempt to replicate the Index return by investing in a sub-set of the securities in the Index, or in some securities not included in the Index, potentially increasing the risk of divergence between the Fund's return and that of the Index.

**Screening Risk:** There is a risk that the index provider may make errors, such as incorrect assessment of the screen criteria described in the Investment Policy and/or include incorrect/exclude correct constituents in the screening process.

**Concentration Risk:** When the Fund focuses its investments in a particular market, the financial, economic, business, and other developments affecting issuers in that market will have a greater effect on the Fund than if it was more diversified. This concentration may also limit the liquidity of the Fund. Investors may buy or sell substantial amounts of the Fund's shares in response to factors affecting or expected to affect a market in which the Fund focuses its investments.

**Derivatives Risk:** The Fund may use FDIs for efficient portfolio management purposes as described in the derivatives section under Permitted Investments above. The Fund's use of FDIs involves risks different from, and possibly greater than, the risks associated with investing directly in securities.

**Integrating Sustainability Risk:** The integration of Sustainability Risk by the Index does not assure the mitigation of any or all Sustainability Risk. Any deterioration in the financial profile of an underlying investment affected by a Sustainability Risk may have a corresponding negative impact on the Net Asset Value and/or performance of the investing Fund.

**SFDR - Fund Classification Risk:** The SFDR has phased implementation from 10 March 2021 and imposes new disclosure obligations on financial market participants. As at the date of this Prospectus, the implementing Regulatory Technical Standards (Level 2) for SFDR have been released but not adopted by the European Commission and certain concepts newly introduced by SFDR are not currently the subject of centralised implementing standards, local guidance or established market practice. The Fund has been assessed and classified in good faith based on the relevant information currently available. As these standards and guidance develop, the SFDR related disclosures and the Article 8 classification indicated in this Supplement and on the Website are subject to change and may no longer apply.

## **Investor Profile**

The typical investors of the Fund are expected to be institutional, intermediary and retail investors who want to take short, medium or long term exposure to the performance of U.S equities markets and are prepared to

accept the risks associated with an investment of this type, including the expected high volatility of the Fund.

## **Subscriptions, Redemptions & Conversions**

Investors may subscribe for or redeem Shares in the Fund on each Dealing Day at the Dealing NAV with an appropriate provision for Duties and Charges and in accordance with the provisions in the **"Purchase and Sale Information"** section of the Prospectus.

For subscriptions, consideration, in the form of cash or cleared in kind securities, must be received by the Settlement Deadline. For redemptions, a written redemption request signed by the Shareholder is required to be received by the Administrator by the Dealing Deadline on the relevant Dealing Day.

Shareholders should refer to the terms of the **"Purchase and Sale Information"** section of the Prospectus for information on Share conversions.

## **Initial Offer Period**

Shares in the following Share Classes of the Fund will be issued at the Dealing NAV:

SPDR S&P 500 ESG Screened UCITS ETF (Acc)

Shares of the Fund which are not launched as at the date of this Supplement will be available from 9.00 a.m. (Irish time) on 4 August 2021 to 3.00 p.m. (Irish time) on 3 February 2022 or such earlier or later date as the Directors may determine and notify to the Central Bank (the **"Initial Offer Period"**). The initial offer price will be approximately 20 in the currency of the respective share class, plus an appropriate provision for Duties and Charges, or such other amount as determined by the Investment Manager and/or Sub-Investment Manager and communicated to investors prior to investment. Following the closing date of the Initial Offer Period, the Shares will be issued at the Dealing NAV.
