

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

ODDO BHF Global Target 2026

(hereinafter the "Fund")

This UCITS is managed by ODDO BHF Asset Management SAS

ISIN: Dlw-EUR – FR0013450335 – EUR – Distribution

OBJECTIVES AND INVESTMENT POLICY

The investment objective is to achieve a net annualised performance above 2.75% over an investment period running from the Fund inception date, 9 September 2019, to 31 December 2026; The Fund aims to increase the value of the portfolio, in the medium and long term, through speculative (high yield) bonds from corporate issuers rated between BB+ and B- (Standard & Poor's or equivalent as assessed by the Management Company, or according to its own internal rating), and is therefore exposed to a risk of capital loss. The investment objective takes into account the estimate of the risk of default, the cost of hedging and management fees. This objective is based on the realisation of market assumptions laid down by the Management Company. It does not constitute the promise of a return or a performance. Investors should be aware that the performance indicated in the investment objective does not include all cases of default. The Fund's investment strategy is to manage, on a discretionary basis, a diversified portfolio of debt securities composed, up to a limit of 100% of the Fund's net assets, of traditional, high yield bonds rated between BB+ and B- (by Standard & Poor's or equivalent as assessed by the Management Company, or according to its own internal rating) that the manager considers to have been unfairly downgraded by the rating agencies, mainly issued (at least 60%) by corporate issuers with their registered office in an OECD member country and with maturities of a maximum of six months and one day after 31 December 2026 (final maturity of the product or early redemption options at the Fund's discretion). Within the limit of 40% of the net assets, the Fund may hold securities from corporate issuers whose registered office is located outside of the OECD, including in emerging countries. The Fund will implement its investment strategy over an investment period through to a maturity date set by the Management Company (initially 31 December 2026). The strategy is not limited to holding bonds; the Management Company may make changes to the portfolio to take advantage of new opportunities in the market, or if it detects an increase in the risk of default of one of the issuers in the portfolio. These securities will be denominated in all OECD currencies and hedged against currency risk; however, there will be a residual currency risk of no more than 5% of net assets. The average duration of the debt securities will be between zero and seven years. The average duration of the debt securities will be calculated based on a portfolio comprising securities with a maximum maturity of 31 December 2026 plus six months and one day. Given the Fund's performance target and specific maximum maturity for securities held, the selection of securities may vary over time at the portfolio manager's discretion, depending on market opportunities and coming to maturity of securities. In particular, the Fund may invest up to 100% of its assets in investment grade securities rated higher than BB+ (Standard & Poor's or equivalent as assessed by the Management Company, or according to its own internal rating). The Management Company does not use the ratings issued by ratings agencies automatically or in isolation, as it also applies its own internal

analysis. In the event that the securities' rating is downgraded below B- (Standard & Poor's or equivalent, or according to its own internal rating), the Management Company will decide whether or not to dispose of the securities in light of its own analysis, the interests of unitholders and market conditions. The Fund may invest up to 10% of its net assets (i) in units or shares of UCITS, (ii) in EU AIFs and/or in foreign investment funds mentioned in R.214-25 that meet the criteria of article R.214-13 of the French Monetary and Financial Code. These funds may be managed by the management companies of the ODDO BHF group (ODDO BHF Asset Management SAS and/or ODDO BHF Asset Management GmbH and/or ODDO BHF Asset Management Lux) and will be compatible with the Fund's investment strategy. Without seeking overexposure, up to 100% of the Fund's assets may be invested in financial futures or options traded on regulated, organised or OTC markets in France or other countries. The Fund will invest in listed forward financial instruments in order to seek exposure to and hedge against interest rate risk and for the purpose of hedging against currency risk (futures, options). It may also use swaps and forward exchange contracts to hedge against currency risk. Index credit default swaps (CDS) will be used only to hedge against credit risk up to a maximum of 100% of the Fund's net assets. The Fund will not use total return swaps (TRS). The Fund's maximum exposure to the markets (equities, debt securities, funds and derivatives) may not exceed 100% of net assets, it being understood that the maximum exposure is the sum of the net exposures to each of the markets (equity, fixed income, money) to which the Fund is exposed (the sum of long and hedging positions). Subscription period: new subscriptions will not be accepted after 11:15 (Paris time) on 29 December 2023 (subject to any early close or extension to be decided at the Management Company's discretion). Subscription, conversion and redemption requests are centralised by the depositary every Paris stock exchange trading day until 11:15 (Paris time, CET/CEST) and executed on the basis of the net asset value of the same day. The Management Company may make use of a gate provision to cap redemptions. For more details on this provision, please refer to the "Gate provision for capping redemptions" section of the prospectus, available at <http://am.oddo-bhf.com>. Other information: The management team takes into account environmental, social and governance (ESG) criteria in its investment decisions but they are not the dominant factor. The investment decisions taken may therefore not be consistent with ESG criteria.

Dlw-EUR units distribute their income.

Recommended investment horizon: the recommended minimum investment horizon is the term through to the end of the investment period and each extension of the investment period (i.e. through to 31 December 2026 for the first period).

This Fund may not be appropriate for investors who plan to withdraw their money within this period.

RISK AND REWARD PROFILE

Historical data, such as is used to calculate the synthetic indicator, may not be a reliable indication of the future risk profile of the Fund. The risk profile is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment. The capital initially invested is not guaranteed.

Why is the Fund placed in category 3?

This Fund presents a high level of risk compared to other funds composed predominantly of bonds. This may be attributed to the Fund's investment policy, which consists in selecting speculative (high yield) debt securities issued by issuers of all geographic regions (including emerging countries). These securities may come with a high risk of default in comparison with investment grade bonds, which is not fully factored into the fund's risk category.

Material risks to the Fund that are not taken into account in the indicator:

Credit risk: this is the risk of a downgrading of an issuer's credit rating or the risk of an issuer's insolvency.

Liquidity risk: the Fund invests in markets which may be affected by declines in liquidity. Low volumes of market transactions may have an impact on prices at which the manager opens or closes positions.

Counterparty risk: the risk of a counterparty's collapse, causing it to default on payment. The Fund may be exposed to this risk resulting from the use of forward financial instruments or temporary purchases and sales of securities contracts negotiated over-the-counter with a credit institution if the latter is unable to honour its commitments.

If one of these risks were to materialise, the Fund's net asset value may fall.

CHARGES

Charges and fees paid are used to pay the costs of marketing and distributing units; these charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charges	4.00%
Exit charges (not payable to the Fund)	None
Exit charges payable to the Fund	1% during the subscription period. None after the end of the subscription period.

Subject to exceptions, the charges payable to the Fund consist of a fixed percentage fully deducted by the Fund; charges not payable to the fund consist of the maximum amount that might be deducted and are payable to the Distributor. In some cases, investors may pay less.

These charges are deducted from your capital before it is invested and/or before the proceeds of your investment are paid out.

Charges taken by the Fund over one year	
Ongoing charges	0.66%

Charges taken by the Fund under specific conditions	
Performance fees	None

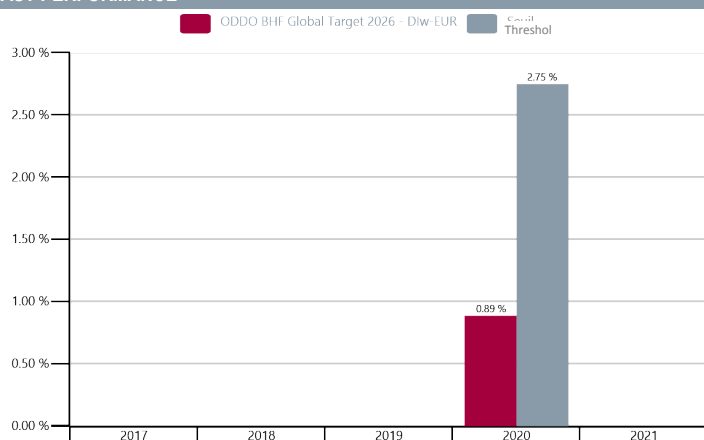

Ongoing charges are based on the expenses for the last financial year ended December 2020.

Actual charges may vary from year to year. The Fund's annual report for each financial year includes detail on the exact charges incurred.

These charges do not include: performance fees and intermediary fees except in the case of entry and/or exit charges paid by the Fund when it buys or sells units in another collective investment vehicle.

For more details regarding fees, please refer to the "Fees and Expenses" section of the prospectus, available at am.oddo-bhf.com.

PAST PERFORMANCE

Performance varies over time and is not an indication of future results.

The annualised performances shown in this chart are calculated after deducting all charges taken by the Fund.

This Fund was created on 9 September 2019. The reference currency is the euro (EUR).

The Fund does not have a benchmark index. The threshold of 2.75% is used to compare performance and, where applicable, to calculate performance fees.

PRACTICAL INFORMATION

Depository: ODDO BHF SCA
