

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

TwentyFour Strategic Income Fund

ISIN	LU2084840284
Share Class	HNY (hedged)
Currency	EUR

a sub-fund of Vontobel Fund

This fund is managed by Vontobel Asset Management S.A., which is part of Vontobel Group.

This fund is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Objectives and investment policy

This actively managed sub-fund seeks to achieve an attractive level of income along with the opportunity of capital growth.

- As a fund managed independently of a benchmark, the sub-fund will generate exposure, in particular, to the fixed-income asset class on a relative value basis. It will take eligible securities from the worldwide range of fixed-interest and floating rate securities, including government, supranational, and corporate bonds as well as asset-backed securities. There shall be no constraints on the rating of the securities.
- Up to 49% of the sub-fund may be invested in contingent convertible bonds (CoCos) and up to 20% in asset-backed securities. The sub-fund may also hold cash. In adverse market conditions the sub-fund may build up exposure of up to 100% to money market instruments or cash.
- The sub-fund may use derivatives to achieve the investment objective and for hedging purposes.

- The currency of this class is continually hedged against the sub-fund's main currency. This hedging does not necessarily cover all currency risks. It entails costs which in turn reduce the share class' return.
- The sub-fund is not managed with reference to a benchmark. The portfolio manager has full investment discretion within the predefined investment limits.
- Any income generated will be reinvested and included in the value of your shares.
- Buying and selling securities entails transaction costs payable in addition to the charges listed.
- Redemption of shares: daily when banks in Luxembourg and in London are open for normal business (see prospectus for details and exceptions).
- HNY (hedged) shares are reserved exclusively for specific investors and for investors who invest at least 500 million EUR. They do not grant any rebate or retrocessions. See prospectus for details.

Risk and reward profile

The indicator above does not signal the risk of a potential loss, but indicates the fluctuations in the sub-fund's share price in the past.

- The share class is assigned to this category because its share price can fluctuate moderately due to the investment policy applied.
- The historical data used to calculate the profile cannot be used as a reliable guide to the future risk profile of the sub-fund.
- The risk category shown is not guaranteed and may change.
- Even the lowest risk category is not entirely free of risk.

When assigning a sub-fund's share class to a risk category, it may be the case that not all risks are taken into account. Such risks include

- risks in connection with exceptional market events, operational errors, legal and political events. You can find a detailed list of the risks in the "Notice regarding special risks" section in the general part of the sales prospectus. The following risks have no direct influence on this category, but may still be important:
- Securities with a lower credit quality means a higher risk that an issuer may fail to meet its obligations. The investment value may fall if an issuer's credit rating is downgraded.
 - Using derivatives creates significant leverage and entails valuation risks and operational risks. Leverage magnifies gains but also losses. Over-the-counter derivatives involve corresponding counterparty risks.
 - Asset-backed securities and their underlying receivables are often intransparent. The sub-fund may also be subject to a higher credit and/or prepayment risk.
 - CoCo-Bonds are associated with significant risks, including the risk of coupon payments being cancelled, capital structure inversion risk, and the risk of a CoCo-Bond's maturity being extended.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs for managing, marketing and distributing it. These charges reduce the return on your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.30%
Conversion fee	1.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	0.65%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee

not charged

Past performance

The chart shows past performance based on full calendar years. One-off charges are not included when calculating performance.

- Past performance is not an indicator of current or future returns.
- The stated performance of the share class includes ongoing charges, but excludes one-off charges.
- Shares were first issued for this share class in 2020. Sub-fund launch year: 2015.
- Past performance of the fund is shown in the currency of the share class (EUR).
