Risk considerations

ABS and MBS risk: The underlying borrowers of these securities may not be able to pay back the full amount that they owe, which may result in losses to the fund.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Please see the KIID and Prospectus for a full list of risk considerations applicable to this fund.

Information relating to changes in fund manager, investment objective, benchmark and corporate action information

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The full track record of the previous index has been kept and chain linked to the new one. The fund's performance should be assessed against its target benchmark, being to deliver ICE BofA 3 Month US Treasury Bill Index + 3.5% and compared against the ICE BofA Merrill Lynch US Floating Rate Asset Backed Securities index. The comparator benchmark is only included for performance comparison purposes and does not have any bearing on how the investment manager invests the fund's assets. Whilst the fund's investments are generally expected to deviate significantly from the components of the comparator benchmark, dependent on the investment manager's views, the fund's investments may overlap with them. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the comparator benchmark. The investment manager will invest in companies or sectors not included in the comparator benchmark. The target benchmark has been selected because the target return of the fund is to deliver the return of that benchmark as stated in the investment objective. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy. On 01.05.2021 the ICE BofA 3 Month US Treasury Bill Index +3.5% replaced the 3-month USD LIBOR +3.5%.

Benchmarks:

The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the benchmark. The investment manager will invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities.

Important information

Costs

Certain costs associated with your investment in the fund may be incurred in a different currency to that of your investment. These costs may increase or decrease as a result of currency and exchange rate fluctuations.

If a performance fee is applicable to this fund, details of the performance fee model and its computation methodology can be found in the fund's prospectus. This includes a description of the performance fee calculation methodology, the dates on which the performance fee is paid and details of how the performance fee is calculated in relation to the fund's performance fee benchmark, which may differ from the benchmark in the fund's investment objective or investment policy.

For further information regarding the costs and charges associated with your investment, please consult the funds' offering documents and annual report.

General

This document does not constitute an offer to anyone, or a solicitation by anyone, to subscribe for shares of Schroder International Selection Fund (the "Company").
