Source: Fund Administrator: BNY Mellon Fund Services (Ireland) DAC since February 2011, performance data prior to this date is sourced from PGI and/or its affiliates; and the Index.

Data: From December 2018, the performance data shown is based upon the Fund's Net Asset Value (NAV) prices of the last Irish business day of the month. For Funds not open for dealing on this day this will be an indicative NAV. The performance data shown is net of fees and other charges but excludes any potential entry/exit charges- as such the return an investor receives may be lower. Prior to December 2018, the performance data shown is based upon the Fund's month-end market close prices. (See performance note for further details.)

Fund analysis

Average Credit Quality	BB-	AA+
Current Yield	5.8	2.1
Yield to Worst	7.3	4.4
Yield to Maturity	7.3	4.4
Effective Duration (Years)	1.8	1.4

Any yields quoted on the fact sheet are calculated at portfolio level gross of tax and expenses.

 Current Yield is the annual interest earned on the underlying bonds divided by the market price of the underlying portfolio of bonds. The figure is not the dividend yield received by the investors and is subject to change depending on the underlying portfolio of bonds.

Cumulative performance since inception (%)

- Yield to Worst is the lowest potential yield that can be received on a bond without the issuer actually defaulting. The yield to worst is calculated by making the worst-case scenario assumptions on the issue.
- Yield to Maturity is a concept used to determine the rate of return an investor will receive if a long-term, interest-bearing investment, such as a bond, is held to its maturity date. Please note that this is not the return or dividend to be received by investors in the fund.

*Index disclosure: The Fund is actively managed and aims to outperform the BBG US GOVT 1-2 YEAR INDEX GTR (the "Index"). The portfolio manager may reference the Index as part of the investment management process, and it is also considered as part of the investment risk monitoring process. However, the portfolio manager maintains full discretion to select investments for the Fund in line with the above investment policy.

This document presents the performance of this particular unit class of the Fund from the date of inception of the unit class in its unit class currency, as specified on the front

page. Performance since inception date of the Fund, which precedes the inception date of the unit class, is available upon request.

Prior to 31st December 2018, the data performance calculations reflect the month-end market close prices of the Fund's assets. After 1 January 2019, the performance data shown is based upon the Fund's Net Asset Value (NAV) prices of the last Irish business day of the month. For Funds not open for dealing on this day this will be an indicative NAV. As a result, it is possible that the stated performance and the actual investment returns available to investors will differ.

For income unit classes, returns are measured on a total return basis i.e. net investment income plus capital gain or loss from investment.

The performance data shown is net of fees and other charges but excludes any potential entry/exit charges – as such the returns an investor receives may be lower.
